5. **Ready:** The indicator light will turn off once the waffle maker has reached its optimal cooking temperature. It is now ready for use.

During the first use, a slight odor or light smoke may be noticeable. This is normal for new appliances and will dissipate quickly.

5. OPERATING INSTRUCTIONS

1. **Prepare Batter:** Mix your preferred waffle batter according to its recipe.
2. **Preheat:** Ensure the waffle maker is plugged in and preheated until the indicator light turns off.
3. **Add Batter:** Carefully pour or spoon approximately 1/4 cup of batter onto the center of the bottom cooking plate. Do not overfill.
4. **Close:** Gently close the lid. The indicator light may turn back on during cooking.

5. **Cook:** Allow the waffle to cook for 1-3 minutes, or until golden brown and steam stops escaping from the sides. Cooking time may vary based on batter type and desired crispness.
6. **Remove Waffle:** Once cooked, use a heat-resistant, non-metallic utensil (e.g., plastic or wooden spatula) to carefully remove the waffle. Avoid using metal utensils to prevent damage to the non-stick coating.
