DELTA 51584-PR

DELTA 7-Setting Slide Bar Hand Shower with Cleaning Spray Lumicoat Chrome Instruction Manual

Model: 51584-PR

INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your DELTA 7-Setting Slide Bar Hand Shower with Cleaning Spray. Please read these instructions thoroughly before installation and use to ensure proper function and longevity of your product.

Image: The DELTA 7-Setting Slide Bar Hand Shower in Lumicoat Chrome, showcasing its sleek design and finish.

The Delta ProClean Hand Shower is designed to offer enhanced cleaning capabilities and a superior showering experience. It features Lumicoat Finishes for easy cleaning and H2Okinetic Technology for increased coverage and intensity.

SETUP AND INSTALLATION

Included Components

- Hand Shower
- Hose (60-82 inch stretchable, metal hose)

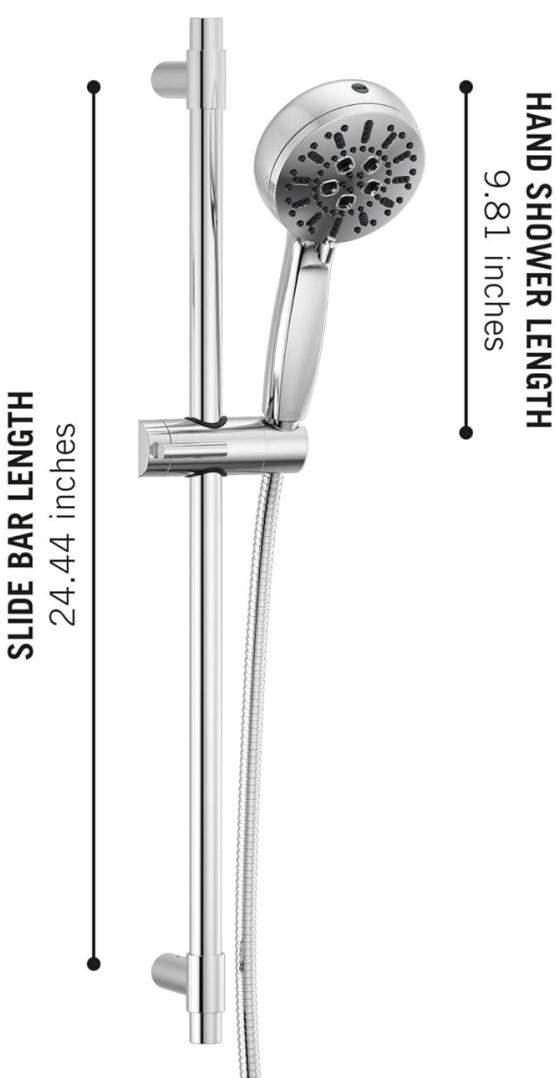

- Slide Bar (24.44 inches)

Installation Type

This hand shower system is designed for wall-mounted installation. Professional installation is recommended.

Important Installation Note

Please note: The wall elbow (Delta part #50560-PR or equivalent) is not included with this product and must be purchased separately to complete the installation. Ensure you have all necessary components before beginning installation.

OPERATING INSTRUCTIONS

Spray Settings

Your DELTA hand shower offers 7 distinct spray settings for a customized showering experience:

- **ProClean Spray:** A focused, wide fan, high-pressure spray designed to clean shower surfaces at least two times faster than standard sprays, effectively powering off soap scum and shower messes.

- **H2Okinetic PowerDrench Spray:** Creates powerful water patterns for an energizing experience, providing 3X the coverage of a standard shower head for more warmth and intensity.
- **Full Spray:** A consistent, broad spray for everyday showering.
- **Full Spray + Massage:** Combines the full spray with a pulsating massage for a relaxing experience.
- **Massage Spray:** A concentrated, pulsating spray for muscle relaxation.
- **Shampoo Rinsing Spray:** Optimized for efficient rinsing of shampoo from hair.
- **Pause:** Reduces water to a trickle, allowing you to conserve water during tasks like shaving or lathering, while maintaining your temperature settings.

Image: A visual guide demonstrating the distinct patterns of the seven spray settings.

H2Okinetic Technology

H2Okinetic showers sculpt water into a unique wave pattern, giving you 3X the coverage of a standard shower head. This technology provides more coverage, more warmth, and more intensity for a truly drenching shower experience.

ProClean Spray for Cleaning

The ProClean spray is specifically designed for cleaning. Its wide fan, high-pressure spray allows you to quickly clean hard-to-reach places and tile without scrubbing. This feature helps reduce soap scum buildup with regular use.

WIDE FAN

CLEANS MORE SURFACE AREA

Adjustable Slide Bar

The hand shower is mounted on an adjustable slide bar, allowing you to easily adjust the height and angle of the shower head to suit your preference or for specific tasks. Simply press the lever on the holder to slide it up or down the bar.

MAINTENANCE

Lumicoat Finishes

The Lumicoat Finishes are designed to resist water spots and mineral buildup. They can be easily wiped clean without the need for harsh cleaners or chemicals. The ultra-sleek surface repels liquids, helping your faucet's most commonly touched areas stay beautiful and cleaner longer.

Touch-Clean Spray Holes

The soft, rubber Touch-Clean spray holes allow you to easily wipe away calcium and lime buildup from the spray face of your hand shower with the touch of a finger. This helps maintain optimal spray performance.

TROUBLESHOOTING

If you encounter any issues with your DELTA hand shower, please refer to the following common solutions:

- **Low Water Pressure:** Check for mineral buildup in the spray holes and clean them using the Touch-Clean feature. Ensure the main water supply valve is fully open.
- **Hand Shower Not Holding Position on Slide Bar:** Ensure the adjustable lever on the slide bar holder is securely tightened. If the issue persists, inspect the internal mechanism of the holder for wear or damage.
- **Leaking:** Check all connections for proper tightening. Ensure all washers and seals are correctly seated. If leaking persists, contact customer support.

For more complex issues, it is recommended to consult a qualified plumber or contact DELTA customer support.

SPECIFICATIONS

Feature	Specification
Brand	DELTA
Model Number	51584-PR
Style	Transitional
Shape	Round
Material	Metal
Finish Type	Polished
Installation Type	Wall Mounted
