bruder 62702 Bworld Fire Station with Fireman Toy Instruction Manual

Model: 62702

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your bruder 62702 Bworld Fire Station with Fireman Toy. Designed for children aged 4 years and up, this playset offers an immersive experience for imaginative firefighting scenarios. Please read these instructions carefully before use to ensure proper setup and enjoyment.

2. PACKAGE CONTENTS

Please verify that all the following components are included in your package:

- Operational control center with office chair and control panel
- Stairs with railing
- Wall shelf with shelves and brackets
- Firefighter figure in uniform (helmet, gloves, radio, fire extinguisher included)
- Adjustable feet with double-sided printed background elements

3. SETUP AND ASSEMBLY

The bruder Bworld Fire Station is designed for straightforward assembly. While no complex tools are required, careful attention to the connection points will ensure stability.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Connect Background Elements:** Assemble the double-sided printed background elements using the provided connectors and adjustable feet. Ensure they form the base structure of the fire station.
3. **Attach Stairs and Railing:** Securely attach the stairs and railing to the designated connection points on the main structure.
4. **Position Interior Elements:** Place the operational control center, office chair, and wall shelf within the station as desired. The wall shelf can be attached to the wall elements.

5. **Final Check:** Ensure all connections are firm and the structure is stable before play.

Figure 3.1: The fully assembled Bruder Bworld Fire Station, showcasing the multi-level design with an upper resting area and a ground-level control center. A firefighter figure is visible on the upper platform, and various accessories are arranged around the station.

4. OPERATING THE PLAYSET

The Bruder Bworld Fire Station is designed to stimulate imaginative play. Here are some ways to interact with the playset:

- **Role-Playing:** Use the included firefighter figure and accessories (helmet, gloves, radio, fire extinguisher) to simulate various firefighting scenarios.
- **Control Center:** Position the firefighter at the operational control center to manage simulated emergencies.
- **Movement:** The firefighter figure can climb the stairs to access the upper platform, which serves as a resting area between missions.
- **Expandability:** The Bworld background elements are designed to be combined with other Bruder Bworld sets, such as police or hospital stations, to create a larger, interconnected play environment.

correct orientation and alignment. Do not force parts together.

- **Missing or Damaged Parts:** If any parts are missing or damaged upon opening the package, please contact the retailer or manufacturer’s customer support for assistance.
- **Stability Issues:** Ensure all adjustable feet are properly attached and the background elements are securely connected to provide a stable structure.
