OPERATING AND PLAY FEATURES

The LEGO Harry Potter The Battle of Hogwarts set is designed for interactive play, allowing you to recreate scenes from the film. The set includes six minifigures and a Nagini figure, each with specific accessories to enhance storytelling.

Image 4: The six included LEGO minifigures (Harry Potter, Voldemort, Neville Longbottom, Scabior, Molly Weasley, Bellatrix Lestrange) and the Nagini figure, each equipped with their respective wands and accessories.

Minifigures such as Harry Potter and Voldemort come with wands and attachable LEGO elements to simulate spell-casting effects. Neville Longbottom is equipped with the Sword of Gryffindor, allowing for the recreation of key moments, such as confronting Nagini.

Utilize the modular design of the castle to create different battle scenarios or display configurations. The set encourages creative play and integration with other LEGO Harry Potter modular sets to expand your Hogwarts Castle.

MAINTENANCE AND CARE

To ensure the longevity of your LEGO set, follow these care guidelines:

- **Cleaning:** Clean LEGO bricks with a mild soap solution and lukewarm water. Rinse thoroughly and air dry. Avoid using hot water or harsh chemicals, as these can damage the plastic.
- **Storage:** Store the set in a cool, dry place away from direct sunlight to prevent discoloration and warping of plastic elements.
- **Handling:** Handle the assembled model with care to prevent accidental disassembly.

TROUBLESHOOTING

If you encounter any issues with your LEGO Harry Potter The Battle of Hogwarts set, consider the following:

- **Missing Pieces:** In the event of missing pieces, please contact LEGO Customer Service directly through their official website. They can assist with replacement parts.
- **Assembly Difficulties:** Double-check the instruction booklets for any missed steps. The LEGO Builder app offers digital 3D instructions that can be zoomed and rotated, which may help clarify complex steps.
- **Stability Issues:** Ensure all bricks are firmly pressed together. Loose connections can lead to instability in the model.
