

Strex SP131

Strex Wireless Keyboard and Mouse Set

Model: SP131

1. INTRODUCTION

The Strex wireless keyboard and mouse set is designed to enhance your productivity and comfort. Featuring silent keys and mouse clicks, it ensures a quiet working environment. The ergonomically shaped mouse provides a comfortable grip, while the spill-resistant keyboard offers durability. Being entirely wireless, this set provides ample freedom of movement, making it an ideal combination for various computing tasks.

Both the keyboard and mouse are ergonomically designed for extended comfortable use. The keyboard features silent touch technology, providing a smooth and quiet typing experience by reducing key noise and improving key structure for comfortable input.

The included mouse features a modern design with silent click buttons, mirroring the keyboard's quiet operation. This ergonomic mouse is suitable for both left and right-handed users and includes a DPI button for easy adjustment of cursor speed.

The keyboard and mouse feature a modern, smart design that complements any workspace. The keyboard is equipped with stable adjustable feet and a spill-resistant design. Each key is treated with a fade-resistant coating, ensuring the keyboard remains legible over time.

The Strex wireless keyboard features a standard QWERTY layout. In addition to standard keys, it provides access to 11 multimedia shortcut keys. These allow you to control media functions such as skipping songs, pausing videos, or adjusting volume with a single press.

The set offers plug-and-play functionality, making it compatible with any desktop or laptop computer without requiring complex installation. The optical mouse provides precise tracking.

2. PACKAGE CONTENTS

Please check the box for the following items:

- Wireless Keyboard

- Wireless Mouse
- USB Receiver
- User Manual

● Draadloze toetsenbord & muis set

● Verpakking

● Handleiding

Image: The package contents include the wireless keyboard, wireless mouse, a small USB receiver, and the user manual.

3. SETUP

The Strex Wireless Keyboard and Mouse Set is designed for easy plug-and-play setup.

3.1. Battery Installation

The keyboard and mouse require AAA batteries for operation. Ensure correct polarity when inserting batteries.

1. **Keyboard:** Locate the battery compartment on the underside of the keyboard. Insert 1x AAA battery, ensuring the positive (+) and negative (-) terminals align correctly. Close the battery compartment cover.
2. **Mouse:** Locate the battery compartment on the underside of the mouse. Insert 1x AAA battery, ensuring the positive (+) and negative (-) terminals align correctly. Close the battery compartment cover.

Image: This diagram illustrates how to install AAA batteries into both the keyboard and the mouse. It also highlights the approximate battery life: 18 months for the mouse and 12 months for the keyboard.

3.2. Connecting the USB Receiver

The set connects wirelessly via a single USB receiver.

1. Locate the small USB receiver, typically stored within the mouse's battery compartment for safekeeping during transport.
2. Plug the USB receiver into an available USB port on your computer (desktop or laptop).
3. Your operating system (Windows, macOS, Linux) should automatically detect and install the necessary drivers. No additional software installation is required.

PLUG & PLAY

Geschikt voor Windows. Mac, Linux & meer

Image: This image demonstrates the plug-and-play nature of the Strex wireless keyboard and mouse set, showing the USB receiver and its compatibility with a range of devices including PCs, laptops, and tablets running Windows, Mac, or Linux operating systems.

4. OPERATING INSTRUCTIONS

4.1. Keyboard Usage

The keyboard features a standard QWERTY layout for familiar typing. Its silent keys ensure a quiet typing experience.

Image: This image focuses on the keyboard's design for comfortable typing, emphasizing features like extremely silent keys, accurate input, and a full numeric keypad, all contributing to an enhanced typing experience.

4.2. Multimedia Shortcuts

The keyboard includes 11 dedicated multimedia shortcut keys (F1-F12 functions, accessible via the 'Fn' key or directly depending on keyboard mode) for quick access to common functions:

- **F1-F12:** Control media playback (play/pause, stop, previous/next track), volume (mute, decrease, increase), web browser, email, and more. Refer to the key legends for specific functions.

ALLES WAT JE NODIG HEBT

Image: This diagram illustrates key features of the Strex keyboard, including its adjustable feet for ergonomic positioning, 12 multimedia shortcut keys for quick access to functions, a battery status indicator, a spill-resistant design for durability, and ergonomically shaped keys for comfortable typing.

4.3. Mouse Usage

The ergonomic mouse provides precise optical tracking and silent clicks.

- **DPI Adjustment:** Use the DPI button (located near the scroll wheel) to cycle through different cursor speeds to match your preference.
- **Silent Clicks:** The mouse buttons are designed to produce minimal noise, ensuring a quiet working environment.

4.4. Power Saving Mode

To conserve battery life, both the keyboard and mouse will automatically enter a sleep mode after 10 minutes of inactivity. To wake them up, simply press any key on the keyboard or move/click the mouse.

5. MAINTENANCE

5.1. Cleaning

The keyboard features a spill-resistant design, but regular cleaning is recommended to maintain hygiene and appearance.

- Disconnect the USB receiver from your computer before cleaning.
- Use a soft, damp cloth to wipe down the surfaces of the keyboard and mouse.
- For stubborn dirt, a small amount of mild soap solution can be used, but ensure no liquid enters the

internal components.

- Allow the devices to dry completely before reconnecting the USB receiver.

5.2. Battery Replacement

When the battery indicator on the keyboard signals low power, or if the mouse responsiveness decreases, it's time to replace the batteries.

- Follow the battery installation steps outlined in Section 3.1.
- Dispose of old batteries responsibly according to local regulations.

6. TROUBLESHOOTING

If you encounter issues with your Strex Wireless Keyboard and Mouse Set, please refer to the following common solutions:

- **No Response from Keyboard/Mouse:**

- Ensure batteries are correctly installed and not depleted. Replace if necessary.
- Verify the USB receiver is securely plugged into a working USB port on your computer.
- Try plugging the USB receiver into a different USB port.
- Move the keyboard and mouse closer to the USB receiver to ensure they are within the 10-meter wireless range.

- **Lagging or Intermittent Connection:**

- Check for potential interference from other wireless devices (e.g., Wi-Fi routers, other 2.4 GHz devices). Try moving them further away.
- Ensure there are no large metal objects between the devices and the receiver that could block the signal.
- Replace batteries, even if the indicator doesn't show low power.

- **Mouse Cursor Not Moving Smoothly:**

- Clean the optical sensor on the underside of the mouse.
- Ensure you are using the mouse on a suitable surface (non-reflective, non-transparent).
- Adjust the DPI setting using the DPI button on the mouse.

- **Multimedia Keys Not Working:**

- Ensure you are pressing the correct function key (e.g., F1-F12) or using the 'Fn' key in combination if required by your system or keyboard mode.
- Check your operating system's settings for keyboard function key behavior.

7. SPECIFICATIONS

Feature	Specification
Brand	Strex
Model Number	SP131
Connectivity Technology	Wireless (2.4 GHz)
Compatible Devices	PC, Laptop
Operating System Compatibility	Windows, macOS, Linux
Keyboard Description	Membrane
Keyboard Layout	QWERTY
