5. Maintenance

5.1 Cleaning

To clean your Monster Trucks, wipe them with a damp cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the toy's finish or color-changing properties. Ensure the toy is completely dry before storing.

5.2 Storage

Store the Monster Trucks and their accessories in a cool, dry place away from direct sunlight to preserve their color and material integrity.

6. Troubleshooting

6.1 Color Change Not Working

If the color change feature is not functioning as expected, ensure there is a significant temperature difference between the hot and cold water used. For optimal results, use very cold water (possibly with ice) and warm water. Some users have found rubbing ice directly on the truck helps activate the cold-sensitive color change.
