BOBLOV M5-64G

BOBLOV M5 2K HD Body Camera User Manual

Model: M5-64G | Brand: BOBLOV

1. INTRODUCTION

The BOBLOV M5 Body Camera is a robust and versatile recording device designed for law enforcement, security personnel, and personal use. It captures high-definition video and still images, offering reliable performance in various conditions. This manual provides detailed instructions for setting up, operating, and maintaining your M5 body camera.

2. PACKAGE CONTENTS

Before you begin, please ensure all items listed below are present in your package:

- 1 x BOBLOV M5 Body Camera
- 1 x USB Cable
- 1 x Short 360° Rotating Clip
- 1 x Long 180° Rotating Clip
- 1 x User Manual
- 1 x Car Suction Cup Mount
- 1 x Car Charger

What's in the Box?

3. SETUP

3.1 Initial Charging

Before first use, fully charge the M5 body camera. Connect the camera to the provided USB cable and a standard 5V/1-2A adapter or the car charger. A full charge typically takes 5 to 6 hours. The battery indicator on the screen will show charging progress.

Built-in 4200mAh Battery

Support 12 Hours Video Record

3.2 Attaching the Clip

Select either the short 360° clip or the long 180° clip based on your preference. Attach the chosen clip to the back of the camera. The clips allow for secure attachment to uniforms, belts, or other gear.

Wearable M5 Bodycam

Free Hands for Security Guard

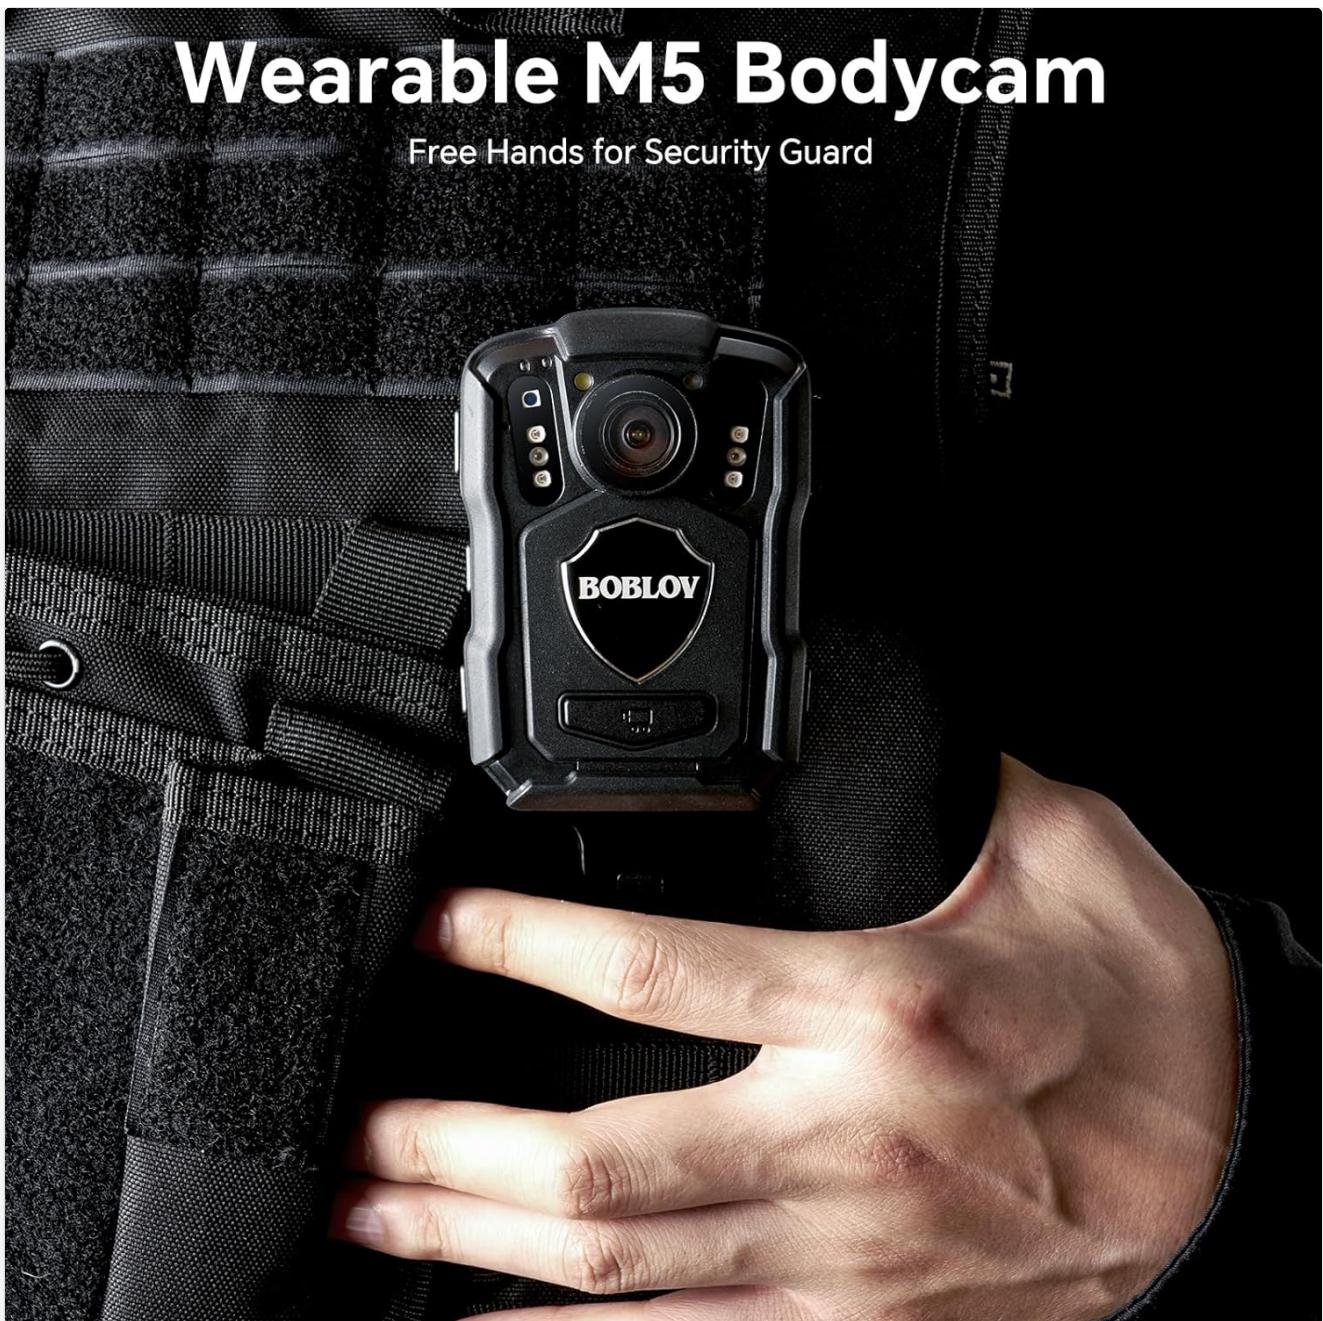

Image: The BOBLOV M5 body camera securely clipped onto a tactical vest, showcasing its practical wearable design.

3.3 Car Mount Installation

The included car suction cup mount allows the M5 to function as a dash camera. Attach the suction cup to your vehicle's windshield and secure the camera to the mount.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

Press and hold the Power button to turn the camera on or off.

4.2 Video Recording

The M5 supports 2560 x 1440p video recording at 30 frames per second. Press the Video Record button to start recording. Press it again to stop. The camera also supports loop recording, overwriting the oldest files when storage is full.

Full HD 2K Bodycam

Capture Crisp 2K/1440P Video & 48M Photo

HD 2K

Blurry

4.3 Photo Capture

Capture high-resolution photos up to 48 million pixels. Switch to photo mode and press the Photo button to take a picture.

4.4 Night Vision

The M5 features 6 built-in infrared lights for night use. Night vision can be activated automatically or manually, providing clear footage in low-light conditions.

With Night Vision

Set Up at Night for Protecting Car & Human Security

Image: The BOBLOV M5 body camera, mounted inside a vehicle, demonstrating its effective night vision capabilities in a dark environment.

4.5 Alarm Function

The camera is equipped with red and blue flashing lights and an alarm sound, useful for specific situations requiring attention or evidence collection.

4.6 Playback

Review recorded videos and photos directly on the camera's 2-inch screen. Navigate through files using the control buttons.

Compact 2-Inch Screen for Viewing

Image: A detailed view of the BOBLOV M5 body camera's compact 2-inch screen, displaying a video playback.

4.7 Connecting to a Computer

Connect the M5 camera to a computer using the provided USB-C cable to access recorded files. The camera uses internal storage (64GB for this model).

Built-in Memory

64GB/128GB/256GB are Available

Image: An X-ray view diagram of the BOBLOV M5 body camera, highlighting its internal memory and indicating various storage capacities available for different models.

4.8 GPS Functionality (Note for M5-64G)

While some BOBLOV M5 models feature GPS for location tracking in video metadata, the M5-64G model (indicated by 'NOGPS' in its full product name) does not include this functionality.

5. MAINTENANCE

5.1 Cleaning

Wipe the camera body and lens with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

5.2 Battery Care

The 4200mAh battery provides approximately 15 hours of recording time (at 1080p, IR off) and 25 hours of standby time. For optimal battery life, avoid extreme temperatures and fully charge the device regularly.

5.3 Water and Drop Resistance

The M5 camera features an IP67 waterproof rating, allowing it to withstand heavy rain and temporary submersion (up to half an hour). It is also designed to resist drops from up to 2 meters. While durable, avoid intentional abuse or prolonged exposure to water.

Image: The BOBLOV M5 body camera, visibly wet, demonstrating its IP67 water resistance and robust build designed to withstand drops from up to 2 meters.

6. TROUBLESHOOTING

6.1 Charging Issues

If the camera is not charging, ensure the USB cable and adapter are functioning correctly. Some users have reported issues with the provided household charger; try using a different high-quality 5V/1-2A charger if problems persist.

6.2 Wobbly Car Mount

If the car mount becomes wobbly, inspect the rivet where the body camera attaches. If it has loosened, a crafty repair may be needed to snug up the space created by the loose rivet.

6.3 USB Connection Behavior

When connecting the camera via USB to a laptop or computer, the camera may stop recording and enter charging mode (indicated by a blue light). You will need to manually restart recording after disconnecting the USB cable.

7. SPECIFICATIONS

Feature	Specification
Brand	BOBLOV
Model	M5-64G
Color	Black
Product Type	Compact
Screen Size	2 inches
Special Features	Motion Detection, Alarm Function (Red/Blue Flashing Lights)
