## SETUP & INSTALLATION

Before installation, ensure power is turned off at the circuit breaker to prevent electrical shock.

### Installation Options:

## 1. Recessed Can Installation (5-inch or 6-inch cans):

- Screw the E26 connector into the existing recessed can socket.
- Connect the fixture's wires to the E26 connector.
- Gently push the disc light into the can, ensuring the spring clips secure it firmly.

## 2. Junction Box Installation:

- Connect the fixture's wires to the junction box wires using the provided wire nuts (black to black, white to white, ground to ground).
- Secure the fixture to the junction box using the provided screws.
- Ensure the fixture is flush with the ceiling.

## OPERATING INSTRUCTIONS

### Color Temperature Selection:

The Sunco LED Disc Lights feature a selectable CCT switch located on the back of the fixture. Before final installation, select your desired color temperature (3000K, 4000K, 5000K, 6000K, or 6500K) by sliding the switch. Once installed, the selected CCT will be active.

### Dimming Function:

These lights are 10%-100% dimmable. To utilize the dimming feature, ensure you have a compatible LED dimmer switch installed. Adjust the dimmer switch to achieve your preferred light level and ambiance.

## MAINTENANCE

Sunco LED Disc Lights require minimal maintenance. Follow these guidelines to ensure continued performance:

- Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the surface of the fixture. Avoid abrasive cleaners or solvents that may damage the finish or lens.
- Bulb Replacement:** These LED fixtures are designed for long life and do not require bulb replacement. If the light stops functioning, refer to the troubleshooting section or contact customer support.
- Inspection:** Periodically check for any loose connections or damage. If any issues are found, consult a qualified electrician.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on	No power to the fixture; Loose wiring; Faulty switch.	Check circuit breaker; Verify wire connections; Test switch functionality.

Problem	Possible Cause	Solution
Light flickers	Incompatible dimmer switch; Loose wiring; Voltage fluctuations.	Ensure dimmer is LED compatible (refer to list); Check connections; Consult electrician for voltage issues.
Incorrect color temperature	CCT switch set incorrectly.	Adjust the CCT switch on the back of the fixture before final installation.
Reduced brightness	Dimmer setting too low; Dust/dirt on lens.	Adjust dimmer to higher setting; Clean the lens with a soft cloth.

## SPECIFICATIONS

- **Brand:** Sunco Lighting
- **Model Number:** DL\_DK56-15W-3K\_65K-96PK-FBM
- **UPC:** 810047889687
- **Color:** 5 CCT in One (3000K, 4000K, 5000K, 6000K, 6500K) - White
- **Material:** Aluminum, Polycarbonate
- **Product Dimensions:** 7.5" L x 1" W x 7.5" H
- **Item Weight:** Approximately 100 pounds (for 96-pack)
- **Power Source:** Corded Electric
- **Voltage:** 120 Volts
- **Wattage:** 15 watts
- **Brightness:** 1050 Lumen
- **Efficiency:** 70 lumens per watt
- **Light Source Type:** LED
- **Installation Type:** Flush Mount
- **Indoor/Outdoor Usage:** Indoor (Damp Rated)
- **Special Features:** Adjustable Color Temperature, Dimmable
- **Included Components:** Mounting Hardware
