

MAGIC SELECT B2222

User Manual: Portable 4-in-1 Air Pump & Vacuum Cleaner

Brand: MAGIC SELECT | **Model:** B2222

Your comprehensive guide to operating and maintaining your MAGIC SELECT B2222 device.

1. INTRODUCTION

Thank you for choosing the MAGIC SELECT B2222 Portable 4-in-1 Air Pump and Vacuum Cleaner. This versatile device combines a cordless air compressor, a car and home vacuum cleaner, a tire pressure detection system, and an integrated SOS LED flashlight. Designed for convenience and efficiency, it is ideal for inflating car, motorcycle, and bicycle tires, as well as balls and other inflatables, and for quick cleaning tasks.

Please read this manual carefully before using the product to ensure safe and optimal performance. Keep this manual for future reference.

2. WHAT'S IN THE Box

- 1 x Cordless Air Compressor / Vacuum Cleaner Unit
- 1 x Inflation Tube
- 1 x LED Emergency Light (integrated)
- 1 x USB Type-C Charging Cable
- Various inflation nozzles/adapters
- Vacuum cleaner attachments (e.g., brush nozzle)

Image 2.1: The MAGIC SELECT B2222 unit displayed with its full set of accessories, including the inflation tube, various nozzles, USB-C charging cable, and vacuum attachments.

3. PRODUCT FEATURES

- **4-in-1 Functionality:** Air compressor, vacuum cleaner, tire pressure detection, and SOS LED light.
- **Powerful Inflation:** Suitable for car, motorcycle, bicycle tires, and various balls/inflatables.
- **Smart Induction Chip:** Automatically stops inflation once the preset pressure is reached, ensuring safety and preventing over-inflation.
- **Integrated Vacuum:** Efficiently cleans car interiors and small areas in the home.
- **LED Emergency Light:** Features 3 lighting modes: steady light, medium-speed flashing, and

alternating medium/high-speed flashing for emergency situations.

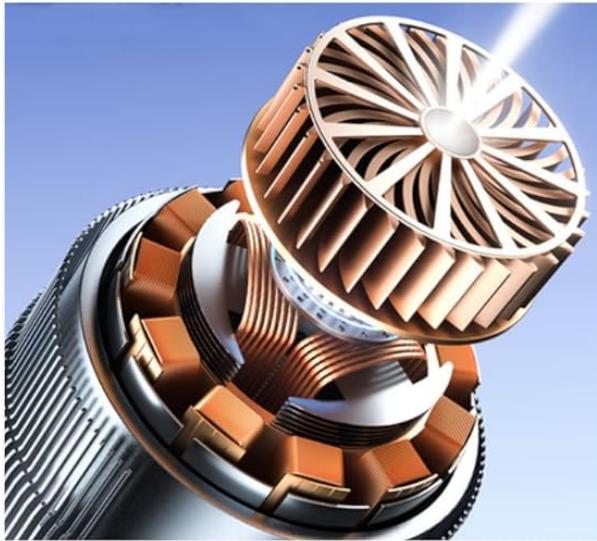

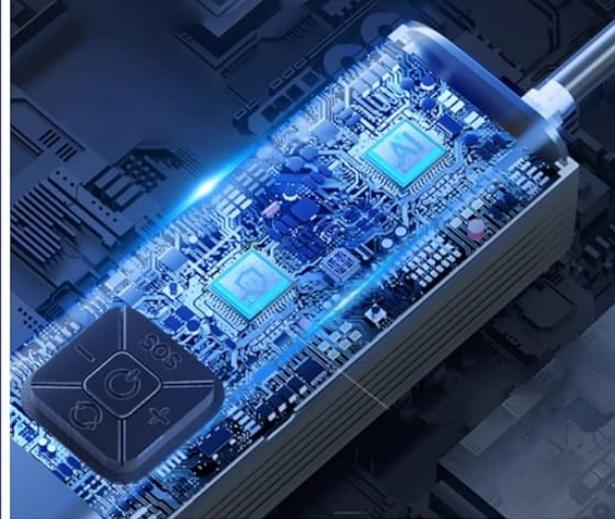

- **Long-lasting Battery:** Equipped with a 4400mAh lithium-ion battery, rechargeable via USB Type-C.
- **Digital Display:** Clear digital screen to monitor tire pressure and settings.
- **Compact Design:** Portable and easy to store.

Image 3.1: Visual representation of the device's four main functions: air pump, vacuum cleaner, tire pressure detection, and SOS light, highlighting its versatility.

SECURITY

High density stop chip, know tire pressure status in time to ensure travel safety

TURBO ENGINE

A new generation of dual turbo engine with a speed of 30000r /min

BATTERY

Long-lasting 4400 mAh lithium-ion battery

Image 3.2: An illustration showcasing the internal components, including the high-density security chip for tire pressure monitoring, the powerful 30000r/min turbo engine, and the long-lasting 4400mAh lithium-ion battery.

4. SETUP

4.1 Charging the Device

1. Locate the USB Type-C charging port on the upper side of the compressor.
2. Connect the provided USB Type-C cable to the device.
3. Plug the other end of the USB cable into a compatible USB power adapter (not included) or a USB

port on a computer.

4. The digital display will indicate the charging status. Ensure the device is fully charged before first use for optimal battery life.

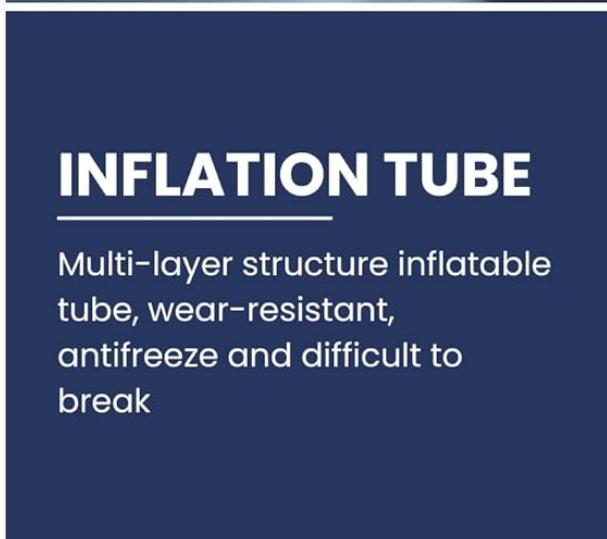

4.2 Attaching Accessories

- **For Inflation:** Screw the inflation tube into the designated hole at the top of the unit. Attach the appropriate nozzle for your item (car tire, bicycle valve, ball needle, etc.) to the other end of the inflation tube.
- **For Vacuuming:** Insert the vacuum attachment into the hole located at the bottom of the unit.

LED

LED flashlight for easy cleaning or inflation

INFLATION TUBE

Multi-layer structure inflatable tube, wear-resistant, antifreeze and difficult to break

SMART CHIP

Improved overload protection, it is safe and does not damage the car

Image 4.1: Detailed view showing the LED flashlight, the secure connection point for the multi-layer inflation tube, and an illustration of the smart chip for improved overload protection.

5. OPERATING INSTRUCTIONS

5.1 Control Panel Overview

The device features a digital display and 5 control buttons:

- **Power ON/OFF Button:** Central button to turn the device on/off and start/stop inflation or vacuuming.
- **Pressure - Button:** Decreases the target pressure.
- **Pressure + Button:** Increases the target pressure.
- **LED Light ON/OFF Button:** Activates and cycles through LED light modes.
- **Mode & Units Switch Button:** Changes between preset inflation modes (Car, Motorcycle, Bicycle, Ball) and switches pressure units (e.g., PSI, Bar).

BUTTONS

4 PRESET MODES

Image 5.1: Detailed view of the device's control panel, showing the digital display, power button, pressure adjustment buttons, LED light button, and mode/unit switch button, along with four preset inflation modes.

5.2 Using the Air Compressor (Inflation)

- Connect:** Screw the inflation tube onto the device and attach the correct nozzle to the item you wish to inflate.
- Power On:** Press the Power ON/OFF button to turn on the device. The digital display will show the current tire pressure.
- Select Mode:** Press the Mode & Units Switch button to cycle through preset modes (Car, Motorcycle, Bicycle, Ball) or to change pressure units (PSI, Bar).

4. **Set Pressure:** Use the Pressure + and Pressure - buttons to set your desired target pressure.
5. **Start Inflation:** Press the Power ON/OFF button again to begin inflation. The device will automatically stop when the preset pressure is reached.
6. **Disconnect:** Once inflation is complete, disconnect the nozzle from the item and then unscrew the inflation tube from the device.

Image 5.2: The device in use, inflating a car tire, with visual indicators of its compact dimensions (29cm height, 5cm width) and its applicability for motorcycle, bicycle, and ball inflation.

5.3 Using the Vacuum Cleaner

1. **Attach:** Insert the desired vacuum attachment into the vacuum port at the bottom of the device.
2. **Power On:** Press the Power ON/OFF button to activate the vacuum function.
3. **Clean:** Use the device to vacuum dust, crumbs, and small debris from car interiors (seats, trunk, center console) or small areas in your home (sofas, lamp tables, windowsills, keyboards).
4. **Power Off:** Press the Power ON/OFF button again to turn off the vacuum.

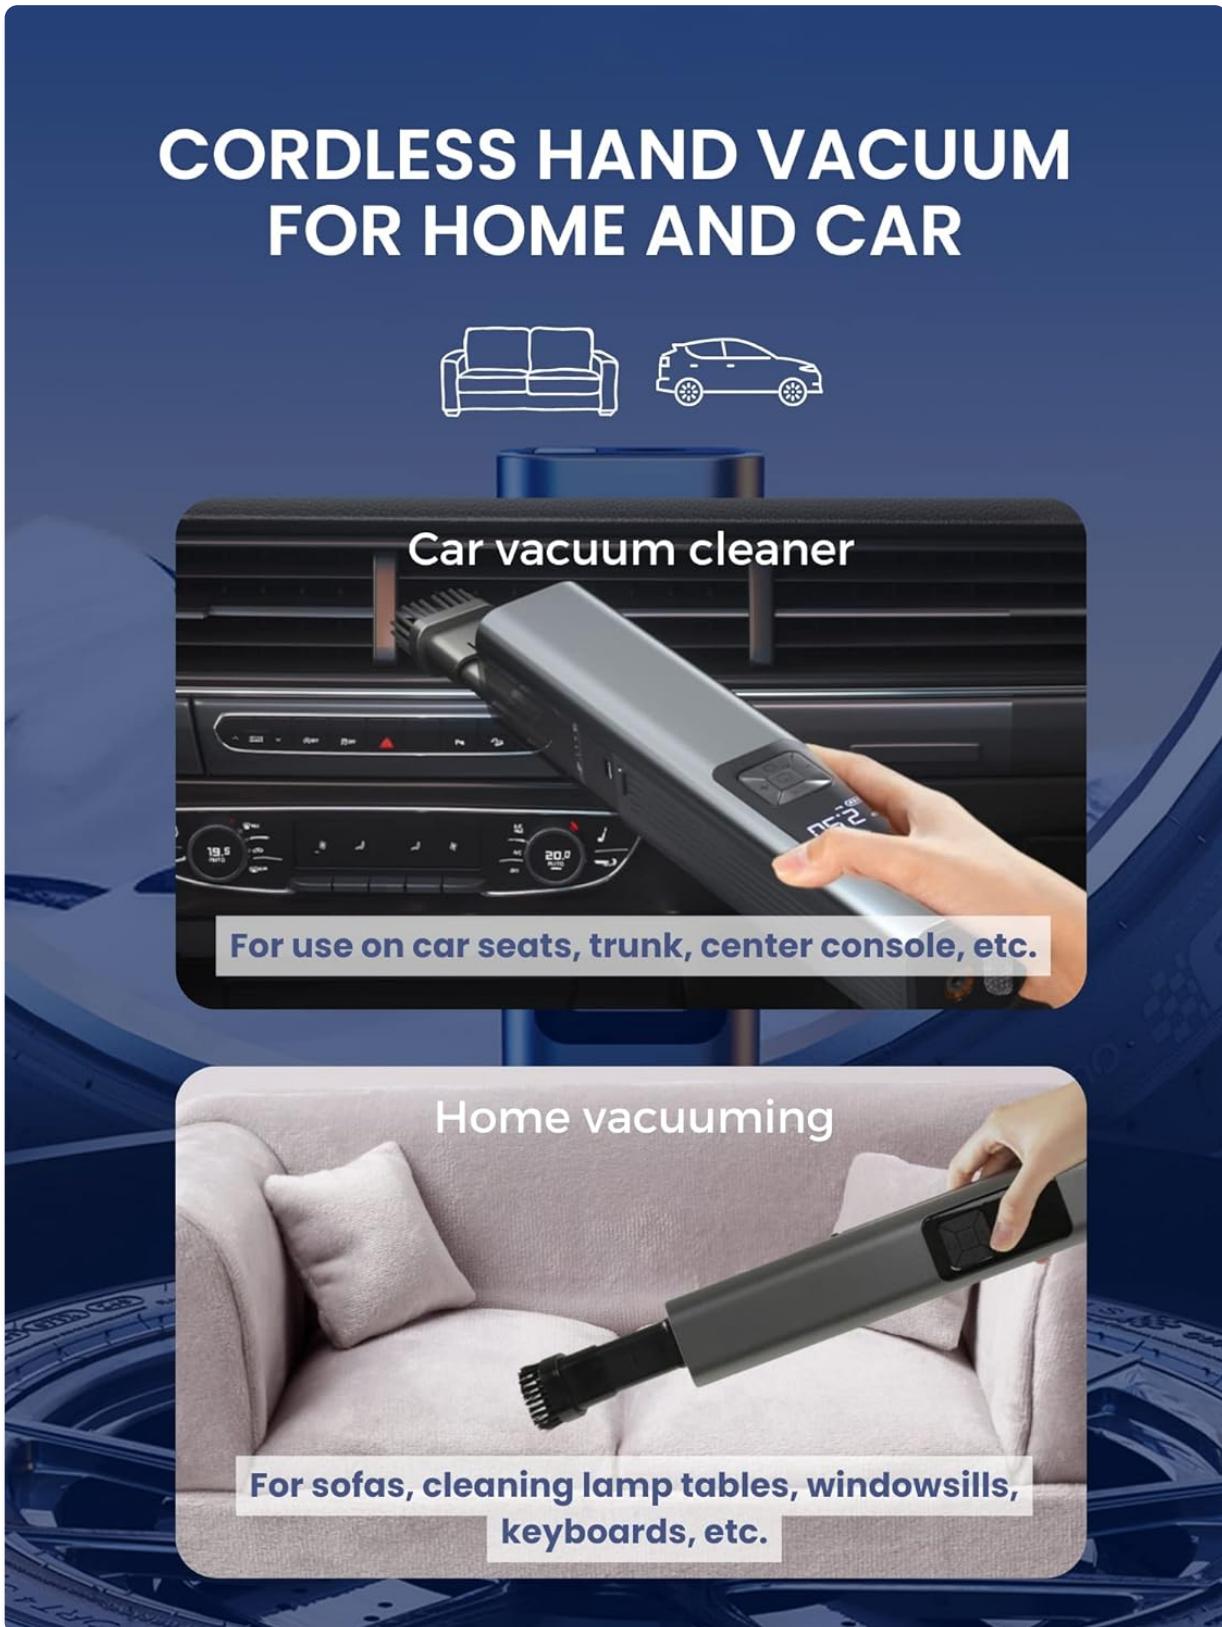

Image 5.3: Demonstrates the device's use as a cordless hand vacuum, showing it cleaning a car interior and a home sofa, highlighting its dual utility.

5.4 Using the LED Emergency Light

- Activate:** Press the LED Light ON/OFF button to turn on the light.
- Cycle Modes:** Press the LED Light ON/OFF button repeatedly to cycle through the three lighting modes:
 - First press: Steady light
 - Second press: Medium-speed flashing light
 - Third press: Alternating medium/high-speed flashing light (SOS signal)
- Turn Off:** Continue pressing the LED Light ON/OFF button until the light turns off, or hold the button for a few seconds.

6. MAINTENANCE

6.1 Cleaning the Device

- Wipe the exterior of the device with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- For the vacuum function, regularly empty the dust collection bin and clean the filter to maintain optimal suction power. The filter is washable; ensure it is completely dry before reinserting.

6.2 Storage

- Store the device and its accessories in a cool, dry place, away from direct sunlight and extreme temperatures.
- Ensure the device is fully charged before long-term storage to preserve battery health.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery.	Charge the device using the provided USB Type-C cable.
Air compressor not inflating.	Inflation tube or nozzle not properly connected. Incorrect pressure setting.	Ensure all connections are secure. Check and adjust the target pressure.
Vacuum suction is weak.	Dust bin full. Filter clogged.	Empty the dust bin. Clean or replace the filter.
Device stops unexpectedly during operation.	Overheat protection activated. Battery low.	Allow the device to cool down. Recharge the battery.

8. SPECIFICATIONS

Feature	Detail
Model Number	B2222
Brand	MAGIC SELECT

Feature	Detail
Battery Capacity	4400mAh Lithium-ion
Motor Speed (Vacuum)	30000r/min
Dimensions (L x W x H)	29 x 6 x 5.5 cm (approx.)
Weight	850 g
Charging Port	USB Type-C
Special Features	LED Emergency Light, Digital Display, Automatic Shut-off (Inflation)

9. WARRANTY AND SUPPORT

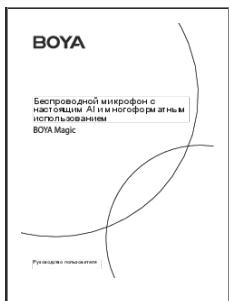

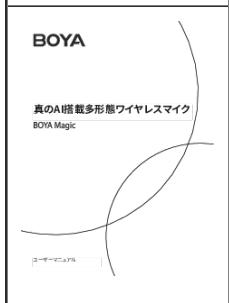

For warranty information and customer support, please refer to the documentation provided with your purchase or contact MAGIC SELECT customer service directly. Keep your proof of purchase for warranty claims.

For further assistance or inquiries, please visit the official MAGIC SELECT website or contact their support team through the contact details provided on their packaging or product page.
