Dreo DR-HAF002

Dreo DR-HAF002 12-Inch Table Air Circulator Fan User Manual

Model: DR-HAF002 | Brand: Dreo

Important Safety Instructions

Please read and save these important safety instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always unplug the fan before cleaning or performing any maintenance.
- Do not operate any fan with a damaged cord or plug.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings.
- Do not use this fan in wet or damp locations.
- Keep children and pets away from the fan during operation.
- Do not insert fingers or foreign objects into any openings of the fan.

Product Overview

The Dreo DR-HAF002 is a 12-inch table air circulator fan designed to provide powerful and quiet airflow for whole-room circulation. It features a 120° adjustable tilt and 3 speed settings.

Figure 1: Dreo DR-HAF002 Table Air Circulator Fan

Key Features:

- **Powerful Air Circulation:** WingBoost system propels air up to 70 ft for strong whole-room circulation.
- **Quiet Operation:** Integrates NACA technology and bionic design to reduce noise down to 28dB.
- **Energy Efficient:** Can be paired with other appliances like heaters or humidifiers to improve air distribution and

reduce energy consumption.

- **Adjustable Tilt:** 120° adjustable tilt allows for precise airflow direction.
- **Easy to Clean:** Removable parts for convenient cleaning.

Setup

The Dreo DR-HAF002 fan comes pre-assembled and is ready for immediate use out of the box. No assembly is required for basic operation.

Placement:

1. Place the fan on a stable, flat surface.
2. Ensure there are no obstructions to the airflow at the front or rear of the fan.
3. For optimal air circulation, position the fan in a corner or central location within the room.

Figure 2: Optimal fan placement for whole-room air circulation.

Operating Instructions

The fan is controlled via a single knob located on the base.

1. **Power On/Off:** Rotate the knob clockwise from the "OFF" position to turn the fan on. Rotate counter-clockwise to the "OFF" position to turn it off.
2. **Adjusting Fan Speed:** The fan has 3 speed settings. Continue rotating the knob clockwise to cycle through Low, Mid, and High speeds.
    - **Low:** Gentle breeze, ideal for quiet environments like bedrooms.
    - **Mid:** Moderate airflow for general cooling.
    - **High:** Powerful airflow for rapid air circulation or larger spaces.
3. **Adjusting Tilt Angle:** Manually adjust the fan head to your desired vertical angle. The fan supports a 120° adjustable tilt.

Maintenance

Regular cleaning ensures optimal performance and extends the lifespan of your fan.

1. **Unplug the Fan:** Always ensure the fan is unplugged from the power outlet before cleaning.
2. **Remove Front Grill:** Unscrew the grill screw located on the front of the fan. Carefully remove the front grill.
3. **Clean Blades and Grill:** The fan blades and grill can be easily removed and washed with water. Use a soft cloth and mild detergent if necessary.
4. **Dry Thoroughly:** Ensure all parts are completely dry before reassembling.
5. **Reassemble:** Reattach the fan blades, then the front grill, and secure with the screw.

Troubleshooting

Problem	Possible Cause	Solution
Fan does not turn on.	Not plugged in; Power outlet not working; Fan knob not turned to a speed setting.	Ensure the power cord is securely plugged into a working outlet. Rotate the knob clockwise to select a speed setting (Low, Mid, High).
Weak airflow.	Fan speed is too low; Obstruction in front or rear grill; Dirty blades.	Increase the fan speed. Remove any obstructions. Clean the fan blades and grills as per maintenance instructions.
Unusual noise during operation.	Loose parts; Fan not on a stable surface; Foreign object inside.	Ensure all parts are securely fastened. Place the fan on a flat, stable surface. Unplug and check for any foreign objects inside the fan.

Specifications

Specification	Value
Brand	Dreo
Model Name	DR-HAF002
Product Dimensions	9"D x 11"W x 12"H
Item Weight	5.5 Pounds
Power Source	Alternating Current
Voltage	120 Volts (AC)
Wattage	12 watts
Noise Level	28 dB

Specification	Value
Air Flow Capacity	853 Cubic Feet Per Minute
Number of Speeds	3
Adjustable Tilt	120°
Control Method	Knob
Color	Black
