5. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your Hot Wheels RacerVerse cars, follow these simple care instructions:

- **Cleaning:** Wipe the cars with a soft, dry cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the paint or plastic components.
- **Storage:** Store the cars in a cool, dry place away from direct sunlight and extreme temperatures. Keeping them in a designated storage container or display case can prevent damage and loss.
- **Handling:** Handle the cars with care to prevent bending axles or damaging the wheels. While durable, excessive force can cause wear and tear.

6. TROUBLESHOOTING

Most issues with Hot Wheels die-cast cars are minor and easily resolved.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Car not rolling smoothly	Debris on wheels or axles; bent axle.	Check wheels and axles for lint, hair, or other obstructions and carefully remove them. If an axle is bent, gentle straightening may be possible, but avoid excessive force.
Paint chipping or fading	Rough play; exposure to harsh elements.	This is normal wear and tear for die-cast toys. To minimize, avoid abrasive surfaces and store properly.
