De'Longhi ENV90.B

De'Longhi Nespresso Vertuo Pop ENV90.B Coffee Machine User Manual

Model: ENV90.B | Brand: De'Longhi

Product Overview

The De'Longhi Nespresso Vertuo Pop ENV90.B is a single-serve capsule coffee machine designed for convenience and versatility. It utilizes Nespresso's Centrifusion Technology to brew various coffee styles and cup sizes with a single touch.

The Vertuo Pop machine in Liquorice Black, showcasing its compact design and a brewed coffee.

Compact dimensions of the Vertuo Pop machine, ideal for various kitchen spaces.

Key Features:

- **Centrifusion Technology:** Patented extraction technology spins up to 7,000 times per minute for optimal coffee blending.
- **Versatile Cup Sizes:** Brews 4 coffee cup sizes: Mug/Coffee, Gran Lungo, Double Espresso, and Espresso, using 3 different pod sizes.
- **Smart Connectivity:** Bluetooth and Wi-Fi enabled for automatic software updates and an enhanced Nespresso experience.
- **One-Touch Operation:** Simple button press for brewing, with automatic capsule ejection.
- **Wide Coffee Range:** Offers a full range of Nespresso Vertuo pods for diverse taste preferences.

Setup and First Use

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all parts are present: coffee machine, water

tank, drip tray, and welcome set (if included).

All components included in the product packaging.

2. **Placement:** Place the machine on a clean, stable, and level surface. Ensure adequate space around the machine for ventilation and operation.
3. **Water Tank Installation:** Fill the water tank with fresh drinking water and place it securely on the machine.
4. **Power Connection:** Plug the machine into a grounded power outlet.
5. **Rinsing Cycle:** Before first use, perform a rinsing cycle. Fill the water tank, place a container under the coffee outlet, and press the brew button. Repeat this process 2-3 times to clean the internal system.

Operating Instructions

Brewing Coffee:

1. **Fill Water Tank:** Ensure the water tank is filled with fresh water.
2. **Preheat:** Turn on the machine by pressing the button. The light will blink while heating up and become steady when ready (approximately 30 seconds).
3. **Insert Capsule:** Lift the head of the machine to open the capsule compartment. Insert a Nespresso Vertuo capsule with the dome side down.

Inserting a Nespresso Vertuo capsule into the machine.

4. **Close Head:** Close the machine head firmly until it locks into place.
5. **Place Cup:** Place an appropriate-sized cup under the coffee outlet. The machine automatically recognizes the capsule and adjusts brewing parameters.

The machine brews four different cup sizes based on the capsule inserted.

6. **Start Brewing:** Press the brew button. The machine will begin the extraction process.
7. **Enjoy:** Once brewing is complete, the capsule will be automatically ejected into the used capsule container. Remove your cup and enjoy your coffee.

Adjusting Brew Volume (Manual Stop):

While the machine automatically brews to the optimal volume for each capsule, you can manually stop the flow at any time by pressing the brew button again. Pressing it again will restart the flow. To program a custom volume for a specific capsule type, brew the capsule, press and hold the button when the desired volume is reached. The machine will remember this setting for future brews of the same capsule type.

Maintenance and Cleaning

Regular cleaning and maintenance ensure optimal performance and longevity of your Nespresso Vertuo Pop machine.

- **Daily Cleaning:**
  - Empty and rinse the used capsule container and drip tray daily.
  - Wipe the machine exterior with a damp cloth.
- **Water Tank:** Clean the water tank regularly with mild detergent and rinse thoroughly.
- **Descaling:** Descale your machine every 3 months or after 300 capsules, whichever comes first, to remove mineral buildup. Use a Nespresso descaling solution and follow the instructions provided with the descaling kit.
- **Recycling Capsules:** Nespresso aluminium capsules are recyclable. Collect used capsules and return them to a Nespresso boutique or designated collection point.

Nespresso encourages recycling of all aluminium coffee pods.

Troubleshooting

Problem	Possible Cause	Solution
No coffee flow / Slow flow	Empty water tank, machine needs descaling, or coffee outlet is blocked.	Fill water tank. Perform descaling procedure. Clean coffee outlet.
Machine not turning on	Not plugged in, power outage, or machine malfunction.	Check power connection. Check circuit breaker. Contact Nespresso Customer Service if problem persists.
Leaking water	Water tank not properly seated, or internal leak.	Ensure water tank is correctly positioned. Contact Nespresso Customer Service.
Coffee not hot enough	Machine not preheated, or needs descaling.	Allow machine to fully preheat. Perform descaling procedure.
Capsule not ejecting	Mechanism jammed.	Ensure the head is fully opened and closed. If jammed, gently try to remove the capsule. Do not force. Contact Nespresso Customer Service.

For further assistance, refer to the official Nespresso support resources or contact customer service.
