MAINTENANCE

Water and Dust Resistance

The Galaxy S23 Plus 5G is rated IP68 for water and dust resistance. This means it can withstand immersion in up to 1.5 meters of fresh water for up to 30 minutes. Avoid exposing the device to saltwater, chlorinated water, or other liquids, as this may cause damage not covered by warranty.

- If the device gets wet, dry it thoroughly with a clean, soft cloth before charging or using accessories.
- Ensure the USB port is dry before connecting any cables.

Cleaning Your Device

To clean your smartphone:

- Power off the device.
- Use a soft, lint-free cloth to gently wipe the screen and body.
- For stubborn smudges, slightly dampen the cloth with distilled water or a screen cleaner specifically designed for electronics. Avoid harsh chemicals or abrasive materials.

Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to new features. You can check for updates in your device's Settings menu under "Software update."

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Solution
Device not powering on	Ensure the battery is charged. Connect the device to a charger and wait a few minutes before attempting to power on again.

Issue	Possible Solution
Battery drains quickly	Reduce screen brightness, close unused apps, disable unnecessary features like GPS or Bluetooth when not in use. Check for recent app installations that might be consuming excessive power.
Device is heating up	Close background applications, reduce screen brightness, avoid using the device while charging, especially during heavy tasks like gaming. If heating persists, consider a factory reset after backing up data.
Fingerprint sensor not working	Ensure your finger and the screen are clean and dry. Re-register your fingerprints in the device settings. If the issue persists, contact support.
Data transfer issues	Ensure both devices have sufficient battery. Check Wi-Fi connection stability or try a different USB cable. For Smart Switch, ensure both apps are updated.

Factory Reset

If your device experiences persistent issues, a factory reset may resolve them.**Warning:** This will erase all data on your device. Back up all important information before proceeding.

1. Go to **Settings > General management > Reset > Factory data reset**.
2. Review the information and tap **Reset**.
3. Enter your screen lock credentials if prompted.
4. Tap **Delete all** to confirm.
