EltaMD 0602422

EltaMD Foaming Facial Cleanser Face Wash User Manual

Model: 0602422 | 3.38 Fl Oz (100 mL)

1. Introduction

This manual provides instructions for the proper use and care of your EltaMD Foaming Facial Cleanser Face Wash. Please read this manual thoroughly before using the product to ensure optimal results and safety.
The EltaMD Foaming Facial Cleanser is formulated to gently cleanse and exfoliate the skin. It is designed to be sensitivity-free, pH-balanced, and oil-free, making it suitable for various skin types, including sensitive and acne-prone skin.

2. Product Overview

Figure 2.1: EltaMD Foaming Facial Cleanser bottle (3.38 Fl Oz / 100 mL).

The EltaMD Foaming Facial Cleanser utilizes a self-foaming action to remove impurities, makeup, and excess oil from the skin. Its gentle enzyme and amino acid blend helps to loosen and lift dirt without causing irritation or dryness.

Key Features:

- **Sensitivity-Free:** Formulated to minimize irritation.
- **pH-Balanced:** Helps maintain the skin's natural barrier.
- **Oil-Free:** Suitable for oily and acne-prone skin types.
- **Gentle Enzyme Cleanser:** Aids in mild exfoliation.
- **Non-comedogenic:** Does not clog pores.

- **Fragrance-Free:** Ideal for sensitive skin.

3. Setup

The EltaMD Foaming Facial Cleanser is ready for use directly from the bottle. No assembly or special preparation is required.

1. Remove the product from its packaging.
2. Ensure the pump mechanism is unlocked by twisting the nozzle if necessary.
3. Place the bottle in an easily accessible location in your bathroom.

4. Operating Instructions

Daily Use:

1. **Moisten Skin:** Begin by wetting your face with lukewarm water.
2. **Dispense Cleanser:** Pump a small amount of cleanser (approximately 1-2 pumps) into your palm.
3. **Apply to Face:** Gently massage the cleanser over your face and neck in a circular motion. The cleanser will self-foam.
4. **Allow to Foam:** Allow the cleanser to remain on your skin for 30 seconds to allow the enzymes to activate and loosen impurities.
5. **Rinse Thoroughly:** Rinse your face completely with lukewarm water until all cleanser is removed.
6. **Pat Dry:** Gently pat your skin dry with a clean towel.

Tips for Best Results:

- For optimal cleansing, especially after wearing makeup, consider a double cleanse: first use an oil-based cleanser or micellar water, then follow with the EltaMD Foaming Facial Cleanser.
- Follow cleansing with your preferred toner, serum, and moisturizer.

5. Maintenance

To ensure the longevity and effectiveness of your EltaMD Foaming Facial Cleanser, follow these simple maintenance guidelines:

- **Storage:** Store the bottle in a cool, dry place away from direct sunlight.
- **Pump Care:** If the pump nozzle becomes clogged, rinse it under warm water to clear any dried product.
- **Avoid Contamination:** Do not introduce water or other substances into the bottle, as this may compromise the product's integrity.

6. Troubleshooting

Problem	Possible Cause	Solution
Cleanser does not foam.	Insufficient water on skin or hands; pump nozzle clogged.	Ensure skin is adequately wet. If the pump is clogged, rinse it under warm water.
Skin feels dry or tight after use.	Over-cleansing; not following with moisturizer.	Reduce cleansing time or frequency. Always follow with a suitable moisturizer.

Problem	Possible Cause	Solution
Product not dispensing.	Pump locked; bottle empty; pump mechanism fault.	Twist pump to unlock. Check product level. If still not dispensing, contact customer support.

7. Specifications
