SETUP

This section outlines how to prepare your Pokémon Colress's Experiment GG59/GG70 trading card for display or use in gameplay.

- Carefully remove the card from its original packaging to avoid any damage to the edges or surface.
- For optimal protection, immediately place the card into a soft, acid-free protective sleeve.
- Consider using a rigid top-loader or a binder with appropriate pages for long-term storage or display.

- If intending to use the card for gameplay, ensure it is stored securely in a deck box when not in use and handled according to official game rules.

HANDLING AND PLAY

Proper handling ensures the longevity and condition of your collectible card, whether for display or gameplay.

- Always handle the card by its edges to prevent fingerprints, smudges, and oils from transferring to the card's surface.
- Avoid bending, creasing, or tearing the card, as this can significantly reduce its condition and value.
- When playing, place the card gently on clean, flat surfaces. Avoid sliding or shuffling cards roughly.
- Refer to the official Pokémon Trading Card Game rules for specific gameplay instructions and etiquette.

CARE AND MAINTENANCE

Maintaining the condition of your Pokémon trading card is crucial for preserving its value and appearance over time.

- Store the card in a cool, dry environment, away from direct sunlight, high humidity, and extreme temperature fluctuations.
- Utilize acid-free protective sleeves and binders specifically designed for trading cards to prevent chemical degradation.
- Do not expose the card to moisture or liquids, as this can cause warping, staining, or ink damage.
- Avoid using abrasive cleaners or harsh chemicals on the card's surface.
- For minor dust accumulation, gently wipe the card with a soft, dry, lint-free microfiber cloth.

TROUBLESHOOTING

This section addresses common concerns regarding your trading card's condition and authenticity.

- **Card Damage:** If the card sustains bends, creases, or tears, these are generally irreversible. The best approach is prevention through proper handling and storage.
- **Authenticity Concerns:** To verify authenticity, compare the card to known genuine examples. Look for consistent print quality, correct texture, and official markings. If purchased from an unofficial source, authenticity may be compromised.
- **Discoloration or Fading:** Prolonged exposure to direct sunlight or high humidity can cause the card's colors to fade or the paper to discolor. Store cards in UV-protective sleeves and away from light sources.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Pokémon
Model	Colress's Experiment GG59/GG70
Set Name	Crown Zenith: Galarian Gallery

Feature	Detail
Card Type	Ultra Rare - Full Art
Year	2022
