6. Troubleshooting

If you encounter issues with your Larktale Sprout Stroller/Wagon, please refer to the following common solutions:

- **Stroller/Wagon does not unfold/fold smoothly:** Ensure all locking mechanisms are disengaged before attempting to fold or unfold. Check for any obstructions in the folding mechanism.
- **Wheels are stiff or squeaky:** Clean any dirt or debris from the wheel axles. A small amount of silicone-based lubricant can be applied to moving parts if necessary, avoiding contact with the brake system.
- **Harness not securing properly:** Ensure all buckle components are correctly aligned and fully inserted into the central buckle. Adjust straps to remove slack.
- **Chassis not expanding/contracting:** Verify that the expansion release levers are fully engaged or disengaged as required. Check for any obstructions preventing movement.
