Introduction Safety Information Package Contents Setup & Assembly Operating Instructions Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Mobili Fiver Clara Electric Standing Desk. Designed for ergonomic comfort, this adjustable desk allows seamless transitions between sitting and standing positions, promoting a healthier work environment. Please read this manual thoroughly before assembly and use to ensure proper function and safety.

2. Safety Information

Observe the following safety precautions to prevent injury or damage to the product:

- Ensure all components are securely fastened before use.
- Keep children and pets away from the desk during operation.
- Do not place liquids directly on the control panel or near electrical components.
- Avoid overloading the desk. Refer to the specifications for maximum weight capacity.
- Do not obstruct the movement path of the desk legs during height adjustment.
- Disconnect power before cleaning or performing any maintenance.
- Use only the provided power adapter and components.

3. Package Contents

Verify that all parts are present before beginning assembly. The package includes:

- Desk tabletop (Melamine)

4. Setup & Assembly

Assembly typically requires two people and takes approximately 30 minutes. All necessary tools are included.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Leg Frames:** Secure the electric leg frames to the underside of the desk tabletop using the provided screws and tools. Ensure they are aligned correctly.
3. **Install Control Panel:** Mount the control panel to the desired location on the underside of the desk, typically on the front edge for easy access.
4. **Connect Cables:** Connect the motor cables from the leg frames to the control box, and then connect the control panel cable to the control box. Finally, connect the power adapter to the control box and plug it into a wall outlet.
5. **Cable Management:** Use any included cable ties or clips to manage and secure cables, preventing them from dangling or getting caught during height adjustments.
6. **Initial Calibration (if required):** Some electric desks require an initial calibration. Refer to the

specific instructions in your included manual for details. This usually involves lowering the desk to its lowest point and holding the down button for a few seconds.

5.1. Adjusting Height

- **To Raise:** Press and hold the **Up arrow (^)** button. Release when the desired height is reached.
- **To Lower:** Press and hold the **Down arrow (v)** button. Release when the desired height is reached.

5.2. Setting Memory Presets

The desk allows you to save up to three preferred height settings for quick adjustments.

1. Adjust the desk to your desired height using the Up/Down arrows.
2. Press the **"M"** button. The display may flash or beep.
3. Within 3 seconds, press one of the number buttons (**"1"**, **"2"**, or **"3"**) to save the current height to that preset.

5.3. Using Memory Presets

To move the desk to a saved height, simply press the corresponding number button (**"1"**, **"2"**, or **"3"**). The desk will automatically move to the saved position.

6. Maintenance

Regular maintenance ensures the longevity and optimal performance of your desk.

- **Cleaning:** Wipe the desk surface and legs with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspecting Connections:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- **Cable Management:** Ensure cables remain tidy and are not pinched or tangled, which could affect motor function.
- **Motor Care:** The electric motors are designed for long-term use and generally require no special maintenance. Avoid spilling liquids on them.

7. Troubleshooting

If you encounter issues with your Clara Electric Standing Desk, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Desk does not move.	Power cable disconnected, motor cable loose, overload.	Check power connection. Ensure all motor cables are securely plugged in. Reduce weight on the desk.
Desk moves unevenly or makes unusual noises.	Loose connections, obstruction, uneven weight distribution.	Check all assembly screws. Remove any obstructions. Distribute weight evenly on the tabletop.
Memory presets not working.	Presets not saved correctly.	Re-save the desired height settings following the instructions in Section 5.2.
Error code displayed.	Specific system error.	Refer to the full product manual for specific error code meanings or contact customer support.
