AMERLIFE Sleigh

AMERLIFE King Size Platform Bed Frame User Manual

Model: Sleigh | Brand: AMERLIFE

IMPORTANT SAFETY INFORMATION

Use with a compatible mattress to ensure stability. Keep upholstery clean and away from open flames. Assemble with care, following instructions, and with the help of another adult. Be cautious when moving the heavy bed frame to avoid injury.

PRODUCT FEATURES

- **Contemporary & Luxury:** Combines stylish buttoned detailing with striking rolled headboard & footboard design, this king size sleigh bed is easily mixed with any bedroom style or color scheme.
- **Cozy & Lazy:** Upholstered in beautiful chenille, generous foam padding & touchably soft fabric ensure you are comfortably supported as laying in platform bed.
- **Artisan Style:** Upholstered Bed is designed & handmade by our selected artisans. Hand-sewn in premium chenille fabric, hand-applied button tufting add individuality and art to home.
- **No Box Spring Required:** Durable wood slats are included with the bed frame, so just lay on mattress(10"-15) and you're ready to go. Accomodate adjustable bed base by removing the slats.
- **Easy Assembly:** Comes well-packed and delivered right to your front door with 1 box. Quick and easy assembly in 40 mins with 2 adults.

PACKAGE CONTENTS

Verify all parts are present before beginning assembly. Refer to the included assembly instructions for a detailed parts list.

Image: All bed frame components and hardware laid out for assembly.

KING SIZE

Recommended Mattress Size: 8"-15"

ASSEMBLY INSTRUCTIONS

Assembly is straightforward and typically takes 40 minutes with two adults. All necessary tools are included.

- 1. Unpack Components:** Carefully remove all parts from the packaging. Ensure all hardware and pieces are accounted for by comparing with the included parts list.
- 2. Assemble Headboard and Footboard:** Attach the wingback sections to the main headboard and footboard panels using the provided hardware. Finger-tighten bolts first to allow for alignment.
- 3. Connect Side Rails:** Attach the side rails to the assembled headboard and footboard. Ensure all connections are secure but still allow for slight adjustments.
- 4. Install Center Support Beams:** Place the metal center support beams and legs. These provide crucial stability for the mattress.
- 5. Lay Wooden Slats:** The wooden slats come pre-attached in sections with Velcro. Simply unroll and press them firmly onto the Velcro strips on the side rails and center support.
- 6. Final Tightening:** Once all components are in place and aligned, fully tighten all bolts using the provided Allen key.

Mattress Compatibility: This bed frame does not require a box spring. It is designed to accommodate mattresses between 10 and 15 inches in height. For adjustable bed bases, the wooden slats can be removed.

MAINTENANCE AND CARE

- **Cleaning Upholstery:** For general cleaning, gently vacuum the chenille fabric using an upholstery attachment. For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, consult a professional upholstery cleaner.
- **Frame Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Moving the Bed:** When moving the bed, lift it rather than dragging it to prevent damage to the frame, legs, or flooring. If disassembling for a move, follow the assembly instructions in reverse.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading of the chenille fabric.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose bolts or connections.	Check and tighten all bolts, especially at the corners and where side rails connect to headboard/footboard.
Squeaking noises.	Loose connections; slats rubbing against frame.	Ensure all bolts are tight. Verify wooden slats are properly seated on the Velcro and not shifting.
Parts not aligning during assembly.	Bolts overtightened prematurely.	Loosen all bolts slightly, align parts, then finger-tighten before fully tightening.
Mattress sinking or not supported.	Improper slat installation or damaged slats.	Ensure all wooden slats are correctly placed and firmly attached to the Velcro. Check for any broken or damaged slats and replace if necessary.

SPECIFICATIONS

Feature	Detail
Size	King
Product Dimensions	85.5"L x 82"W x 51.5"H
Color	Cream
Material	Fabric, Wood, Metal
