## CARE AND MAINTENANCE

---

Proper care and maintenance will extend the life and appearance of your RELAX4LIFE patio furniture set.

- **Cleaning the Frame:** Wipe the acacia wood and PE wicker surfaces with a dry cloth to remove dust and

debris. For more stubborn dirt, use a damp cloth with mild soap and water, then dry thoroughly.

- **Cushion Care:**

- Always keep cushions dry to prolong their service time.
- The covers of the seat cushions feature smooth zippers, allowing for easy removal and washing. Follow the care instructions on the cushion labels for specific washing guidelines.
- Store cushions indoors during inclement weather or prolonged periods of non-use to prevent fading and moisture damage.

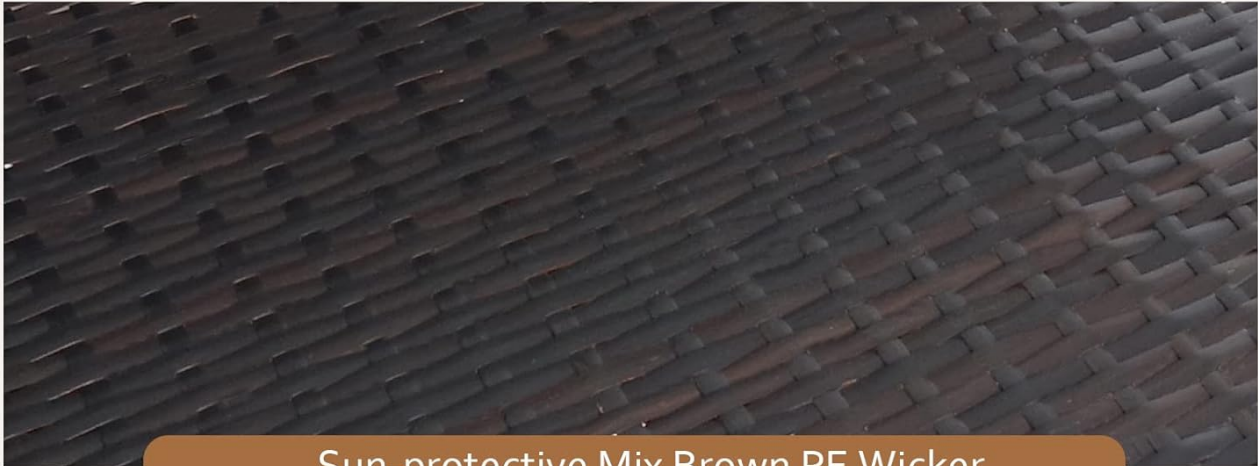

- **Wood Protection:** Acacia wood is naturally durable, but periodic treatment with a wood sealant or oil can help maintain its appearance and protect it from weathering.

- **General Protection:** Consider using furniture covers when the set is not in use for extended periods to protect it from sun, rain, and dust.

## TROUBLESHOOTING

---

This section addresses common issues you might encounter with your patio furniture set.

- **Wobbly Furniture:** If a piece of furniture feels unstable, check all screws and bolts. Loosen them slightly, gently rock the furniture to settle it, and then re-tighten all fasteners evenly.
- **Damaged Cushions:** For minor stains, spot clean with a mild detergent. For extensive cleaning, remove zippered covers and follow washing instructions. If cushions are severely damaged or worn, consider replacement.
- **Fading Wicker/Wood:** Prolonged exposure to direct sunlight can cause fading. Use furniture covers when not in use. For wood, periodic re-oiling or sealing can restore and protect its finish.
- **Missing Parts:** If you find any parts missing upon unpacking, refer to the contact information in the Support section to request replacements.
