Mazda B0L5V1130B

Mazda Sunshade B0L5V1130B User Manual

Model: B0L5V1130B

INTRODUCTION

This user manual provides detailed instructions for the proper installation, operation, and maintenance of your Mazda Sunshade, model B0L5V1130B. Please read this manual thoroughly before using the product to ensure correct usage and to maximize its lifespan.

PRODUCT OVERVIEW

The Mazda Sunshade B0L5V1130B is designed to provide sun protection for your vehicle's interior, helping to reduce heat buildup and protect upholstery from UV damage. It is a front windshield sunshade, specifically designed for automotive use.

SETUP AND INSTALLATION

1. **Unfold the Sunshade:** Carefully remove the sunshade from its packaging and unfold it completely.

2. **Position in Windshield:** Place the sunshade against the inside of your vehicle's front windshield. Ensure the reflective side, if applicable, faces outwards to reflect sunlight.

3. **Secure in Place:** Lower your vehicle's sun visors to hold the sunshade firmly against the windshield. Adjust as necessary to cover the entire windshield area.

4. **Check Fit:** Verify that the sunshade fits snugly against the edges of the windshield to minimize gaps for sunlight penetration.

OPERATING INSTRUCTIONS

To use the sunshade, follow the installation steps above. When not in use, remove the sunshade by lifting the sun visors, then fold or roll it according to its design for compact storage. Store it in a cool, dry place within your vehicle.

MAINTENANCE

- **Cleaning:** If the sunshade becomes dirty, wipe it gently with a damp cloth. For stubborn spots, a mild soap solution can be used, followed by wiping with a clean, damp cloth. Allow it to air dry completely before folding or storing.

- **Storage:** When not in use, fold or roll the sunshade as designed. Store it in a location where it will not be creased or damaged. Avoid prolonged exposure to extreme temperatures when stored, though the product is designed for vehicle interior conditions.

- **Inspection:** Periodically inspect the sunshade for any signs of wear or damage. If significant damage occurs,

consider replacement to maintain optimal performance.

TROUBLESHOOTING

- **Sunshade does not fit properly:** Ensure the sunshade is correctly oriented (e.g., top to bottom, left to right). If it is a universal fit, slight adjustments may be needed. If it is a custom fit, verify it is the correct model for your vehicle.

- **Sunshade falls down:** Ensure the vehicle's sun visors are fully lowered and pressing firmly against the sunshade to hold it in place. Check for any obstructions preventing a secure fit.

- **Reduced effectiveness:** Ensure the reflective side, if present, is facing outwards. Clean any dirt or debris from the surface that might reduce its reflective properties.

SPECIFICATIONS

Brand	Mazda
Model Number	B0L5V1130B
Item Weight	15.8 ounces
Product Dimensions	15.75 x 11.81 x 5.91 inches
Position	Front Windshield
