## SHA CERLIN AK-883-3

# SHA CERLIN King Size Upholstered Bed Frame

Model: AK-883-3

## IMPORTANT SAFETY INFORMATION

---

### WARNING:

- Do not exceed the maximum weight capacity of 1000 lbs.
- Be cautious when adjusting the headboard to prevent injury.
- Ensure all bolts and screws are tightened securely before use. Periodically check and re-tighten as necessary.
- Keep small parts away from children during assembly.

## PRODUCT OVERVIEW

---

The SHA CERLIN King Size Upholstered Bed Frame features a deluxe low-profile sleigh design with a faux leather ergonomic headboard. It is designed for easy assembly and does not require a box spring. This modern bed frame provides a stable and comfortable foundation for your mattress.

## SETUP & ASSEMBLY

The SHA CERLIN bed frame is designed for straightforward assembly. Please ensure you have all components and tools before beginning.

### Unboxing

The bed frame components are securely packaged within a single long box. Due to its size and weight, it is recommended that two people handle the box during unboxing.

*Figure 3: Components of the bed frame neatly packaged inside the box.*

### Assembly Steps

1. Unpack all components and verify against the parts list in your included instruction manual.
2. Assemble the main frame pieces using the provided metal corner brackets. Ensure all connections are tight.
3. Attach the central square steel tube support to the main frame. This support includes several legs for added stability.
4. Place the wooden slats onto the frame. The slats feature a Velcro design for easy and secure attachment to the sideboards, preventing movement and noise.
5. Install the large plastic feet in each corner of the bed frame, along with any additional support feet as indicated

in the manual.

6. Adjust the headboard to your desired height. The headboard offers 2-level adjustable height (27.3"-30.3") to accommodate different mattress thicknesses (8-14 inches).

### Velcro Design

Wooden slats can be stick directly on the bed frame, easy to assembly.

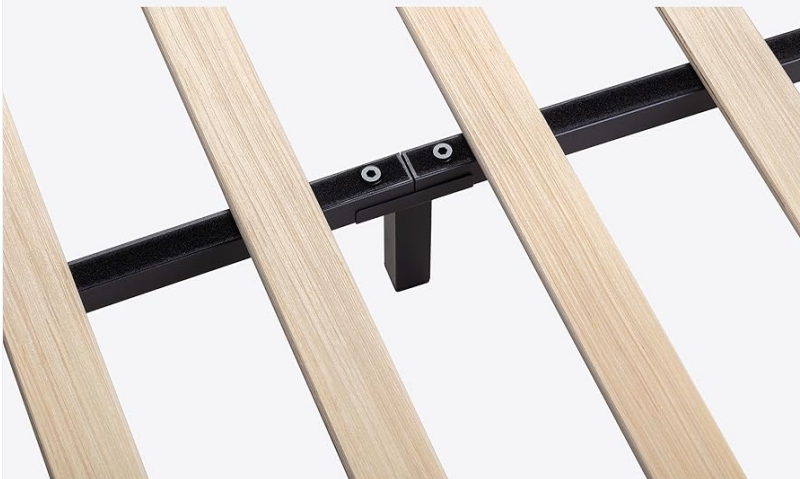

*Figure 4: Close-up of the Velcro design on the wooden slats for secure attachment.*

### No Squeaky Sound

The EVA mute strip between the metal support bar and the wooden slat prevent slipping and squeaking.

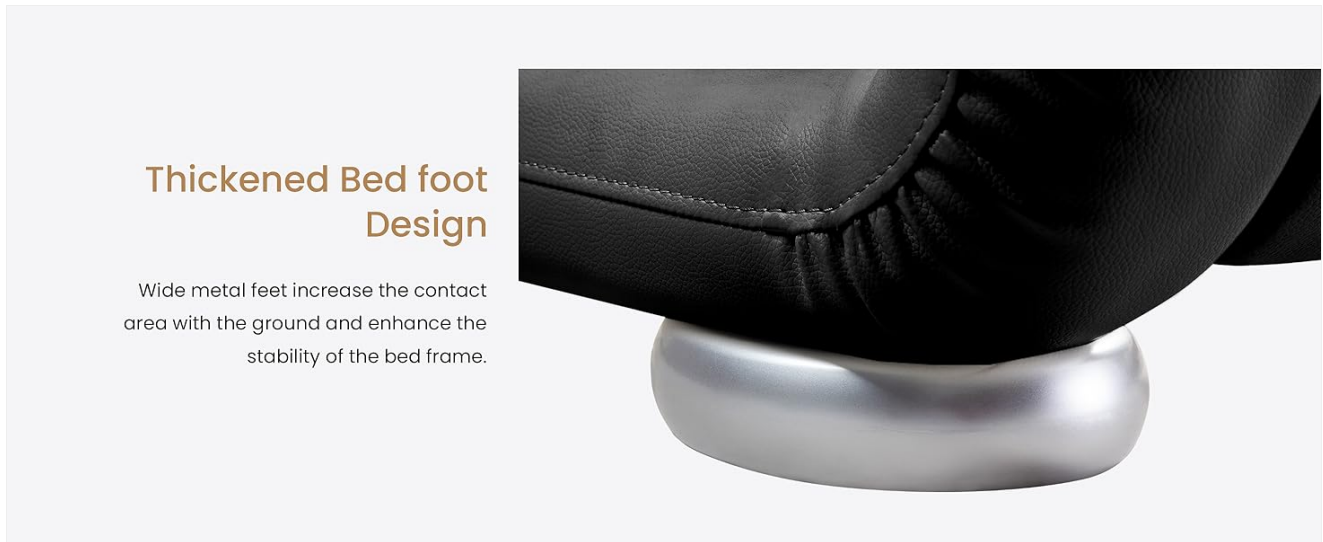

*Figure 5: The EVA mute strip between the metal support bar and wooden slats helps prevent slipping and squeaking.*

### Robust Construction

12 solid wood slats and heavy-duty steel bracket support structure, strong stability.

*Figure 6: The robust construction features 12 solid wood slats and a heavy-duty steel bracket support structure for strong stability.*

### Thickened Bed foot Design

Wide metal feet increase the contact area with the ground and enhance the stability of the bed frame.

## FEATURES & DESIGN

---

### Adjustable Ergonomic Headboard

The headboard is filled with high-density sponge and upholstered in ultra-soft faux leather, providing a comfortable surface. Its 120° curved design offers ergonomic support, perfect for reading or relaxing.

## ADJUSTABLE HEADBOARD

Fit Different Mattress Thickness 8-14"

*Figure 8: The headboard can be adjusted to two different height levels to accommodate various mattress thicknesses.*

### **Low Profile Design**

The bed frame features a low-to-the-ground design, which can help prevent pets from hiding underneath and provides a safer environment for children.

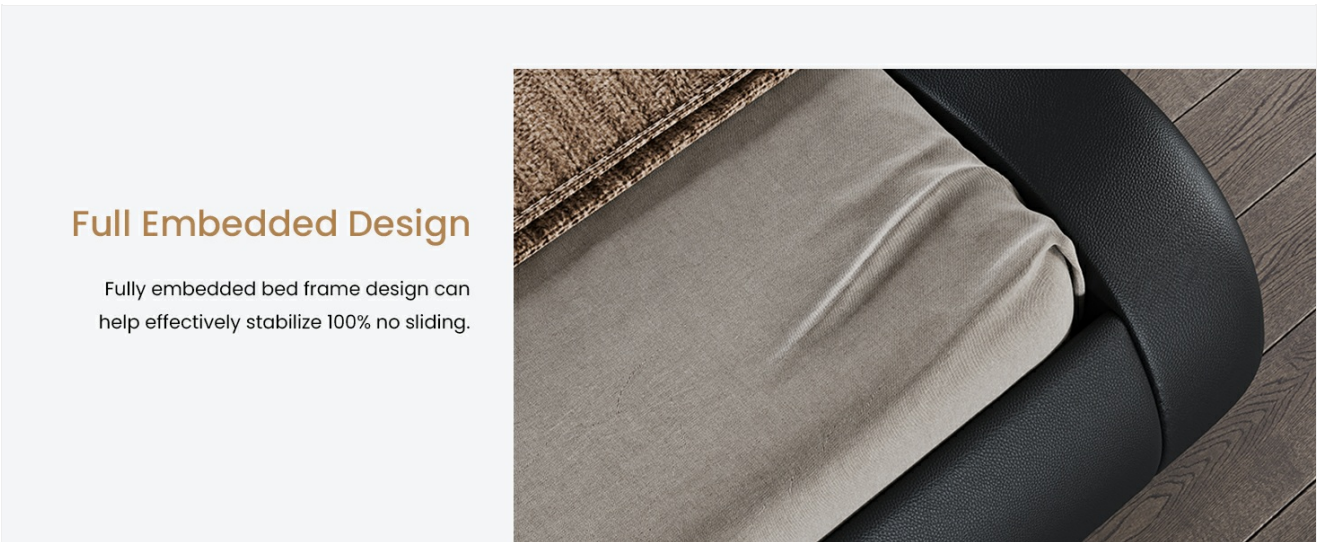

## Thicken Upholstered Design

Ultra soft upholster with high-density sponge prevent the stub your toe by the bed corner.

*Figure 9: The low profile design of the bed frame.*

## Fully Embedded Mattress Design

The fully embedded design ensures that the mattress remains stable and prevents it from sliding, contributing to an undisturbed sleep.

## Full Embedded Design

Fully embedded bed frame design can help effectively stabilize 100% no sliding.

*Figure 10: The embedded design keeps the mattress securely in place.*

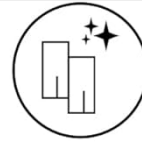

## Premium Faux Leather

The bed frame is covered in 100% premium PU leather, known for its ultra-soft texture, breathability, ease of cleaning, and wear-resistant properties.

## MAINTENANCE

- **Cleaning:** Wipe with a damp cloth to clean the faux leather surface. Avoid harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if any looseness is detected.
- **Weight Distribution:** Ensure mattress weight is evenly distributed to maintain the integrity of the slats and frame.

## TROUBLESHOOTING

- **Squeaking Noises:** Check all frame connections and slat attachments. Ensure the EVA mute strips are correctly positioned. Re-tighten any loose bolts.
- **Mattress Sliding:** Verify that the mattress is properly seated within the embedded frame design. Ensure the slats are securely attached via Velcro.

- **Instability:** Confirm that all support legs and feet are firmly in place and making full contact with the floor. Check for any damaged frame components.

## WARRANTY & SUPPORT

---

For specific warranty information regarding your SHA CERLIN bed frame, please refer to the documentation included with your purchase or contact SHA CERLIN customer support directly. Keep your proof of purchase for any warranty claims.

For assistance with assembly, missing parts, or any other product-related inquiries, please contact SHA CERLIN customer service. Contact details can typically be found on the product packaging or the official SHA CERLIN website.
