## Hot Wheels HNL97

# Hot Wheels Epic Crash Dash Track Set User Manual

Model: HNL97 | Brand: Hot Wheels

## INTRODUCTION

The Hot Wheels Action Epic Crash Dash Track Set is designed for thrilling, high-speed racing and spectacular crashes. This set features multiple crash zones, two loops, and a motorized booster to ensure continuous action. It includes one Hot Wheels 1:64 scale toy car, and is compatible with other Hot Wheels track components for expanded play. The set is also designed for convenient storage when not in use.

## SETUP AND ASSEMBLY

Assembly of the Epic Crash Dash Track Set is straightforward. Follow the letter-coded connections to ensure proper alignment of track pieces and base components.

## Battery Installation

The motorized booster requires 4 D batteries (not included). Ensure batteries are installed correctly according to polarity markings before operation.

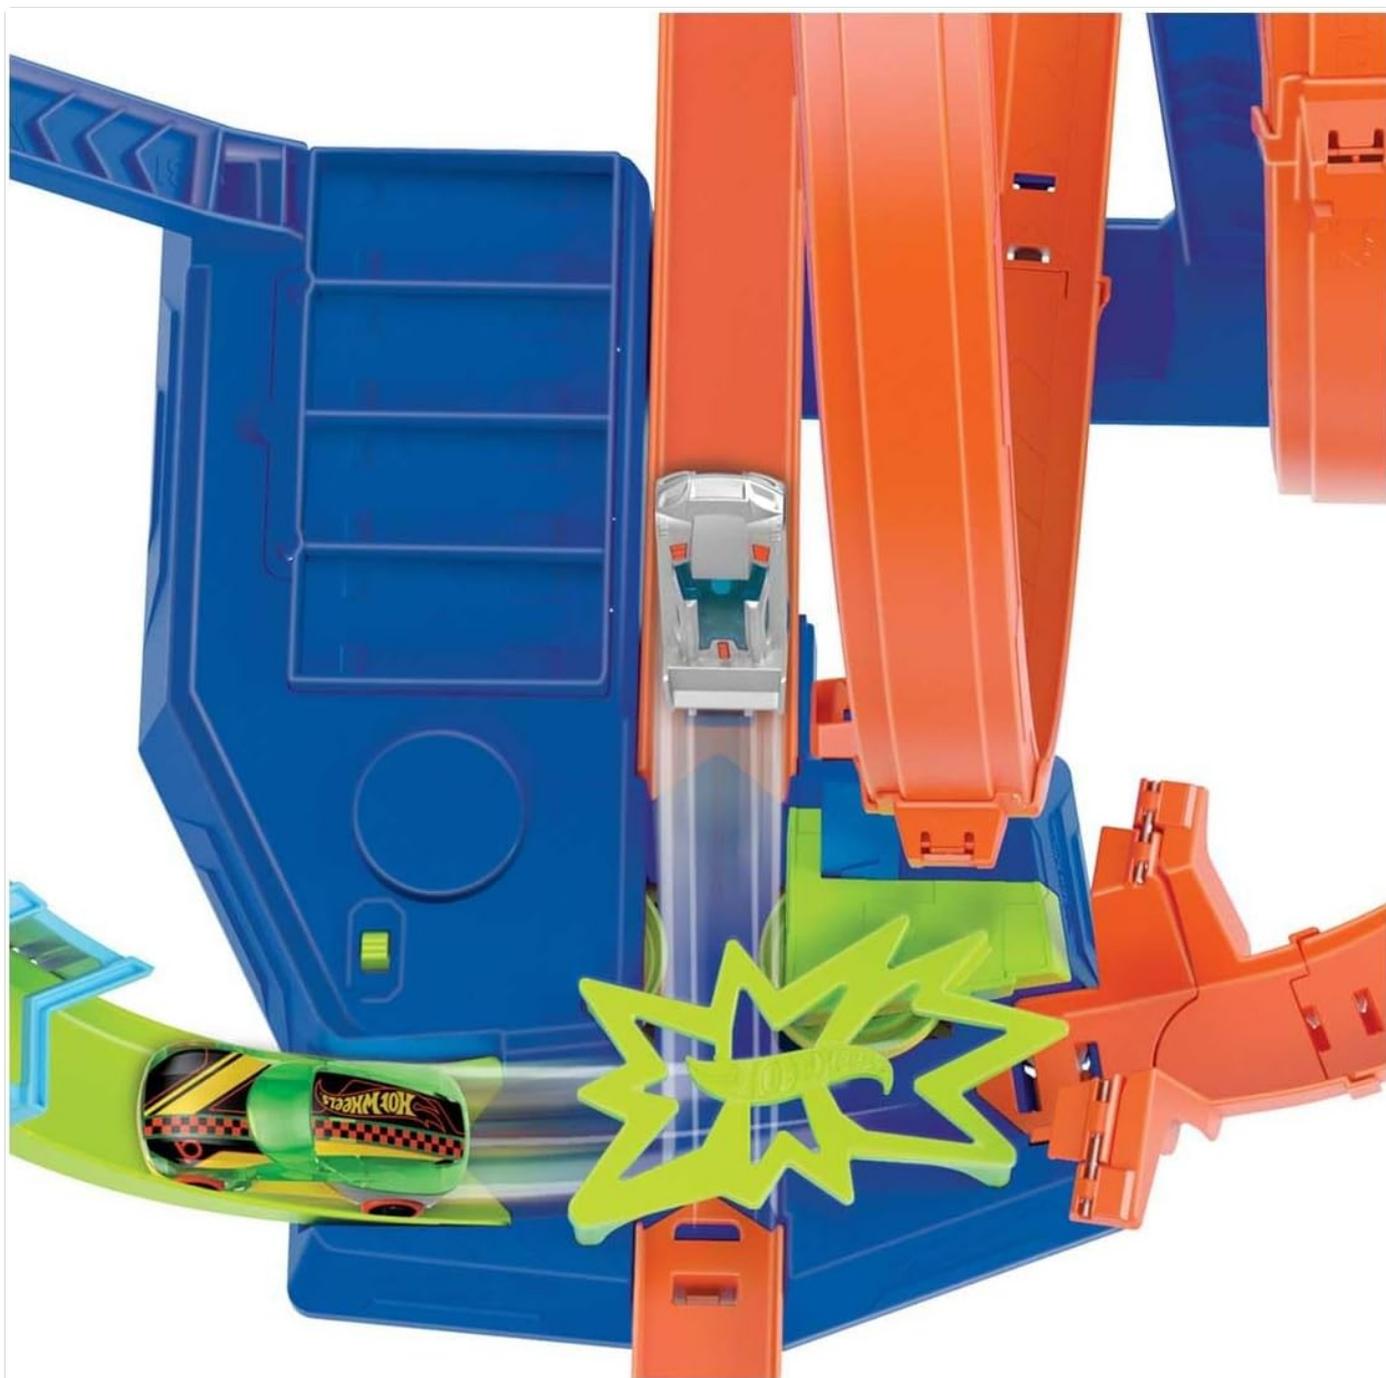

Image: A hand placing a Hot Wheels car onto the motorized booster, which propels cars around the track.

### Connecting Track Pieces

Each track piece and base connection point is marked with a letter for easy identification. Match the corresponding letters to connect the track sections securely. Listen for a "click" to confirm a secure connection.

Image: Side profile of the track set, highlighting its two distinct loops and overall structure.

## OPERATION

Once assembled and batteries are installed, activate the motorized booster. Place a Hot Wheels car onto the designated launch area. The booster will propel the car through the loops and crash zones. The set is designed to encourage multiple cars on the track simultaneously for exciting crash action.

## Crash Zones

The track features five distinct crash zones where cars can collide for dynamic action. Experiment with launching multiple cars to increase the likelihood of spectacular crashes.

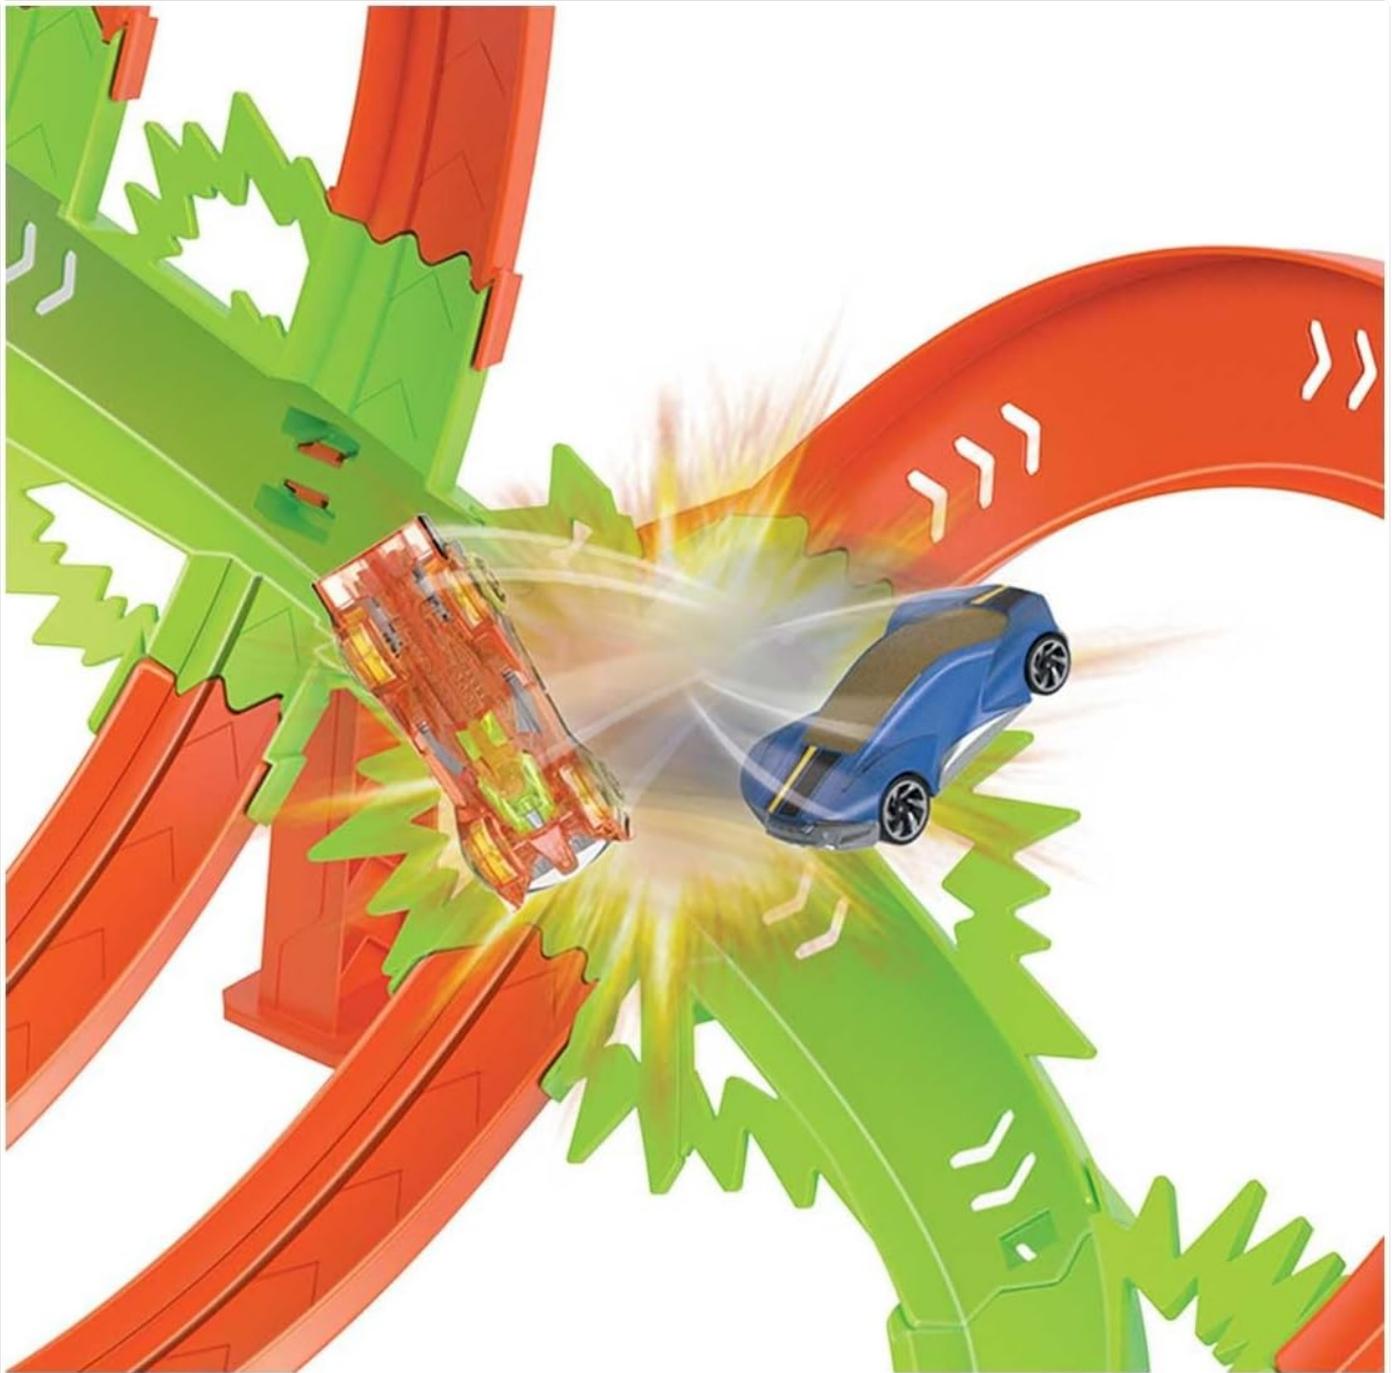

Image: A close-up of two Hot Wheels cars mid-collision within a crash zone, illustrating the set's primary play feature.

### Expanding Your Track

The Epic Crash Dash Track Set is compatible with other Hot Wheels track sets. There are connection points on the base to extend the play area with additional tracks and launchers (sold separately).

### Official Product Video

### MAINTENANCE

To ensure longevity and optimal performance of your Hot Wheels track set, regularly inspect all connections for tightness. Keep the track surfaces clean from dust and debris to allow cars to run smoothly. When not in use, the set can be collapsed for easy and convenient storage.

## TROUBLESHOOTING

- **Cars getting stuck or slowing down:** Check battery levels in the motorized booster. Ensure all track connections are secure and free from obstructions. Verify that the Hot Wheels cars used are compatible with track sets (some heavier or wider cars may not perform optimally).
- **Loud noise from booster:** The motorized booster produces a noticeable sound during operation, which is normal. If the

sound becomes excessively loud or unusual, check for any foreign objects obstructing the motor mechanism.

- **Track instability:** Ensure all support bases are firmly attached and placed on a flat, stable surface. Re-check all track piece connections.

## SPECIFICATIONS

<b>Product Dimensions</b>	4 x 24 x 13 inches
<b>Item Weight</b>	5.22 pounds
<b>Model Number</b>	HNL97
<b>Recommended Age</b>	4 years and up
<b>Batteries Required</b>	4 D batteries (not included)
<b>Manufacturer</b>	Mattel
<b>Release Date</b>	May 29, 2023

***2 DIFFERENT-SIZED LOOPS  
& LOTS OF EXCITING TURNS!***
