3. Operating Instructions

Your SHW desk features an intuitive control panel for easy height adjustment and memory functions.

- **Electric Height Adjustment:** Use the up (▲) and down (▼) arrows on the digital control panel to seamlessly transition between sitting and standing positions. The desk adjusts from 28" to 46".
- **Programmable Memory Controller:** The digital control panel includes four memory presets (1, 2, 3, 4). To save a preferred height, adjust the desk to your desired level, then press and hold one of the memory buttons until the display flashes or beeps, indicating the height is saved. To recall a saved height, simply press the corresponding memory button.

6. Maintenance

To maintain the longevity and appearance of your SHW Electric Height Adjustable Sit-Stand Desk, please follow these simple care instructions:

- **Cleaning:** Wipe the desk surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the laminated finish.
- **Regular Checks:** Periodically check all screws and connections to ensure they are tight and secure.
- **Motor Care:** Keep the motor and control panel free from dust and spills. Do not attempt to open or service the motor unit yourself.

7. Troubleshooting

If you encounter any issues with your SHW Electric Height Adjustable Sit-Stand Desk, please refer to the following guidelines:

- **Desk Not Adjusting:** Ensure all power cables are securely plugged into the desk and a working power outlet. Check for any obstructions under or around the desk that might impede movement.
- **Unstable Desk:** Verify that the desk is placed on a stable, level surface. Adjust the leveling glides on the feet if necessary to eliminate wobbling.
- **Weight Limit:** Do not exceed the maximum weight capacity of the desk (110 lbs). Overloading can damage the motor and frame.
- **Assembly Issues:** If you suspect an assembly error, carefully review the assembly instructions provided with your desk.
