MOFII SK-646BT WP

MOFII Wireless Keyboard Candy BT User Manual

Model: SK-646BT WP | Brand: MOFII

Introduction

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your MOFII Wireless Keyboard Candy BT. Please read this manual carefully before using the product to ensure proper functionality and longevity.

Setup

1. Unboxing and Battery Installation

Carefully remove the keyboard from its packaging. Locate the battery compartment on the underside of the keyboard. Insert the required batteries (typically AAA, not included) ensuring correct polarity as indicated inside the compartment. Close the battery cover securely.

2. Powering On

Locate the power switch, usually on the top right edge or underside of the keyboard. Slide the switch to the "ON" position. An indicator light may briefly illuminate.

3. Bluetooth Pairing

1. Ensure your device (computer, tablet, smartphone) has Bluetooth enabled.
2. On the keyboard, press and hold the **Fn** key and one of the Bluetooth channel keys (**BT1**, **BT2**, or **BT3**, usually located near F1-F3) for 3-5 seconds until the corresponding indicator light starts blinking rapidly. This indicates the keyboard is in pairing mode.
3. On your device, go to Bluetooth settings and search for new devices.
4. Select "MOFII Keyboard" or a similar name from the list of available devices.
5. Follow any on-screen prompts to complete the pairing process. You may be asked to type a code on the keyboard and press Enter.
6. Once paired, the indicator light on the keyboard will stop blinking and remain solid or turn off, indicating a successful connection.

Operating Instructions

Basic Typing

Once connected, the keyboard functions like a standard QWERTY keyboard. Simply begin typing.

Function Keys (Fn)

The keyboard features multimedia and system function keys accessible by holding down the **Fn** key and pressing the

corresponding F-key (F1-F12) or other designated keys. Common functions include:

- **Fn + F1-F3:** Switch between paired Bluetooth devices (BT1, BT2, BT3).
- **Fn + F4:** Mute audio.
- **Fn + F5:** Decrease volume.
- **Fn + F6:** Increase volume.
- **Fn + F7:** Previous track.
- **Fn + F8:** Play/Pause.
- **Fn + F9:** Next track.
- **Fn + F10:** Web browser.
- **Fn + F11:** My Computer/File Explorer.
- **Fn + F12:** Calculator.

Maintenance

Cleaning the Keyboard

To maintain the keyboard's appearance and functionality, regularly clean it. Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution. Avoid excessive moisture. For dust and debris between keys, use compressed air. Do not immerse the keyboard in liquid.

Battery Replacement

When the keyboard's performance degrades or the low battery indicator (if present) illuminates, it's time to replace the batteries. Follow the battery installation steps outlined in the "Setup" section. Dispose of old batteries responsibly according to local regulations.

Troubleshooting

- **Keyboard not connecting/pairing:**
  - Ensure the keyboard is powered on and batteries are correctly installed and charged.
  - Make sure Bluetooth is enabled on your device.
  - Move the keyboard closer to your device.
  - Try re-entering pairing mode on the keyboard (Fn + BT1/BT2/BT3).
  - Remove the keyboard from your device's Bluetooth list and attempt to pair again.
  - Restart both the keyboard (power off/on) and your device.

- **Keys not responding:**
  - Check battery level; replace if low.
  - Ensure the keyboard is properly connected via Bluetooth.
  - Clean any debris that might be stuck under the keys.
  - Test the keyboard on another device to rule out device-specific issues.
- **Lag or delayed input:**
  - Ensure there are no strong interferences (e.g., other wireless devices) nearby.
  - Move closer to your device.
  - Check battery level.

Specifications

Answered questions about this manual

Why does my MOFII SK-646BT WP keyboard light up for 5 seconds and then stop, while the mouse blinks twice and stops?

Based on the MOFII SK-646BT WP manual, the behavior you are describing (lights turning on briefly and then turning off) is often normal for power-saving or pairing modes, but if the devices are not...
