Yaheetech Full Size Metal Platform Bed

INSTRUCTION MANUAL

Important Safety Information

Please read and understand all instructions before beginning assembly and use. Keep this manual for future reference. Failure to follow these instructions may result in injury or damage to the product.

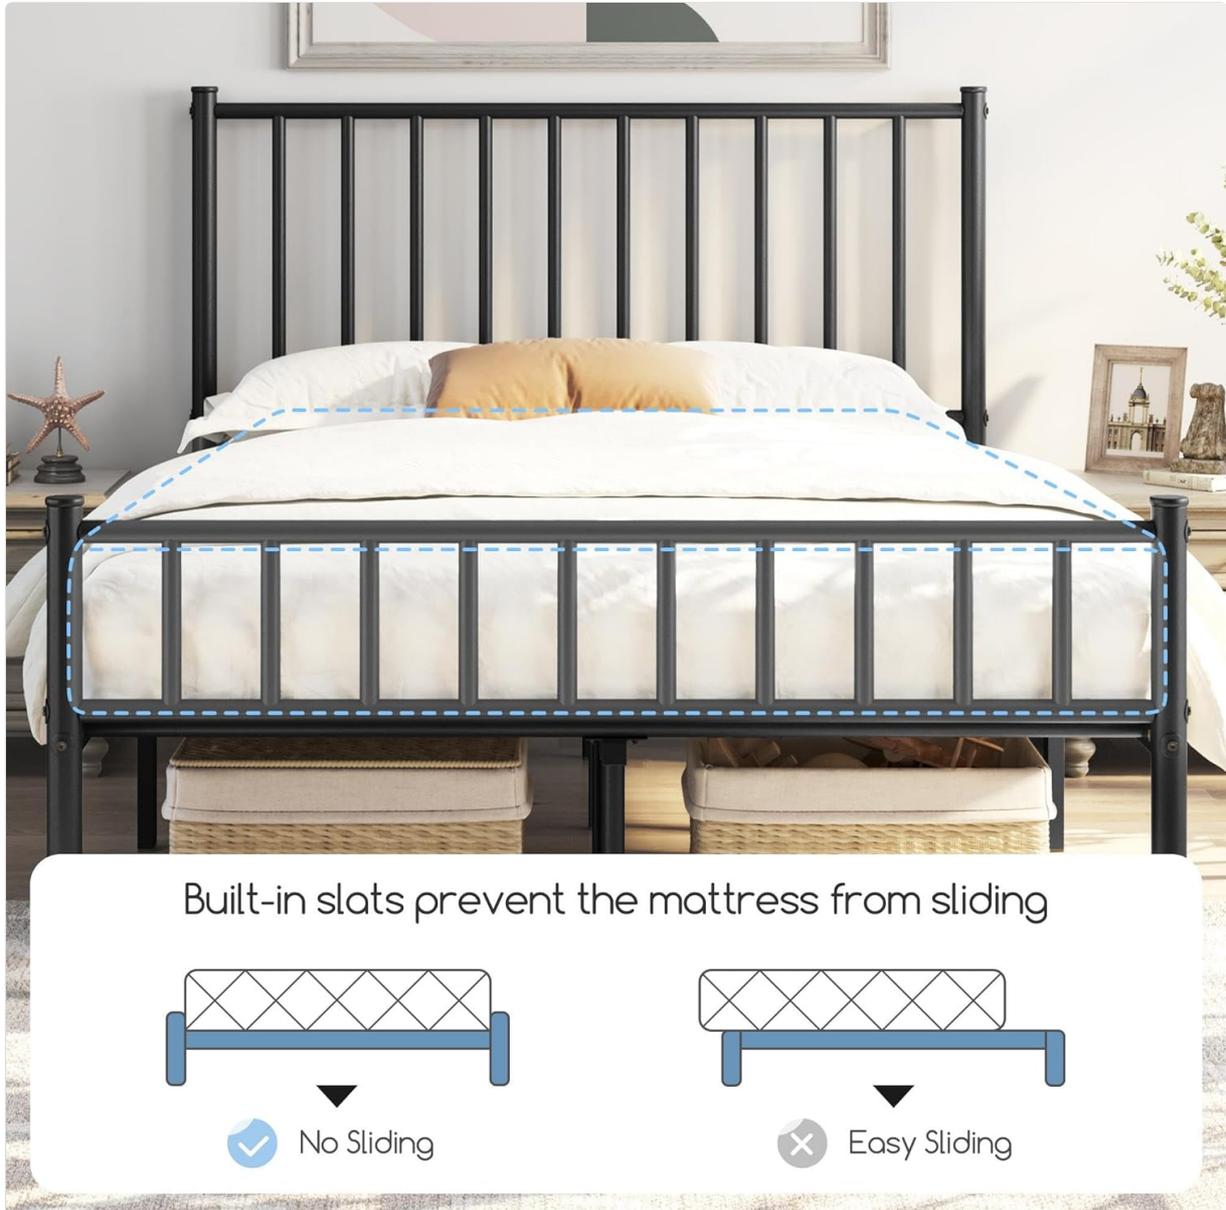

- Keep all children and pets away from the assembly area.
- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assemble the bed frame on a soft, non-abrasive surface (e.g., carpet or cardboard) to prevent scratching.
- Do not overtighten screws during initial assembly. Half-tighten all screws first, then fully tighten once the frame is aligned.
- Regularly check all connections and fasteners to ensure they remain tight.
- Do not exceed the maximum weight capacity of 800 lbs.
- This bed frame is designed for use with a full-size mattress (75"L x 54"W). No box spring is required.

Parts List

Before assembly, verify that all components listed below are included in your package. If any parts are missing or damaged, please contact Yaheetech customer support.

Part	Description	Quantity
A	Headboard	1
B	Footboard	1
C	Side Rails	2

Part	Description	Quantity
D	Center Support Rail	1
E	Metal Slats	12
F	Support Legs (with rubber feet)	10
G	Hardware Pack (screws, wrench, etc.)	1 set

This image illustrates a crucial assembly tip: first, half-tighten all screws to allow for proper alignment of parts, and then, once all components are in place and aligned, fully tighten all screws for a secure and stable structure.

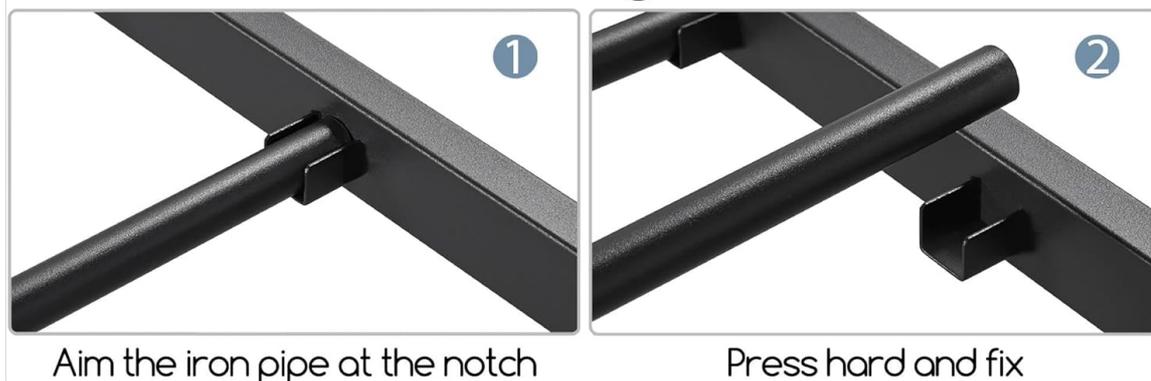

Assembly Instructions

Follow these steps carefully for a smooth and successful assembly. All necessary tools are included.

- 1. Unpack and Identify Parts:** Lay out all parts on a clean, soft surface. Compare them with the parts list to ensure everything is accounted for.
- 2. Attach Side Rails to Headboard and Footboard:** Connect the side rails (C) to the headboard (A) and footboard (B) using the provided screws. *Initially, only half-tighten the screws.* This allows for

flexibility during alignment.

3. **Install Center Support Rail:** Secure the center support rail (D) to the designated points on the headboard and footboard. Ensure it is properly aligned.
4. **Attach Support Legs:** Screw the support legs (F) into their respective positions on the frame, including the central legs. Ensure the rubber feet are facing down.
5. **Insert Metal Slats:** Carefully place each metal slat (E) into the designated slots or attach them to the frame as per the diagram. Ensure each slat is securely fixed. Some slats may require pressing firmly into place.

This image provides a close-up detail of how the metal slats are installed into the frame, showing the process of aligning the iron pipe with the notch and pressing firmly to secure it in place.

6. **Final Tightening:** Once all parts are assembled and aligned, go back and *fully tighten all screws* using the provided wrench. Ensure all connections are firm and stable.

This visual explains how the bed frame's built-in slats are designed to prevent the mattress from sliding, ensuring it stays securely in place without the need for additional anti-slip measures.

This image shows the fully assembled Yaheetech Full Size Metal Platform Bed, featuring its black metal frame, spindle headboard, and footboard. The bed is shown with a mattress and bedding, and two storage baskets are visible underneath, highlighting the ample underbed storage space.

Usage Guidelines

The Yaheetech Full Size Metal Platform Bed is designed for comfort and durability. Follow these guidelines for optimal use:

- **Mattress Compatibility:** This frame is designed for a full-size mattress (75"L x 54"W). The integrated slat system provides ample support, eliminating the need for a box spring.
- **Underbed Storage:** Utilize the generous 13 inches of clearance space beneath the bed for convenient storage of boxes, containers, or other items.

The image displays the Yaheetech Full Size Metal Platform Bed in a bedroom, showcasing its minimalist design and the practical underbed storage space, where a trunk and a woven basket are placed.

- **Weight Distribution:** Distribute weight evenly across the bed surface to maintain structural integrity and prevent undue stress on the frame.

Care and Maintenance

Proper care will extend the life and appearance of your bed frame:

- **Cleaning:** Wipe clean with a dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically inspect all bolts and connections to ensure they are tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Protective Features:** The powder-coated surface is designed to be water- and scratch-resistant. The rubber caps on the legs help prevent friction noise and protect your flooring.

Troubleshooting

If you encounter any issues with your bed frame, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Squeaking noises	Loose bolts or connections; friction between metal parts.	Ensure all bolts are fully tightened. Apply a small amount of lubricant (e.g., silicone spray) to connection points if squeaking persists.
Bed feels unstable/wobbly	Not all bolts are fully tightened; uneven assembly.	Re-check and fully tighten all bolts. Ensure the frame is assembled on a flat, level surface.
Mattress slides on frame	Incorrect mattress size; lack of friction.	Ensure your mattress is the correct full size (75"L x 54"W). The built-in slats are designed to prevent sliding, but if it occurs, a non-slip mattress pad can be used.

Product Specifications

This diagram provides detailed measurements of the full-size bed frame, including length (78 inches), width (56.5 inches), headboard height (38 inches), footboard height (24 inches), and underbed clearance (13 inches). It also indicates the maximum weight capacity of 800 lbs and applicable mattress size of 75 x 54 inches.

Feature	Detail
Model Number	YT-00119770-001
Size	Full
Product Dimensions	78"L x 56.5"W x 38"H
Color	Black
Material	Metal (Powder Coated Finish)
Weight Capacity	800 lbs
Underbed Clearance	13 Inches
Assembly Required	Yes
Item Weight	41.7 pounds

Warranty and Support

Yaheetech is committed to providing quality products. For specific warranty details, including coverage and

duration, please refer to the documentation included with your purchase or visit the official Yaheetech website. If you have any questions, require replacement parts, or need assistance with assembly or troubleshooting, please contact Yaheetech customer support directly.

Contact Information: Please refer to the contact details provided on the Yaheetech official website or your purchase receipt for the most up-to-date support information.
