## LAUSAINT HOME B0BSHCTKVP

# LAUSAINT HOME Outdoor Patio Umbrella Instruction Manual

Model: B0BSHCTKVP

Brand: LAUSAINT HOME

## INTRODUCTION

---

Thank you for choosing the LAUSAINT HOME 12ft Large Sun Shade Cantilever Umbrella. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new patio umbrella. Please read all instructions carefully before use and retain this manual for future reference.

*The LAUSAINT HOME 12ft Cantilever Umbrella provides extensive shade for your outdoor living space.*

## SAFETY INFORMATION

---

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- Always secure the umbrella base with at least 220 lbs of sand or water. An unsecured base can lead to tipping and potential injury.
- Do not use the umbrella in strong winds, heavy rain, or other severe weather conditions. Close and secure the umbrella to prevent damage or injury.
- Ensure all parts are properly assembled and tightened before use. Regularly check for loose connections.
- Keep children and pets away from the umbrella during opening, closing, and rotation operations.
- Do not hang heavy objects from the umbrella frame.
- Avoid placing the umbrella near open flames or heat sources.
- When moving the umbrella, ensure it is fully closed and secured to prevent accidental opening or damage.

Before assembly, verify that all components are present and undamaged. Refer to the diagram below for identification.

### UMBRELLA BASE INCLUDED

The base needs to be filled with at least 220lbs of wet sand for stability

Note: sand does not include

Triangular Stability

Instructions

Customer Service

*Key components include the umbrella canopy, aluminum pole, base, and sandbag (sand not included).*

- Umbrella Canopy (1)
- Cantilever Pole Assembly (1)
- Cross Base (1)
- Base Weight Cover / Sandbag (1)
- Crank Handle (1)
- Foot Pedal (1)
- Hardware Pack (Bolts, Washers, Nuts, Tools)

Assembly typically requires two people due to the size and weight of components. Follow these steps carefully:

1. **Prepare the Base:** Place the cross base on a flat, stable surface. Fill the included base weight cover/sandbag with at least 220 lbs of wet sand. Securely place the filled sandbag onto the cross base.
2. **Attach the Cantilever Pole:** Carefully attach the main cantilever pole assembly to the secured cross base using the provided hardware. Ensure all bolts are tightened securely.
3. **Mount the Umbrella Canopy:** Attach the umbrella canopy to the top of the cantilever pole. Ensure it is properly aligned and locked into place.
4. **Final Checks:** Double-check all connections for tightness and stability. Ensure the umbrella can be smoothly opened and closed using the crank mechanism.

For a visual guide on the umbrella's features and operation, please watch the official product video:

## OPERATING INSTRUCTIONS

---

Your LAUSAINT HOME cantilever umbrella offers easy operation for optimal shade control:

- **Opening and Closing:** Use the crank lift mechanism located on the pole to smoothly open or close the umbrella canopy. Turn the crank clockwise to open and counter-clockwise to close.

*The hassle-free crank control allows for easy opening and closing of the canopy.*

- **Tilting the Canopy:** The umbrella features an adjustable tilt system. Use the crank handle design to adjust the angle of inclination from 0-90 degrees, allowing you to block sun at various times of the day.

## HASSLE-FREE CRANK CONTROL

Adjust up to any position sunblocking at any time

up and down

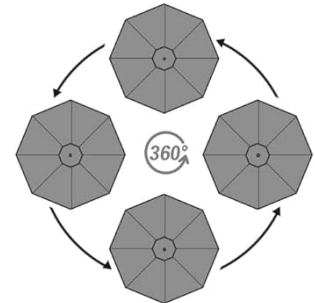

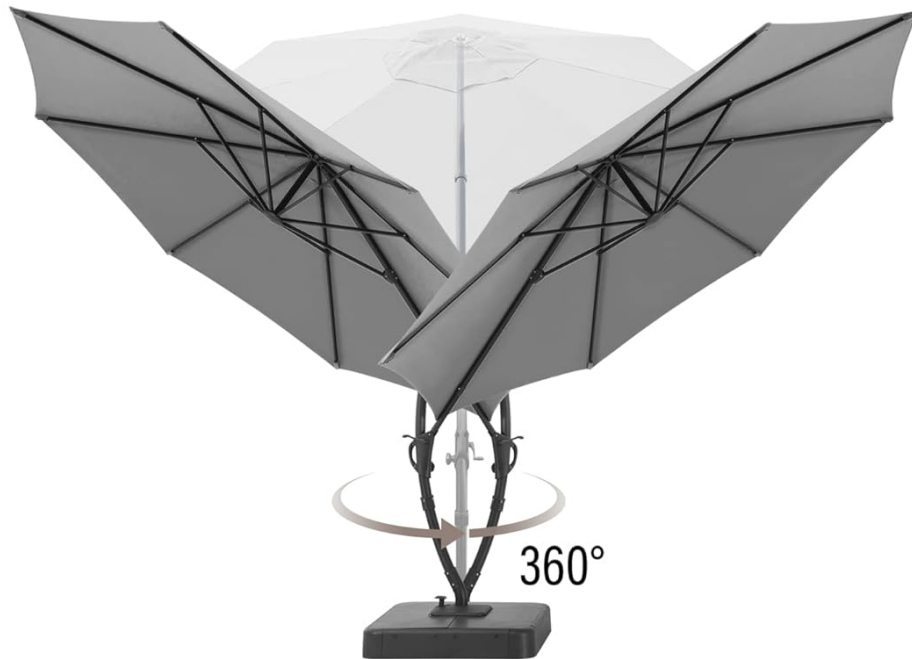

open clockwise

*Adjust the canopy to any position for optimal sun blocking throughout the day.*

- **360° Rotation:** A unique foot pedal at the base allows for 360-degree rotation of the entire umbrella. Step on the pedal to unlock the rotation, adjust the umbrella to your desired position, and release the pedal to lock it in place.

## 360° LARGE CANOPY ROTATION

Adjust shade as the sun moves staying cool under the umbrella

shady lounge

labor-saving foot  
pedal for rotation

*The labor-saving foot pedal enables effortless 360-degree rotation of the large canopy.*

## MAINTENANCE

Proper care will extend the life of your patio umbrella:

- **Cleaning:** Clean the canopy fabric with mild soap and water. Rinse thoroughly and allow to air dry completely before closing or storing. Do not use harsh chemicals or abrasive cleaners.
- **Frame Care:** Wipe down the aluminum frame with a damp cloth. Periodically check and tighten all bolts and screws.
- **Storage:** When not in use for extended periods or during severe weather, close the umbrella and secure it with the strapping tape. For winter storage, it is recommended to remove the canopy and store it in a dry, protected area.
- **Fabric Protection:** Consider applying a fabric protector (like Scotchgard) to the canopy to enhance water resistance and UV protection, as suggested by some users.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Umbrella is unstable or tips over.	Base not sufficiently weighted.	Ensure base is filled with at least 220 lbs of sand or water. Check for uneven ground.
Crank mechanism is stiff or not working.	Lack of lubrication; debris in mechanism; damaged crank.	Apply silicone spray to moving parts. Clear any obstructions. If damaged, contact customer support.
Umbrella does not rotate smoothly.	Foot pedal not fully depressed; debris in rotation mechanism.	Ensure the foot pedal is fully pressed to disengage the lock. Clean around the rotation mechanism.
Canopy fabric appears faded or worn.	Prolonged exposure to sun/elements; lack of protective treatment.	Regularly close and cover the umbrella when not in use. Consider applying a UV protectant spray.
