

JESYMBX WeiD-LJ68038

JESYMBX Tail Light Assembly Instruction Manual

Model: WeiD-LJ68038

1. PRODUCT OVERVIEW

This document provides instructions for the installation, operation, and maintenance of the JESYMBX Tail Light Assembly. This product is designed as a replacement rear turn signal, warning, and stop lamp for specific Toyota Land Cruiser Prado models.

Key Features:

- LED Light Source for enhanced visibility and longevity.
- Durable ABS Plastic construction with a clear lens.
- IP67 Waterproof rating, designed to withstand various weather conditions.

2. COMPATIBILITY

This tail light assembly is compatible with the following vehicle models:

- Toyota Prado FJ90 3400 (1998-2002)
- Toyota Prado FJ90 2700 (1998-2002)
- Toyota Prado LC90 3400 (1998-2002)
- Toyota Prado LC90 2700 (1998-2002)

Note: Vehicle compatibility may vary by region. Please verify the product fitment for your specific car model, year, and provide a photo if unsure before purchase.

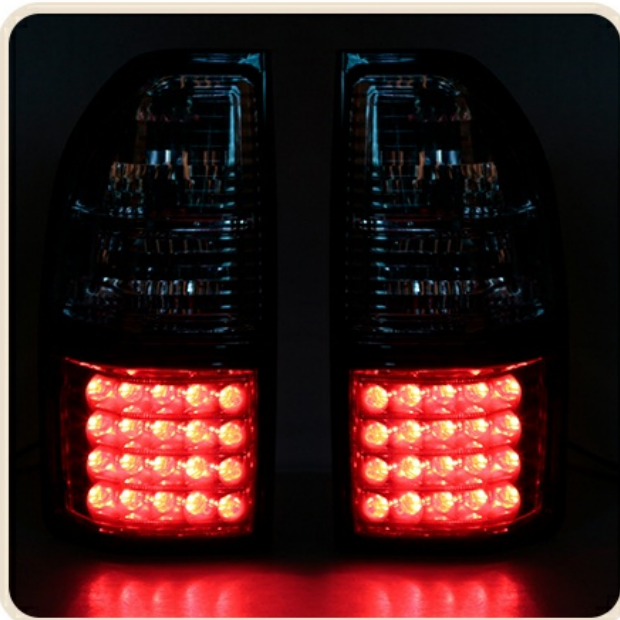

3. PRODUCT DIMENSIONS AND COMPONENTS

Rear Tail Light Brake Running Assembly

For Toyota Land Cruiser 1998-2003

Back Details

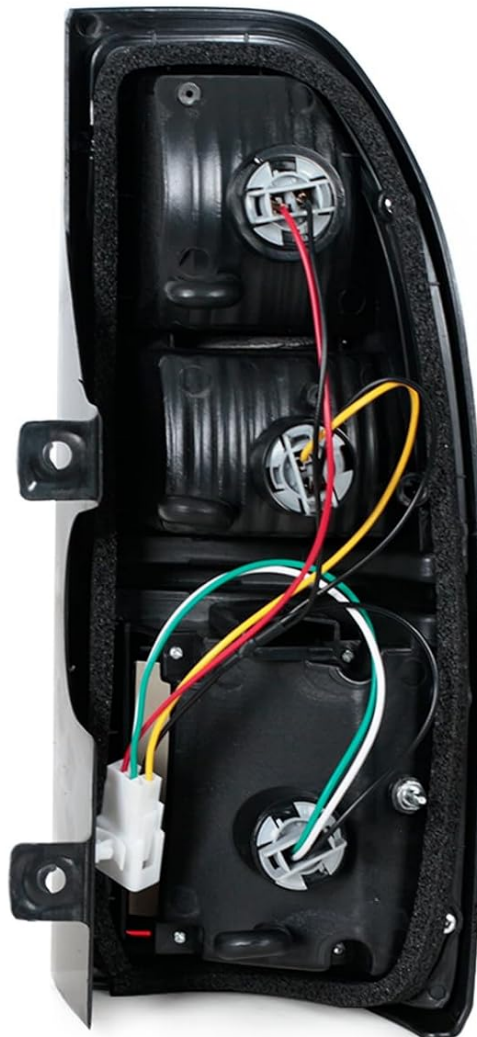

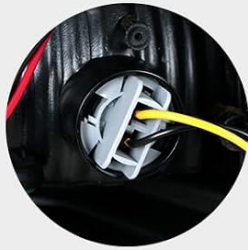

Image 3: Back Details. This image displays the rear of the tail light assembly, showing the wiring harness and bulb sockets for connection to the vehicle's electrical system.

4. INSTALLATION INSTRUCTIONS

Installation of this tail light assembly is designed to be straightforward. However, professional installation is recommended if you are unfamiliar with automotive electrical systems or bodywork. No specific installation instructions are included with the product, but the general steps involve:

1. **Preparation:** Ensure the vehicle is turned off and the battery is disconnected for safety.
2. **Remove Old Assembly:** Carefully remove the existing tail light assembly. This typically involves unscrewing mounting bolts and disconnecting the wiring harness.
3. **Connect New Assembly:** Connect the wiring harness of the new JESYMBX tail light assembly to the vehicle's corresponding connectors. Ensure all connections are secure.
4. **Mount New Assembly:** Position the new tail light assembly and secure it with the appropriate mounting bolts.
5. **Test Functionality:** Reconnect the battery and test all light functions (running lights, brake lights, turn signals)

before fully reassembling any removed panels.

Important: Some users have reported that wiring may require adjustment or that mounting holes may not align perfectly, necessitating minor modifications. Verify all connections and fitment before final installation.

5. OPERATING INSTRUCTIONS

The JESYMBX Tail Light Assembly operates in conjunction with your vehicle's existing electrical system. Once installed correctly, the lights will function automatically based on your vehicle's controls:

- **Running Lights:** Activate when your vehicle's headlights or parking lights are turned on.
- **Brake Lights:** Illuminate when the brake pedal is pressed.
- **Turn Signals:** Flash when the turn signal lever is engaged.

This taillight is available in three colors: Gray Red, Gray and Red White.
Please choose the color that suits you

Image 4: Running and Brake Light Function. This image demonstrates the appearance of the tail light when functioning as a running light (dimmer illumination) and a brake light (brighter illumination).

6. MAINTENANCE

To ensure optimal performance and longevity of your tail light assembly, follow these maintenance guidelines:

- **Regular Cleaning:** Clean the lens periodically with a soft cloth and mild automotive cleaner to remove dirt and debris that may obstruct light output. Avoid abrasive cleaners.
- **Inspect Wiring:** Periodically check the wiring connections for any signs of corrosion or damage. Ensure they remain secure.
- **Check for Cracks:** Inspect the lens and housing for any cracks or damage that could compromise the waterproof seal.

- **Bulb Replacement:** As this unit uses LED bulbs, individual bulb replacement is generally not required. If the entire unit fails, it may need to be replaced.

IP67 WATERPROOF

Can adapt to any weather environment.
sealing performance is strong

**PREMIUM
QUALITY**

Image 5: IP67 Waterproof Feature. This image highlights the IP67 waterproof rating, indicating the product's resistance to dust and water ingress, which contributes to its durability.

7. TROUBLESHOOTING

If you encounter issues with your JESYMBX Tail Light Assembly, consider the following:

- **Lights Not Functioning:**
 - Check all wiring connections to ensure they are secure and properly seated.
 - Verify that the vehicle's fuses related to the tail lights are intact and not blown.
 - Ensure the vehicle's battery is properly connected and charged.
- **Improper Fitment:**

- If mounting holes do not align, minor bracket modification may be necessary.
- Ensure the tail light is correctly oriented and seated before tightening bolts.

• **Flickering or Intermittent Operation:**

- Inspect wiring for loose connections or damaged insulation.
- Ensure the vehicle's electrical system is providing stable voltage.

If troubleshooting steps do not resolve the issue, contact customer support for further assistance.
