addlon floor lamp - 006

addlon Floor Lamp with Shelves Instruction Manual

Model: floor lamp - 006

Brand: addlon

1. INTRODUCTION

Thank you for choosing the addlon Floor Lamp with Shelves. This modern 5-tier floor lamp is designed to provide both illumination and ample storage space, enhancing the functionality and aesthetics of your living room, bedroom, or office. Please read this manual carefully before assembly and use to ensure proper operation and longevity of your product.

2. PRODUCT FEATURES

- **Larger Storage Space:** Features updated boards with a larger area for storage. Each high-density fiber board can support up to 50 pounds, providing quadruple storage space to help keep your home tidy.

Figure 2: Illustration highlighting the super large size and increased storage capacity of the lamp's shelves.

- **3 Color Temperatures LED Bulb:** The included LED bulb offers three adjustable color temperatures: 3000K (Warm white), 4500K (Cool white), and 6500K (Clear white), suitable for various environments and moods.

3 Color Temperatures for Choice

3000K / 4500K / 6500K, for different environments

3. PACKAGE CONTENTS

Please check the package contents carefully upon unboxing. If any parts are missing or damaged, please contact addlon customer support.

- Floor Lamp Frame Components (Metal)

- 5 x Shelf Boards (High-density fiber material)
- 1 x Fabric Lampshade
- 1 x LED Bulb (3 Color Temperatures)
- Assembly Hardware (Screws, Allen wrench)
- Instruction Manual

4. SETUP AND ASSEMBLY

The addlon Floor Lamp is designed for easy assembly, typically taking about 15 minutes for one person. Follow these steps for a smooth setup:

1. Unpack all components and verify against the package contents list.
2. Assemble the metal frame by connecting the vertical poles and horizontal supports using the provided hardware and Allen wrench. Ensure all connections are secure.
3. Slide the shelf boards into their designated slots on the frame. Ensure they are level and firmly seated.
4. Assemble the fabric lampshade. The lampshade comes packed flat and uses Velcro tabs to wrap around its frame. Carefully align and secure the tabs.
5. Attach the assembled lampshade to the top of the lamp frame.
6. Screw the included LED bulb into the lamp socket.
7. Plug the lamp into a suitable power outlet.

For a visual guide, please refer to the detailed installation video provided by addlon. (Note: Video not available in provided)

data for embedding.)

5. OPERATING INSTRUCTIONS

The addlon Floor Lamp features a touch control method for easy operation and color temperature adjustment.

- **Power On/Off:** Lightly touch the designated touch switch on the lamp to turn it on or off.
- **Change Color Temperature:** With the lamp on, repeatedly touch the switch to cycle through the three available color temperatures:
 - 3000K (Warm White) - Ideal for creating a cozy and relaxing atmosphere.
 - 4500K (Cool White) - Suitable for general lighting and comfortable reading.
 - 6500K (Clear White) - Bright and crisp, perfect for task lighting or a vibrant environment.

6. MAINTENANCE

To ensure the longevity and optimal performance of your addlon Floor Lamp, follow these maintenance guidelines:

- **Cleaning:**
 - Dust the lamp frame and shelves regularly with a soft, dry cloth.
 - For the fabric lampshade, use a lint roller or a soft brush to remove dust. Do not use wet cloths or harsh cleaning agents.
 - Ensure the lamp is unplugged before cleaning.
- **Bulb Replacement:**
 - Always unplug the lamp before replacing the bulb.
 - Allow the bulb to cool completely before touching it.
 - Use only LED bulbs of compatible wattage and base type (A19).

- **General Care:**

- Avoid placing the lamp in direct sunlight or near heat sources to prevent material degradation.
- Do not overload the shelves; each shelf has a maximum load capacity of 50 pounds.
- Periodically check all connections and tighten any loose screws to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your addlon Floor Lamp, please refer to the following troubleshooting tips:

Problem	Possible Cause	Solution
Lamp does not turn on.	Not plugged in. Loose bulb. Power outlet issue. Defective bulb.	Ensure the power cord is securely plugged into a working outlet. Tighten the bulb in the socket. Test the outlet with another appliance. Replace the bulb with a new, compatible LED bulb.
Light flickers or is dim.	Loose bulb. Incorrect bulb type/wattage. Power fluctuations.	Tighten the bulb. Ensure you are using a compatible LED bulb. Try plugging into a different outlet or using a surge protector.
Cannot change color temperature.	Touch switch malfunction. Bulb not compatible with color changing feature.	Ensure you are touching the correct area of the switch. Verify the bulb is the original included bulb or a compatible replacement with color temperature changing capabilities.
Lamp feels unstable.	Loose assembly screws. Uneven surface. Overloaded shelves.	Tighten all assembly screws. Place the lamp on a flat, stable surface. Reduce the weight on the shelves, ensuring it does not exceed 50 pounds per shelf.

If the problem persists after trying these solutions, please contact addlon customer support for further assistance.
