

## Twelve South TS-2220

# Twelve South Backpack for Apple Studio Display Instruction Manual

Model: TS-2220

## 1. INTRODUCTION

The Twelve South Backpack is a storage shelf designed for the Apple Studio Display. It provides a discreet location to store accessories such as portable hard drives, USB-C hubs, and cables, helping to maintain an organized workspace. The Backpack attaches to the rear of the Studio Display stand, utilizing otherwise unused space.

This manual provides instructions for the proper installation, operation, and maintenance of your Twelve South Backpack.

### Key Features:

- **Space Optimization:** Elevates and stores hard drives, cables, and dongles behind your display.
- **Integrated Design:** Blends seamlessly with the Apple Studio Display aesthetic.
- **Secure Storage:** Includes a peripheral strap to secure items on the shelf.
- **Ventilated Surface:** The shelf features a perforated surface to promote airflow around stored devices.

## 2. PACKAGE CONTENTS

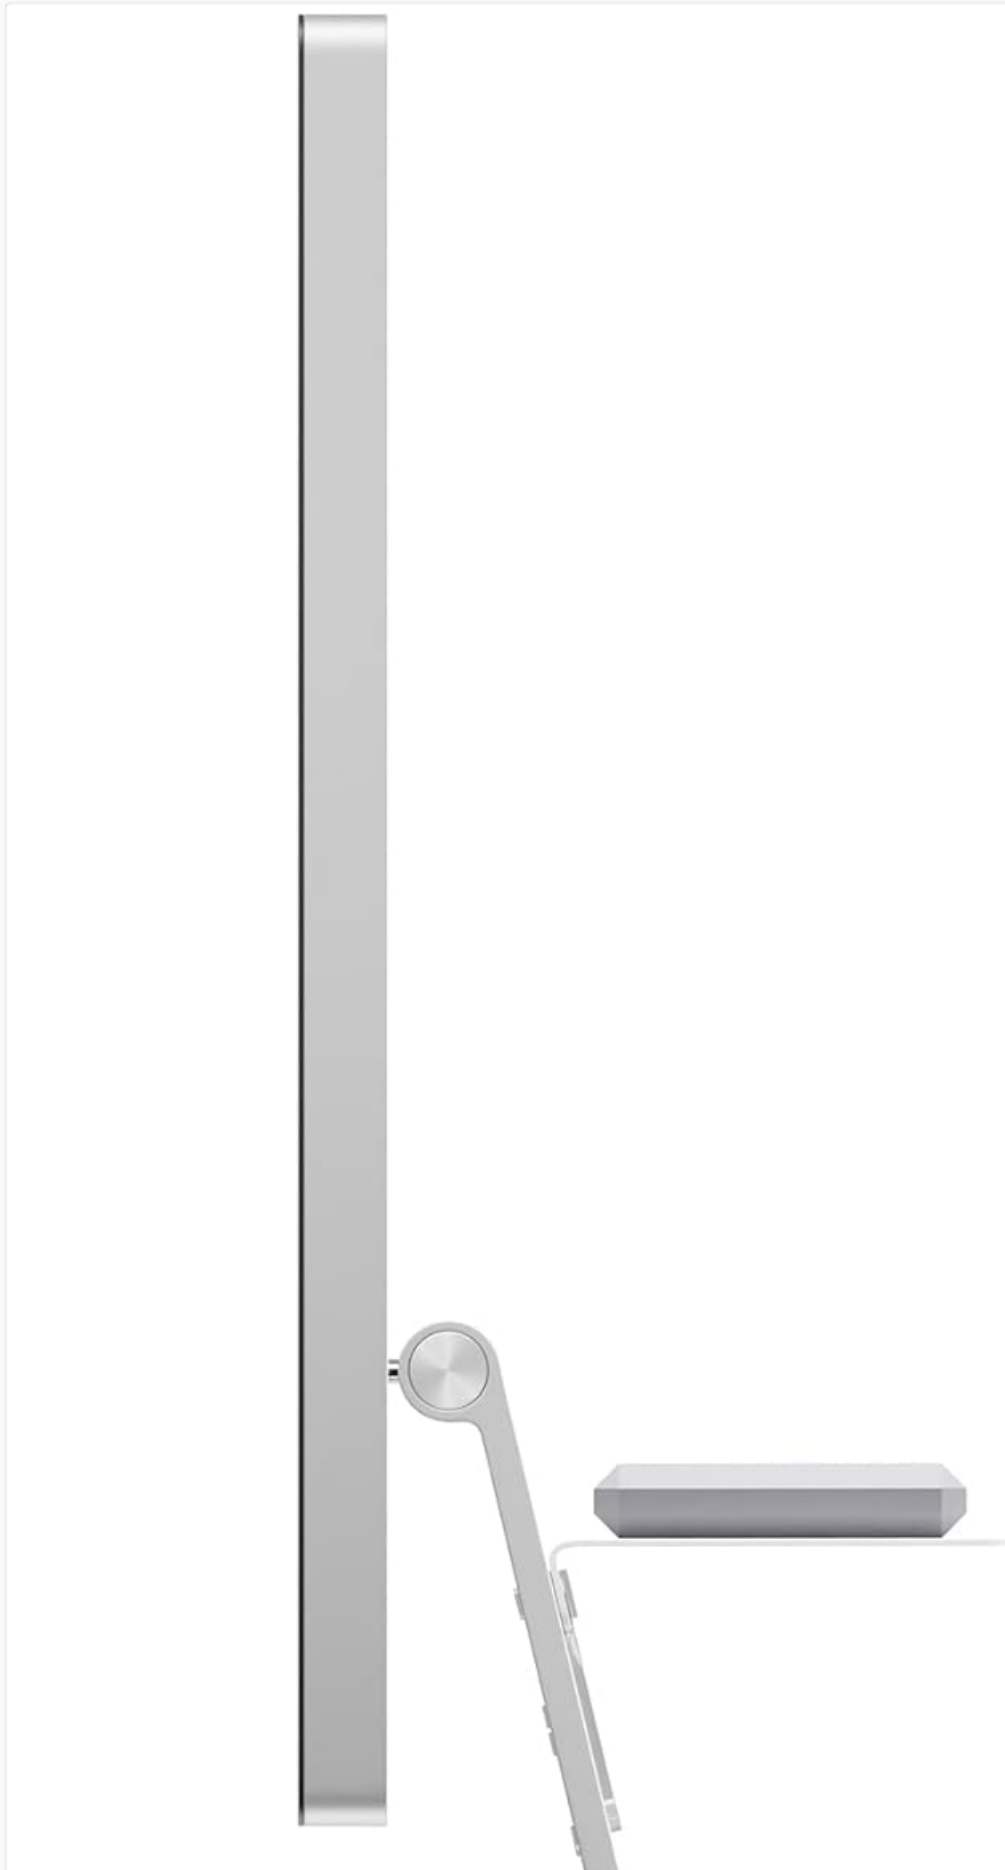

Verify that all items are present in the package:

- Twelve South Backpack Shelf
- Peripheral Strap
- Mounting Clips/Adapters (various sizes for compatibility)
- Anti-slip Pad (for securing devices on the shelf)
- Instruction Guide (this document)

### 3. SETUP AND INSTALLATION

---

The Backpack is designed for easy installation on the Apple Studio Display. Ensure your display has **adjustable stand** for compatibility. It is not compatible with tilt- and height-adjustable stands.

**Figure 3.1:** Compatibility diagram. The Backpack is compatible with tilt-adjustable stands (left) but not with tilt- and height-adjustable stands (right).

## Installation Steps:

1. **Identify Mounting Point:** Locate the cable pass-through hole on the back of your Apple Studio Display stand.
2. **Select Adapters:** Choose the appropriate mounting clips/adapters from the package that match your specific Studio Display model and desired shelf height. Refer to the included quick-start guide for specific adapter selection if available.
3. **Attach Clips to Backpack:** Securely attach the selected mounting clips to the Backpack shelf.
4. **Mount Backpack:** Carefully align the clips with the cable pass-through hole on the back of your Studio Display stand. Gently push the Backpack until the clips securely engage with the stand. Ensure the shelf is level and stable.

**Figure 3.2:** Rear view of an Apple Studio Display with the Twelve South Backpack securely installed on the stand.

## 4. OPERATING INSTRUCTIONS

---

Once installed, the Backpack provides a convenient platform for your accessories.

### Using the Storage Shelf:

1. **Place Devices:** Position your portable hard drives, USB-C hubs, or other small accessories on the ventilated surface of the Backpack.
2. **Apply Anti-slip Pad:** For added stability, place the included anti-slip pad on the shelf before placing your devices. This helps prevent items from sliding.
3. **Secure with Strap:** Use the provided peripheral strap to secure devices to the shelf. The strap can be used on the top or bottom of the shelf, depending on your preference and the size of the item.
4. **Cable Management:** Route any necessary cables through the openings in the Backpack or along the stand to maintain a tidy setup.

**Figure 4.1:** An external hard drive positioned on the Backpack shelf, demonstrating its use for accessory storage.

## 5. MAINTENANCE

The Twelve South Backpack requires minimal maintenance to ensure its longevity and appearance.

- **Cleaning:** Wipe the surface of the Backpack with a soft, damp cloth. Avoid using abrasive cleaners or solvents, as these may damage the finish.
- **Inspection:** Periodically check the mounting clips to ensure they remain securely attached to the display stand.

## 6. TROUBLESHOOTING

If you encounter issues with your Twelve South Backpack, refer to the following common solutions:

- **Backpack is not stable:**
  - Ensure the correct mounting clips/adapters are used for your specific Studio Display model.
  - Verify that the clips are fully engaged with the cable pass-through hole on the display stand.
  - Confirm that the total weight of items placed on the shelf does not exceed its capacity.
- **Devices slide on the shelf:**
  - Utilize the included anti-slip pad beneath your devices.
  - Use the peripheral strap to secure devices firmly to the shelf.
- **Incompatibility with display:**
  - The Backpack is designed for Apple Studio Displays with **atilt-adjustable stand only**. It is not compatible with tilt- and height-adjustable stands.

## 7. SPECIFICATIONS

Brand	Twelve South
