

HOMCOM 834-202GY

HOMCOM Tall Narrow Bathroom Storage Cabinet Instruction Manual

Model: 834-202GY

INTRODUCTION

Thank you for choosing the HOMCOM Tall Narrow Bathroom Storage Cabinet. This freestanding linen cabinet is designed to provide efficient storage in compact spaces, featuring adjustable shelves and a durable construction. Please read this manual carefully before assembly and use to ensure proper installation and safe operation. Keep these instructions for future reference.

SAFETY INFORMATION

- **Anti-Tipping Straps:** It is crucial to include and securely attach the provided anti-tipping straps to the wall. This prevents the cabinet from falling over, especially important in households with children or pets.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 132 lbs (total) or 22 lbs per shelf. Overloading can compromise stability and lead to damage or injury.
- **Assembly:** Assembly requires two people for safety and ease. Follow all steps precisely.
- **Placement:** Ensure the cabinet is placed on a flat, stable surface.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Cabinet Panels (top, bottom, sides, back)
- Doors (4 total, 2 upper, 2 lower)
- Adjustable Shelves (3 total)
- Hardware Pack (screws, dowels, hinges, magnetic catches, door knobs, anti-tipping straps)
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Assembly typically requires approximately 1-2 hours with two people. Patience is key for a successful build.

1. **Prepare the Area:** Clear a spacious, clean, and flat area for assembly. Lay out all components and hardware.
2. **Assemble the Frame:** Connect the side panels to the top and bottom panels using the provided hardware. Ensure all connections are secure.
3. **Install Shelves:** Insert the fixed shelves into their designated slots. For adjustable shelves, determine your desired height and insert the shelf pins into the corresponding holes. Ensure shelves are properly seated.
4. **Attach Back Panels:** Carefully align and attach the back panels. Ensure guide holes for screws align to prevent splitting. If misalignment occurs, gently create new pilot holes if necessary, but proceed with caution.
5. **Install Doors:** Attach the hinges to the doors and then to the cabinet frame. Adjust hinges as needed to ensure doors align evenly and close properly. Install the magnetic door catches to keep doors securely closed.
6. **Attach Door Knobs:** Secure the door knobs to the front of each door.
7. **Secure Anti-Tipping Straps:** Once the cabinet is in its final position, attach the anti-tipping straps to the top rear of the cabinet and securely fasten them to a wall stud using appropriate wall anchors (not always included, use suitable anchors for your wall type).

USAGE

This cabinet offers versatile storage for various rooms, including bathrooms, living rooms, and entryways.

- **Adjustable Shelves:** The upper cabinet features adjustable shelves that can be moved to 3 different levels to accommodate items of varying heights. To adjust, remove items, lift the shelf, reposition the shelf pins to the desired height, and then place the shelf back on the pins.
- **Door Operation:** The chic shutter doors are equipped with magnetic closures to keep them firmly shut. Gently pull the knobs to open and push to close.
- **Countertop Space:** The flat surface in the middle provides an open countertop area for frequently used items or decorative displays.

ADJUSTABLE SHELVES

Can be adjusted in 3 levels to satisfy different needs

CARE AND MAINTENANCE

- **Cleaning:** Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the painted surface.
- **Spills:** Promptly wipe up any spills to prevent water damage to the engineered wood.
- **Inspection:** Periodically check all hardware connections to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

- **Wobbly Cabinet:** Ensure the cabinet is on a level surface. Check that all screws and connections are tightened. Verify anti-tipping straps are securely installed.
- **Doors Not Aligning:** Adjust the hinges on the doors. Most hinges allow for minor adjustments to align doors horizontally, vertically, and in depth. Refer to hinge manufacturer instructions if specific adjustments are unclear.
- **Difficulty Assembling:** Review the assembly instructions carefully. Ensure all parts are oriented correctly. If pilot holes do

not align, gently create new ones with a small drill bit, being careful not to split the wood.

SPECIFICATIONS

Brand	HOMCOM
Model Number	834-202GY
Color	Grey
Material	Engineered Wood
Overall Dimensions (W x D x H)	23.5" x 11.75" x 71.75"
