Zizo ZPV-DC-USBCLTN6FT-WH

Zizo POWERVAULT MFi Certified Fast Charge Cable USB-C to Lightning Cable User Manual

Model: ZPV-DC-USBCLTN6FT-WH

PRODUCT OVERVIEW

The Zizo POWERVAULT USB-C to Lightning Cable is designed to provide high-speed charging and efficient data transfer for your Apple devices. This MFi certified cable ensures compatibility and reliable performance with iPhones, iPads, and iPods. Its durable construction, featuring a premium ultra-strong nylon braided exterior, offers enhanced longevity and tangle-free use.

Key features include:

- **High-Speed Charging:** Capable of charging iPhone 8 and newer devices up to 50% in just 30 minutes when paired with a compatible USB-C PowerVault Charger.
- **Flexible, Versatile, Durable:** Constructed with a robust nylon braid and TPE material for superior flexibility and resistance to wear and tear.
- **Data Sync:** Supports seamless transfer of data, photos, and music to your USB-C enabled device.

SETUP

Setting up your Zizo POWERVAULT cable is straightforward. Follow these steps to begin charging or syncing your device:

1. **Connect to Power Source:** Insert the USB-C end of the cable into a compatible USB-C power adapter (wall charger, car charger, or power bank) or a USB-C port on a computer. For optimal fast charging, use a USB-C Power Delivery (PD) charger.
2. **Connect to Device:** Insert the Lightning end of the cable into the charging port of your iPhone, iPad, or iPod. Ensure the connection is firm.
3. **Verify Connection:** Your device should indicate that it is charging or connected for data transfer.

Compatible Devices: This cable is compatible with a wide range of Apple devices, including but not limited to: iPhone

14/13/12/11/X/XR/XS/8/7/6/6s/5/5s/5c, iPhone Pro 14/13/12/11, iPhone Pro Max 14/13/12/11/XS, iPhone Plus 14/8/7/6/6s, iPhone SE (1st, 2nd, 3rd Gen), iPhone mini 13/12, iPad Pro 10.5 in/9.7 in, iPad Air 3/2/1, iPad mini 5/4/3/2/1, iPad (9th Gen and older), iPod Touch (5th Gen and older), iPod nano (7th Gen), and Beats Pill+.

OPERATING INSTRUCTIONS

Charging Your Device

Once connected as described in the Setup section, your device will begin charging automatically. For optimal charging speed, especially for iPhone 8 and newer models, ensure you are using a USB-C Power Delivery (PD) wall adapter or power source that supports fast charging.

30W

OUTPUT CHARGING POWER

Data Transfer

To transfer data (photos, videos, music, documents) between your Apple device and a computer with a USB-C port:

1. Connect the USB-C end of the cable to your computer's USB-C port.
2. Connect the Lightning end to your Apple device.
3. Your computer should recognize the device. Follow the on-screen prompts on your computer and device to allow data access and begin transferring files.

MAINTENANCE

Proper care and maintenance will extend the lifespan of your Zizo POWERVAULT cable:

- **Avoid Extreme Bends:** While the cable is designed to be flexible and durable, avoid sharp or extreme bends,

especially near the connectors, to prevent internal wire damage.

- **Store Properly:** When not in use, coil the cable loosely. Avoid tangling or knotting the cable.
- **Keep Clean:** Gently wipe the cable and connectors with a dry, soft cloth to remove dust or debris. Do not use harsh chemicals or abrasive materials.
- **Handle Connectors Carefully:** Always pull from the connector housing, not the cable itself, when unplugging from a device or power source.

TROUBLESHOOTING

If you encounter issues with your Zizo POWERVAULT cable, try the following troubleshooting steps:

- **Device Not Charging:**

- Ensure both ends of the cable are securely connected.
- Try a different power adapter or USB-C port.
- Test the cable with a different compatible device to rule out device issues.
- Check the charging port on your device for any debris or lint.

- **Slow Charging:**

- Verify that your power adapter is a USB-C Power Delivery (PD) charger, especially for fast charging.
- Ensure the power adapter provides sufficient wattage for your device.

- Close unnecessary apps on your device that might be consuming power.

- **Data Transfer Issues:**

- Ensure your computer's USB-C port is functioning correctly.
- Restart both your computer and your Apple device.
- Confirm that you have granted permission for data access on your device when prompted.
- Try a different USB-C port on your computer.

If problems persist after trying these steps, please refer to the Support section.
