OPERATING INSTRUCTIONS

Integrated Power Strip and USB Ports:

The desk includes a built-in power strip with two standard AC outlets and two USB charging ports. To use, plug the desk's main power cord into a wall outlet. You can then connect your electronic devices, such as laptops, monitors, smartphones, or gaming consoles, directly to the desk for convenient power access.

- Ensure the power strip is securely connected before use.
- Do not exceed the maximum power rating of the integrated strip.
- Unplug the desk from the wall outlet when not in use or during electrical storms.

Storage and Ergonomics:

- **Fabric Drawers:** Utilize the four fabric drawers for organized storage of office supplies, documents, and personal items.
- **Monitor Shelf:** The elevated monitor shelf provides space for up to two monitors, promoting an ergonomic viewing height. This helps reduce strain on your neck and back by encouraging a better sitting posture. It also frees up valuable desk surface area.

MAINTENANCE

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Dusting:** Regularly dust the desk to prevent buildup.
- **Hardware Check:** Periodically inspect all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.
- **Spills:** Immediately wipe up any spills to prevent water damage to the MDF panels.

TROUBLESHOOTING

- **Desk Wobbles:** Ensure all assembly screws are fully tightened. Check that the desk is on a level surface. Adjustable feet may be present to compensate for uneven floors.
- **Power Outlets/USB Ports Not Working:**
 - a. Verify the desk's main power cord is securely plugged into a functional wall outlet.
 - b. Check if the wall outlet itself is receiving power (test with another device).
 - c. Ensure the power strip is correctly connected to the desk's internal wiring (refer to assembly guide).
 - d. Avoid overloading the power strip.
- **Drawers Not Sliding Smoothly:** Ensure the fabric drawers are correctly assembled and inserted. Check for any obstructions.
