K&F Concept KF13.115US

K&F Concept 32mm Camera Neck Strap Instruction Manual

Model: KF13.115US

Introduction

This manual provides comprehensive instructions for the K&F Concept 32mm Camera Neck Strap. Designed for photographers, this versatile strap offers multiple carrying options and robust security features for your camera equipment. Please read this manual thoroughly before use to ensure proper handling and maximize the lifespan of your product.

Safety Information

Always ensure all connections are securely fastened before entrusting your camera to the strap. Regularly inspect the strap and its components for any signs of wear or damage. Discontinue use immediately if any part of the strap appears compromised. The strap is designed to support a maximum load capacity of 80 pounds. Do not exceed this limit.

Figure 2: Safety Warning System on Anchor Link. Black indicates normal use, yellow indicates wear and need for timely replacement, and red indicates immediate replacement is required.

Package Contents

Verify that all items are present in the package:

Setup

Follow these steps to properly attach the camera strap to your camera:

1. **Attach Anchor Links:** Thread the loop of each quick release anchor link through the strap lugs on your camera. Ensure the loop passes completely through and is secure.
2. **Connect Strap:** Align the quick release buckle on the strap with the attached anchor link. Press firmly until you hear a click, indicating a secure connection. Repeat for the other side.
3. **Verify Connection:** Gently pull on the strap to confirm that both quick release buckles are firmly attached to the anchor links and that the anchor links are secure on the camera lugs.

Operating

The K&F Concept Camera Neck Strap offers three primary carrying modes:

- **Neck Strap Mode:** Wear the strap around your neck, allowing the camera to rest comfortably on your chest.
- **Shoulder Strap Mode:** Drape the strap over one shoulder, letting the camera hang at your side.
- **Crossbody Strap Mode:** Wear the strap across your body, from one shoulder to the opposite hip, for enhanced stability and security.

Adjust the strap length using the integrated adjusters to achieve optimal comfort and camera positioning for your chosen mode. The maximum length is 160 cm, and the minimum length is 100 cm.

Maintenance

To ensure the longevity and performance of your K&F Concept Camera Neck Strap, follow these maintenance guidelines:

- **Cleaning:** Wipe the strap with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners. Allow to air dry completely before re-use.
- **Inspection:** Periodically check the strap webbing, stitching, quick release buckles, and anchor links for any signs of fraying, cracks, or deformation. Pay close attention to the color-coded fibers on the anchor links as a wear indicator (refer to Figure 2).
- **Storage:** Store the strap in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Strap feels loose or insecure.	Quick release buckles not fully engaged or anchor links not properly threaded.	Ensure buckles click into place. Re-thread anchor links if necessary and pull to test security.
Strap is uncomfortable.	Incorrect length adjustment or carrying mode.	Adjust strap length for optimal fit. Experiment with neck, shoulder, or crossbody modes for best comfort.
Visible wear on anchor links (yellow/red fibers).	Normal wear and tear, or excessive load/abrasion.	Replace anchor links immediately. Contact K&F Concept support for replacement parts.
