## 2. SAFETY INFORMATION

---

For your safety and to ensure proper operation, please observe the following precautions:

- Always use with caution to avoid cuts.
- Do not use the shaver while it is charging.
- Clean the shaver regularly to prevent bacterial growth and maintain hygiene.
- Keep the appliance dry when not in use.
- Do not disassemble the shaver beyond routine cleaning.
- Keep out of reach of children.

## 3. SETUP AND CHARGING

---

### Initial Charge

Before using your VGR V-322 shaver for the first time, fully charge it. The shaver features a Lithium-ion battery.

1. Ensure the shaver is turned off.
2. Connect the USB charging cable to the shaver's charging port.
3. Plug the other end of the USB cable into a compatible USB power adapter (5V, 1A) or a computer USB port.
4. The LCD display will indicate the charging status. A full charge typically takes approximately 1.5 hours.
5. Once fully charged, disconnect the shaver from the power source.

**Note:** The shaver cannot be operated while it is connected to the charging cable.

## 4. OPERATING INSTRUCTIONS

---

### Powering On/Off

Press the power button located on the front of the shaver to turn it on or off.

### Wet and Dry Shaving

The VGR V-322 is designed for both wet and dry shaving, offering flexibility for your grooming routine. Its waterproof design allows for use in the shower or with shaving cream.

- **Dry Shaving:** For a quick shave, ensure your face is clean and dry. Move the shaver in small, circular motions against the direction of hair growth.

- **Wet Shaving:** For a more comfortable shave, apply shaving foam or gel to your face. Shave in small, circular motions. Rinse the shaver head under running water during and after shaving to prevent clogging.

**Image 4.1:** The VGR V-322 Electric Shaver, showcasing its ergonomic design and the triple rotary shaving heads, suitable for both wet and dry use.

### **Using the Pop-up Trimmer**

The shaver includes a pop-up trimmer for precise detailing of sideburns and moustaches.

1. Locate the trimmer release switch on the back of the shaver.
2. Slide the switch upwards to activate the pop-up trimmer.
3. Use the trimmer to shape and trim longer hairs.
4. Once finished, push the trimmer back down until it clicks into place.

## 5. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the lifespan of your shaver. The VGR V-322 is

designed for whole-body washing.

1. **Daily Cleaning:** After each use, turn off the shaver. Open the shaving head unit and rinse it thoroughly under running water. Shake off excess water and allow it to air dry.

2. **Thorough Cleaning (Weekly/Bi-weekly):**

- Turn off the shaver and disconnect it from any power source.
- Carefully remove the shaving head assembly.
- Use the provided cleaning brush to remove any trapped hairs from the blades and the shaver body.
- Rinse the shaving head and the shaver body under running water.
- Allow all parts to dry completely before reassembling.
- Apply a small drop of lubricating oil (if provided) to the blades to maintain their sharpness and smooth operation.

The shaver features an automatic grinding technology for its blades, which helps maintain their sharpness over time with regular use.

**Image 5.1:** Detailed view of the VGR V-322's triple rotary shaving heads, illustrating the precision blades that require regular cleaning for optimal performance.

## 6. TROUBLESHOOTING

If you encounter issues with your VGR V-322 shaver, please refer to the following common solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Low battery or not charged.	Charge the shaver for 1.5 hours. Ensure it is disconnected from the charger before attempting to turn it on.
Poor shaving performance.	Blades are dirty or worn.	Clean the shaving heads thoroughly. If performance does not improve, consider replacing the shaving heads (contact support for availability).
Shaver pulls hair.	Blades are dull or shaver is not clean.	Ensure the shaver is fully charged. Clean the shaving heads. If the issue persists, the blades may need replacement.
LCD display not working.	Internal malfunction.	Ensure the shaver is charged. If the problem continues, contact customer support.
