T3 Micro 77592

T3 SinglePass StyleMax Professional 1" Ceramic Flat Iron User Manual

Model: 77592 | Brand: T3 Micro

PRODUCT OVERVIEW

The T3 SinglePass StyleMax Professional 1" Ceramic Flat Iron is designed to provide smooth, frizz-free results with less damage by automatically adjusting heat to your hair texture and styling goals.

Figure 1: T3 SinglePass StyleMax Professional 1" Ceramic Flat Iron.

KEY FEATURES

- Custom Heat Automation: Automatically adjusts heat to your hair texture and styling goals.
- 9 Heat Settings: Provides precise temperature control for various hair types.
- Longer Ceramic Plates: Ensures efficient and smooth styling.
- Versatile Styling: Suitable for straightening, waving, and curling.
- Digital T3 SinglePass Technology: Styles hair fast while reducing frizz and enhancing shine.
- T3 CeraSync Heaters: Delivers consistent heat for one-pass results.
- CeraGloss™ Ceramic Plates: Glides effortlessly for smooth, super-shiny hair.
- Smart Microchip: Digitally controls heat settings to keep temperature fluctuations in check.

T3 StyleMax Technology

Automated heat customized to you.

1 Hair texture

Select fine, medium or coarse texture to discover the right heat for your unique hair.

2 Curl Mode

Tap the Curl Mode button to optimize your temperature setting for waving and curling with reduced heat exposure.

3 9 heat settings

T3 StyleMax Technology matches you with one of nine heat settings for your hair and your style.

SETUP AND FIRST USE

Unpacking and Inspection

- Carefully remove the flat iron from its packaging.
- Inspect the device for any signs of damage. Do not use if damaged.
- Ensure the power cord is free from kinks or damage.

Power Connection

- Plug the flat iron into a suitable electrical outlet.
- The device is designed for use with standard household voltage.

Powering On and Off

- To turn on, press and hold the Power button until the indicator lights illuminate.
- To turn off, press and hold the Power button again until the lights turn off.

Selecting Heat Settings and Hair Texture

The T3 SinglePass StyleMax features Custom Heat Automation and 9 heat settings. To optimize styling, first identify your hair texture:

- **Fine Hair Texture:** Can you barely feel and see the strand? Select fine hair texture.
- **Medium Hair Texture:** Can you easily feel the strand and does it glide smoothly through your fingers? Select medium hair texture.
- **Coarse Hair Texture:** Does the strand feel thick and textured as it runs through your fingers? Select coarse hair texture.

Identifying your hair texture

Run one hair strand between your fingers ...

Can you barely feel and see the strand? Select **fine hair texture**.

Can you easily feel the strand and does it glide smoothly through your fingers? Select **medium hair texture**.

Does the strand feel thick and textured as it runs through your fingers? Select **coarse hair texture**.

Figure 4: Visual guide for identifying hair texture (fine, medium, coarse).

Once your hair texture is selected, the flat iron will automatically suggest an optimal heat setting from its 9 available options. You can adjust this as needed for your styling goals.

Styling for Sleek, Shiny & Straight Hair

For best results, ensure hair is dry and detangled before styling.

1. Start with dry, detangled hair. Gather the top part of your hair in a clip, and leave a 2" section out to begin styling.
2. Clamp the section of hair in between the plates near the root, then glide slowly from roots to ends.
3. Continue working with sections of hair until fully styled.
4. Enjoy beautiful, smooth, and frizz-free results.

T3 SINGLEPASS STYLEMAX

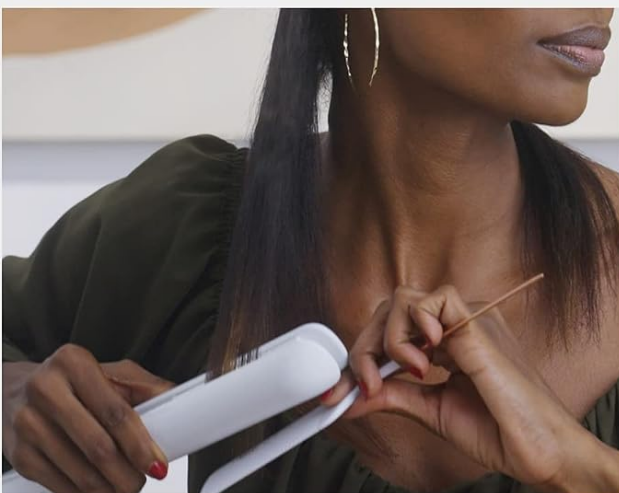

Sleek, Shiny & Straight Hair

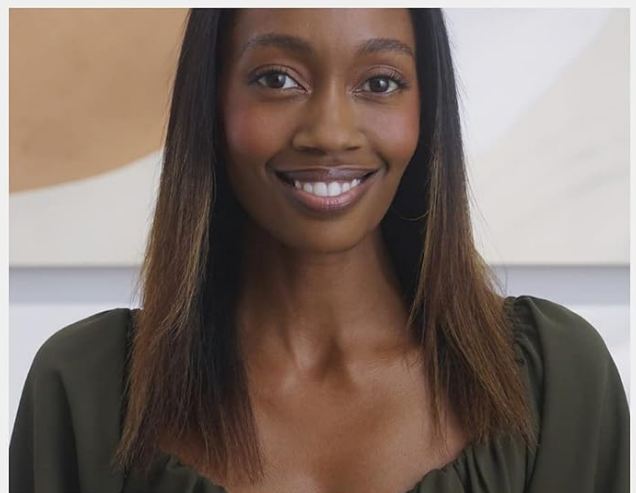

Step 1: Start with dry, detangled hair. Gather top part of hair in a clip, and leave a 2" section out to begin styling.

Step 2: Clamp the section of hair in between plates near the root then glide iron through from roots to ends.

Step 3: Continue working with sections of hair until fully styled.

Step 4: Done! Beautiful, smooth and frizz-free results.

Figure 5: Step-by-step guide for achieving sleek, shiny, and straight hair.

Styling for Curls or Waves

The T3 SinglePass StyleMax can also be used to create beautiful curls and waves. Ensure hair is dry and detangled.

1. Start with dry, detangled hair. Gather a 2" section to begin styling.
2. Clamp the section of hair near the roots, then twist the iron 180 degrees and glide through to the ends.
3. Continue working with sections of hair until fully styled.
4. Enjoy beautiful, smooth, and frizz-free results.

MAINTENANCE AND CARE

Cleaning the Flat Iron

- Always ensure the flat iron is unplugged and completely cool before cleaning.
- Wipe the ceramic plates and exterior with a soft, damp cloth.
- Do not use abrasive cleaners or harsh chemicals, as these can damage the plates and finish.
- Ensure no water enters the internal components.

Storage

- Store the flat iron in a cool, dry place.
- Allow the device to cool down completely before storing.
- Do not wrap the power cord tightly around the flat iron, as this can cause damage over time.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flat iron does not turn on.	Not plugged in correctly, power outlet issue, or internal fault.	Ensure the flat iron is securely plugged into a working outlet. Try a different outlet. If the problem persists, contact customer support.
Hair is not straightening/curling effectively.	Incorrect heat setting, hair not fully dry, or too much hair in one section.	Ensure hair is completely dry. Adjust to a higher heat setting suitable for your hair type. Work with smaller sections of hair. Glide the iron slowly and evenly.
Frizz after styling.	Hair not fully dry, or incorrect heat setting.	Ensure hair is completely dry before styling. Adjust heat setting to ensure sufficient heat for your hair type to seal the cuticle.

SPECIFICATIONS

Product Dimensions: 11.1 x 1.2 x 1.7 inches

Weight: 1.5 Pounds

Item Model Number: 77592

UPC: 883349004782
