- 1x Car Charger

What's in the Box?

An overview of the BOBLOV M5 Body Mounted Camera package contents, including the camera, clips, charging accessories, and user manual.

PRODUCT OVERVIEW

The BOBLOV M5 camera is designed for ease of use and durability. Key components include the camera lens, IR lights for night vision, a 2-inch display screen, and various control buttons for operation.

Compact 2-Inch Screen for Viewing

The compact 2-inch screen on the BOBLOV M5 Body Mounted Camera allows for immediate viewing of recorded footage and settings adjustments.

SETUP

1. Charging the Battery

Before initial use, fully charge the camera's built-in 4200mAh battery. Connect the camera to a power source using the provided USB cable. A full charge typically takes 5-6 hours. The battery supports up to 12 hours of recording (at 1080P with IR off) and 15 hours of standby time.

3. Attaching Clips

The camera includes both a Short 360° Clip and a Long 180° Clip for versatile mounting options. Choose the appropriate clip based on your intended use and attach it securely to the back of the camera. These clips allow for hands-free operation, ideal for security personnel or outdoor activities.

Wearable M5 Bodycam

Free Hands for Security Guard

The BOBLOV M5 Body Mounted Camera securely clipped onto a tactical vest, demonstrating its wearable design for hands-free use by security personnel.

4. Dashcam Setup

The M5 camera can be converted into a dashcam using the included car suction bracket and car charger. Mount the camera to your windshield using the suction bracket. Connect the car charger to power the device, enabling continuous monitoring and one-click recording for up to 12 hours, even without car ignition.

With Night Vision

Set Up at Night for Protecting Car & Human Security

The BOBLOV M5 Body Mounted Camera, positioned on a car windshield, functioning as a dashcam with night vision capabilities for enhanced security.

OPERATING INSTRUCTIONS

1. Power On/Off

To power on the camera, press and hold the Power button located on the side. To power off, press and hold the Power button again until the device shuts down.

2. Video Recording

The M5 records video in 2560x1440P at 30 frames per second (2K resolution). Press the dedicated Video Record button to start recording. Press it again to stop. The camera supports loop recording, automatically overwriting the oldest files when memory is full.

Full HD 2K Bodycam

Capture Crisp 2K/1440P Video & 48M Photo

A visual comparison demonstrating the clear 2K HD video quality of the BOBLOV M5 Body Mounted Camera compared to a blurry image.

3. Photo Capture

Capture high-resolution 48MP photos by pressing the Photo button. Photos can be taken even while recording video.

4. Night Vision

Equipped with 6 IR lights, the M5 provides clear video and photo capture in low-light conditions. Activate night vision mode as needed for enhanced visibility during nighttime operations.

5. Motion Detection

The camera features motion detection, allowing it to automatically start recording when movement is detected within its field of view. This feature helps conserve battery life and storage space.

6. Red & Blue Flashing Lights and Alarm Sound

For specific situations, the camera can activate red and blue flashing lights along with an alarm sound. Refer to the menu

settings to enable or disable these functions.

7. Stealth Mode

For discreet operation, the M5 offers a stealth mode that disables all indicator lights and sounds. This ensures recording without drawing attention.

8. Playback

Review recorded videos and photos directly on the 2-inch screen. Use the navigation buttons to browse through your files.

9. Connecting to Computer

To transfer files, connect the camera to your computer using the provided USB cable. The camera will appear as a removable disk, allowing you to access and manage your recordings.

MAINTENANCE

1. Cleaning

Regularly clean the camera lens and screen with a soft, lint-free cloth. Avoid using abrasive materials or chemical cleaners that could damage the surfaces.

2. Storage

Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the battery is partially charged if storing for extended periods.

3. Waterproof and Drop-resistant Features

The M5 camera boasts an IP67 waterproof rating, allowing it to withstand heavy rain and submersion up to 30 minutes. Its durable ABS shell also provides two-meter drop resistance, ensuring reliability in harsh conditions.

IP67 Level & 2M Anti-fall

Sturdy Waterproof Body Camera for Monitoring

The BOBLOV M5 Body Mounted Camera, covered in water droplets, demonstrates its IP67 waterproof and 2-meter anti-fall capabilities, ensuring durability in challenging environments.

TROUBLESHOOTING

If you encounter any issues with your BOBLOV M5 camera, please refer to the following common solutions:

- **Camera not turning on:** Ensure the battery is fully charged. If the issue persists, try connecting the camera to a different power source or USB port.
- **Recording issues (e.g., freezing, poor quality):** Check the available memory space. Ensure the camera's firmware is up to date. Try resetting the camera to factory settings via the menu.
- **Connectivity problems with computer:** Ensure the USB cable is securely connected to both the camera and the computer. Try a different USB port or cable.
- **Short battery life:** Ensure the battery is fully charged before use. Reduce video resolution or disable features like IR lights if not needed to extend battery life.

For further assistance, please contact BOBLOV customer support.
