Hunter 52393

Hunter Newsome 42-inch Indoor Ceiling Fan with LED Lights

Model: 52393

1. INTRODUCTION

This instruction manual provides detailed guidance for the safe installation, operation, and maintenance of your Hunter Newsome 42-inch Indoor Ceiling Fan with LED Lights. Please read all instructions carefully before beginning installation to ensure proper function and safety. Retain this manual for future reference.

Image 1.1: Hunter Newsome 42-inch Ceiling Fan. This image displays the complete fan assembly, featuring a matte black finish, five blades, and a three-light fixture with frosted glass shades.

2. SAFETY INFORMATION

Always follow basic safety precautions when installing and operating electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- **Power Disconnection:** Before installation or servicing, ensure power is turned off at the circuit breaker or fuse box to prevent electrical shock.
- **Qualified Electrician:** All wiring must be performed by a qualified electrician and comply with national and local electrical codes.

- **Mounting Structure:** The mounting structure must be capable of supporting the fan's weight (approximately 16.3 lbs).
- **Blade Clearance:** Ensure fan blades are at least 7 feet (2.1 meters) from the floor and have adequate clearance from walls or other obstructions.
- **Secure Connections:** Double-check all electrical connections to ensure they are secure and properly insulated.
- **Light Bulbs:** Use only the specified type and wattage of light bulbs.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation. If any parts are missing or damaged, contact Hunter customer support.

Image 3.1: Included Components. This graphic illustrates the key items found in the product packaging: three LED bulbs, two pull chains for fan and light control, the low-profile design (indicating no downrod), and five reversible blades.

- Fan Motor Housing
- Fan Blades (5)
- Blade Irons/Brackets
- Light Kit Assembly

- Frosted Glass Shades (3)
- LED Bulbs (3)
- Pull Chains (2)
- Mounting Hardware (screws, washers, wire nuts)
- Instruction Manual

4. SPECIFICATIONS

Fan Design May Vary

Low Profile:

A: 8.86

B: 7.41

Fan Dimensions

Image 4.1: Fan Dimensions. This diagram illustrates the low-profile dimensions of the fan. 'A' represents the total height from the ceiling to the bottom of the light kit (8.86 inches), and 'B' represents the height from the ceiling to the bottom of the fan blades (7.41 inches).

5. SETUP AND INSTALLATION

Installation requires basic electrical knowledge. If you are unsure, consult a qualified electrician. Always ensure power is OFF at the circuit breaker before starting.

1. **Prepare the Mounting Location:** Ensure the electrical box is securely attached to the building structure and can support the fan's weight.
2. **Install the Mounting Bracket:** Attach the mounting bracket to the electrical box using the provided screws and washers.
3. **Wiring Connections:** Connect the fan's electrical wires to the household wiring according to local electrical codes. Typically, this involves connecting live, neutral, and ground wires. Use the provided wire nuts and ensure all connections are secure.
4. **Secure the Fan Motor Housing:** Lift the fan motor housing and secure it to the mounting bracket. The Newsome fan features a flush mount design, attaching directly to the ceiling.
5. **Attach Fan Blades:** Secure each of the five fan blades to the blade irons, then attach the blade irons to the motor housing. Ensure all screws are tightened. The blades are reversible, offering a matte black or wood

grain finish.

6. **Install Light Kit:** Connect the light kit wiring to the fan motor housing wiring. Secure the light kit assembly to the bottom of the fan.
7. **Insert Light Bulbs and Shades:** Screw in the three included LED bulbs into the light kit sockets. Attach the frosted glass shades over the bulbs.
8. **Attach Pull Chains:** Thread the pull chains through the designated holes in the light kit and attach the decorative fobs.

Image 5.1: Installation Manual Reference. This image shows the cover of the Newsome Collection Installation Manual, which provides detailed step-by-step instructions for assembly and wiring.

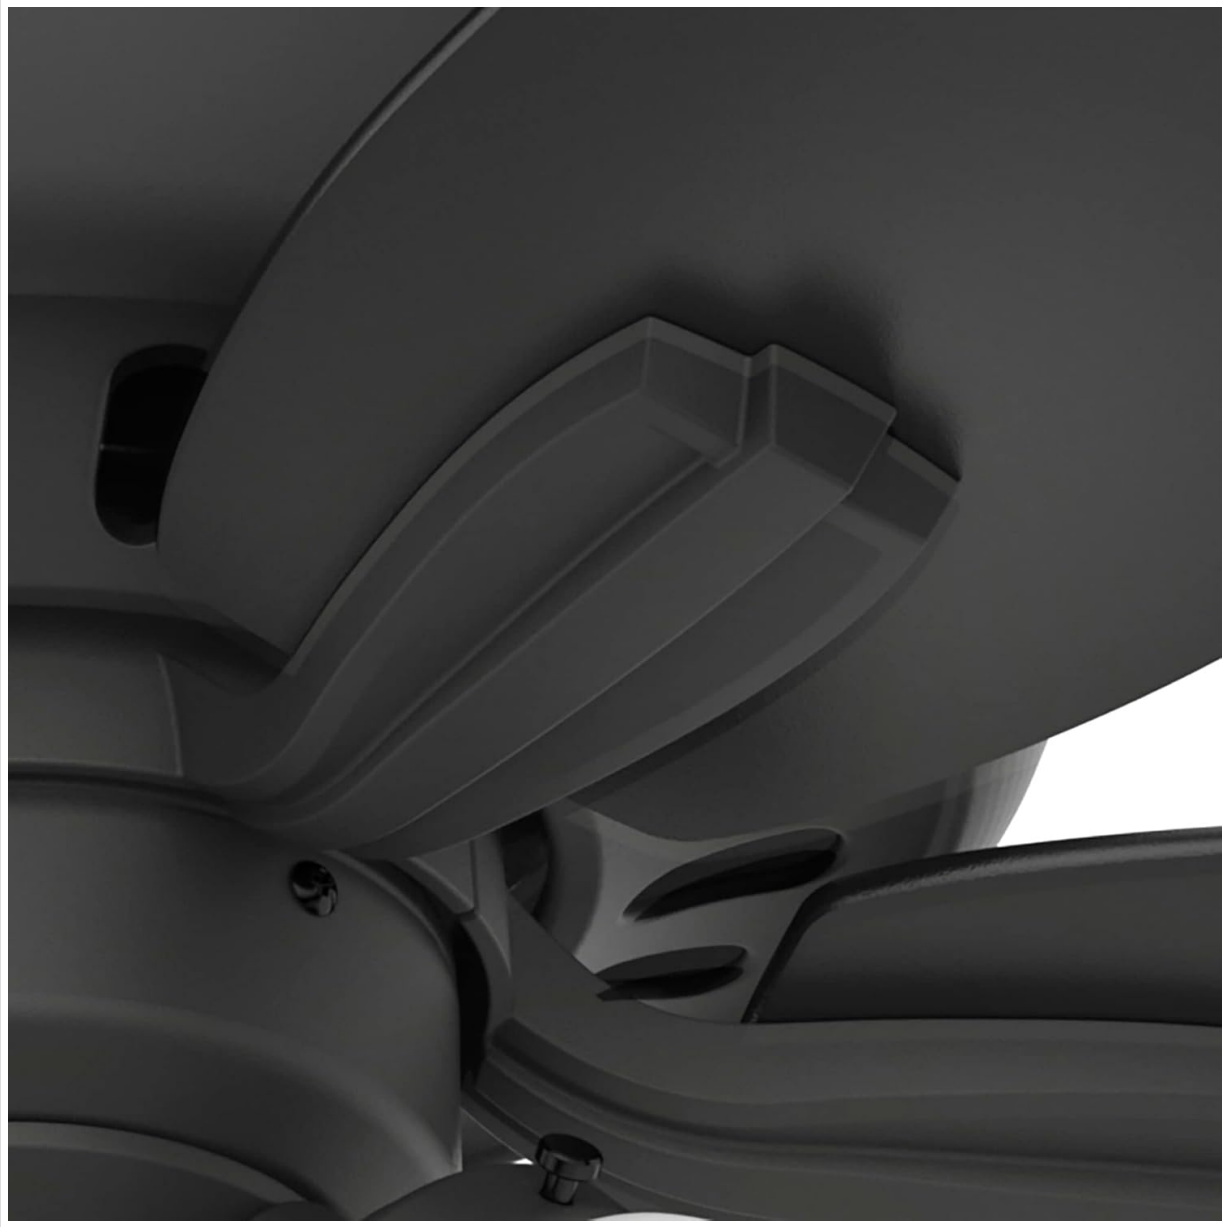

Image 5.2: Blade Attachment Detail. This close-up view illustrates the method for securing a fan blade to the motor housing using screws, highlighting the connection point.

6. OPERATING INSTRUCTIONS

Your Hunter Newsome ceiling fan is controlled by two pull chains.

Image 6.1: Pull Chain Controls. This image provides a detailed view of the light kit, showing the two distinct pull chains used to operate the fan speed and the integrated lighting.

- **Fan Speed Control:** One pull chain controls the fan speed. Pull the chain repeatedly to cycle through High, Medium, Low, and Off settings.
- **Light Control:** The other pull chain controls the light. Pull the chain to turn the lights On or Off.
- **Reversible Blades:** The fan blades are reversible, allowing you to choose between a matte black or a wood grain finish to match your decor.
- **Seasonal Operation:** A small switch on the fan motor housing (often located near the light kit) controls the direction of blade rotation.
 - **Summer Operation:** Set the switch to allow blades to rotate counter-clockwise, pushing air down to create a cooling effect.
 - **Winter Operation:** Set the switch to allow blades to rotate clockwise, drawing air up to circulate warm air trapped near the ceiling.

Image 6.2: Reversible Fan Blades. This image demonstrates the reversible nature of the fan blades, with one side displaying a matte black finish and the other a wood grain texture, allowing for customizable aesthetics.

7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish. Ensure power is off before cleaning.
- **Blade Cleaning:** Dust fan blades regularly to prevent dust buildup, which can cause wobbling and reduce airflow.
- **Light Bulb Replacement:** Ensure power is off before replacing bulbs. Allow bulbs to cool completely. Replace with E26 base LED bulbs of appropriate wattage.
- **Tighten Screws:** Periodically check and tighten all screws on the blade attachments and mounting hardware to prevent wobbling and noise.

8. TROUBLESHOOTING

Before attempting any repairs, ensure power is OFF at the circuit breaker.

| Problem | Possible Cause | Solution |
|--------------------|---|--|
| Fan does not start | No power to the fan; Loose wire connections; Incorrect wiring | Check circuit breaker/fuse; Verify all wire connections are secure; Consult a qualified electrician. |
| Lights do not work | Loose wire connections; Faulty bulbs; Incorrect wiring | Check light kit wiring; Replace bulbs; Consult a qualified electrician. |
| Fan wobbles | Loose blade screws; Unbalanced blades; Loose mounting bracket | Tighten all blade screws; Use a blade balancing kit (not included); Ensure mounting bracket is secure. |
| Noisy operation | Loose screws; Motor housing rubbing; Incorrect installation | Check and tighten all screws; Ensure no parts are touching; Re-check installation steps. |

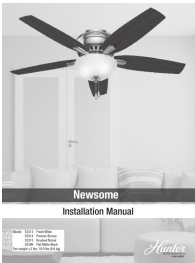

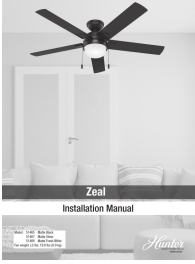

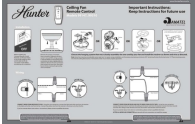

9. WARRANTY AND SUPPORT

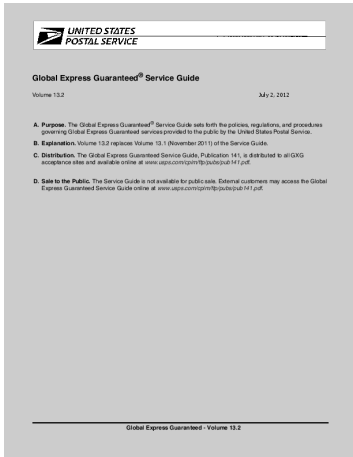

Your Hunter Newsome ceiling fan is backed by a **Limited Lifetime Motor Warranty**. This warranty covers defects in materials and workmanship of the fan motor for the lifetime of the original purchaser.

For warranty claims, technical assistance, or replacement parts, please contact Hunter customer support. Keep your proof of purchase for warranty validation.

For further information, visit the official Hunter website or refer to the contact details provided with your purchase documentation.
