Alula RE667W-R-Pro

Alula RE667W-R-Pro Touchpad Slimline Pro User Manual

Model: RE667W-R-Pro

INTRODUCTION

The Alula Slimline Touchpad PRO provides modern and intuitive control for your smart security system. Featuring a 7-inch full-color touchscreen, this device can be wall-mounted or placed on a tabletop, offering complete control of your security system from anywhere within your premises. It allows you to arm and disarm the system, view cameras, control smart devices, and initiate scenes. Its interface mirrors the Alula Smart Security app, ensuring ease of use and a familiar experience.

PACKAGE CONTENTS

- Alula Slimline Touchpad PRO
- Wall Mount Bracket
- Tabletop Stand
- 110V Plug-in Transformer

- Charger

SETUP AND INSTALLATION

The Slimline Touchpad PRO offers flexible installation options, including wall mounting or tabletop placement. Ensure the device is placed within Wi-Fi range for optimal performance.

Wall Mount Installation

1. Choose a suitable location on a wall, preferably near a power outlet.
2. Secure the wall mount bracket to the wall using appropriate screws (not included).
3. Connect the 12V direct wire or use the 110V plug-in transformer to power the device.
4. Carefully attach the touchpad to the mounted bracket, ensuring it clicks securely into place.

Figure 2: Touchpad in tabletop configuration, showing device and zone management.

Tabletop Stand Installation

1. Attach the tabletop stand to the back of the touchpad.
2. Place the touchpad on a flat, stable surface.
3. Connect the 110V plug-in transformer to the touchpad and plug it into a power outlet.

Initial Power-Up and Wi-Fi Connection

1. Once powered, the touchpad will boot up.
2. Follow the on-screen prompts to connect to your home Wi-Fi network.
3. Enter your Wi-Fi password when prompted.
4. The touchpad will then attempt to connect to your Alula smart security system.

OPERATING INSTRUCTIONS

The Slimline Touchpad PRO provides comprehensive control over your Alula smart security system.

Arming and Disarming

- **Arm Stay:** Tap the "Stay" icon to arm the system with interior motion sensors bypassed. Ideal for when you are home.
- **Arm Away:** Tap the "Away" icon to arm all sensors. Ideal for when you leave the premises.
- **Arm Night:** Tap the "Night" icon for a customized arming mode, typically similar to "Stay" but with specific zones armed.
- **Disarm:** Tap the "Disarmed" area and enter your user code to disarm the system.

Controlling Smart Devices and Scenes

- Navigate to the "Devices" or "Scenes" tab on the bottom menu.
- From the "Devices" tab, you can control connected smart home devices such as lights, locks, and thermostats.
- From the "Scenes" tab, you can activate pre-configured scenes that control multiple devices simultaneously (e.g., "Good Morning" scene).

Figure 3: Touchpad displaying a scenic background in disarmed state.

Two-Way Audio Communication

The touchpad supports two-way audio, allowing communication with monitoring stations or other connected devices if configured within your system.

MAINTENANCE

To ensure the longevity and optimal performance of your Alula Slimline Touchpad PRO, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the touchscreen. For stubborn smudges, slightly dampen the cloth with water. Avoid abrasive cleaners, solvents, or aerosol sprays.
- **Software Updates:** Ensure your touchpad's software is kept up-to-date. Updates are typically pushed automatically via your Wi-Fi connection.

- **Power Supply:** Always use the original Alula power adapter. Do not use third-party adapters.
- **Placement:** Avoid placing the touchpad in direct sunlight, near heat sources, or in areas with extreme humidity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Touchpad not powering on.	No power, faulty adapter, or loose connection.	Check if the power adapter is securely plugged into the touchpad and the wall outlet. Verify the wall outlet is functional. Ensure the charger is connected properly.
Cannot connect to Wi-Fi.	Incorrect password, out of range, or router issue.	Double-check the Wi-Fi password. Move the touchpad closer to the Wi-Fi router. Restart your Wi-Fi router.
Touchscreen unresponsive.	Temporary software glitch or physical damage.	Perform a soft reset by disconnecting and reconnecting power. If the issue persists, contact Alula support.
System not arming/disarming.	Incorrect user code, system fault, or communication issue.	Verify the user code. Check the system status for any fault indicators. Ensure the touchpad is properly connected to the security system network.

SPECIFICATIONS

| Feature	Detail
Model Number	RE667W-R-Pro
Screen Size	7 inches
