## ILIFE A10s

# ILIFE A10s Robotic Vacuum Cleaner User Manual

Model: A10s

## 1. INTRODUCTION

---

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your ILIFE A10s Robotic Vacuum Cleaner. Please read this manual thoroughly before using the product and retain it for future reference.

The ILIFE A10s Robotic Vacuum Cleaner, designed for efficient home cleaning.

## 2. SAFETY INSTRUCTIONS

To reduce the risk of injury or damage, observe the following safety precautions:

- Read all instructions before operating the robot.
- Do not allow children or pets to play with the robot. Supervise children when the robot is operating.
- Do not use the robot in wet environments or near water.
- Remove loose cables, small objects, and fragile items from the cleaning path before operation.
- Ensure the charging dock is placed on a level surface against a wall, with adequate clear space around it.
- Do not use the robot to pick up large debris, liquids, or burning/smoking materials.
- Only use the original power adapter and charging dock provided with the robot.

## 3. PRODUCT OVERVIEW

The ILIFE A10s is a versatile robotic vacuum cleaner featuring powerful suction, customized schedule cleaning, and both vacuuming and mopping capabilities. It is suitable for hard floors and low-pile carpets.

## Components

- Main Robot Unit
- Charging Dock
- Power Adapter
- Dustbin
- Water Tank (for mopping)
- Side Brushes
- Main Brush
- High-Performance Filter
- Cleaning Tool

## 4. SETUP

### 4.1 Unpacking

Carefully remove all components from the packaging. Ensure all packing materials are removed from the robot and its accessories.

### 4.2 Charging Dock Placement

Place the charging dock on a hard, level surface against a wall. Ensure there is at least 1 meter (3 feet) of clear space on both sides and 2 meters (6 feet) in front of the dock for optimal navigation.

Japanese nidec brushless inverter motor  
providing **2600Pa** strong suction

Strong suction | low power consumption | low noise

The ILIFE A10s Robotic Vacuum Cleaner automatically returning to its charging station.

### 4.3 Initial Charging

Connect the power adapter to the charging dock and plug it into a wall outlet. Place the robot onto the charging dock. For first-time use, charge the robot for at least 5-6 hours to ensure the battery is fully conditioned.

### 4.4 App Installation and Pairing

Download the official ILIFE app from your smartphone's app store. Follow the in-app instructions to pair your ILIFE A10s with your device. This enables advanced features like customized scheduling, zone cleaning, and multi-floor mapping.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Powering On/Off

Press and hold the power button on the robot for a few seconds to power it on or off.

### 5.2 Starting a Cleaning Cycle

Press the power button once to start an automatic cleaning cycle. Alternatively, use the mobile app or voice commands (via Alexa) to initiate cleaning.

### 5.3 Cleaning Modes

The ILIFE A10s offers multiple cleaning modes for various needs:

- **Custom Cleaning:** Define specific areas to clean via the app.
- **Selected Cleaning:** Choose specific rooms or zones for cleaning.
- **Forbidden Area:** Mark areas the robot should avoid.
- **Real-time Scanning:** The robot maps its environment in real-time for efficient navigation.
- **Partition Cleaning:** Divide your home into sections for targeted cleaning.
- **Carpet Pressurization:** Automatically increases suction power when detecting carpets.

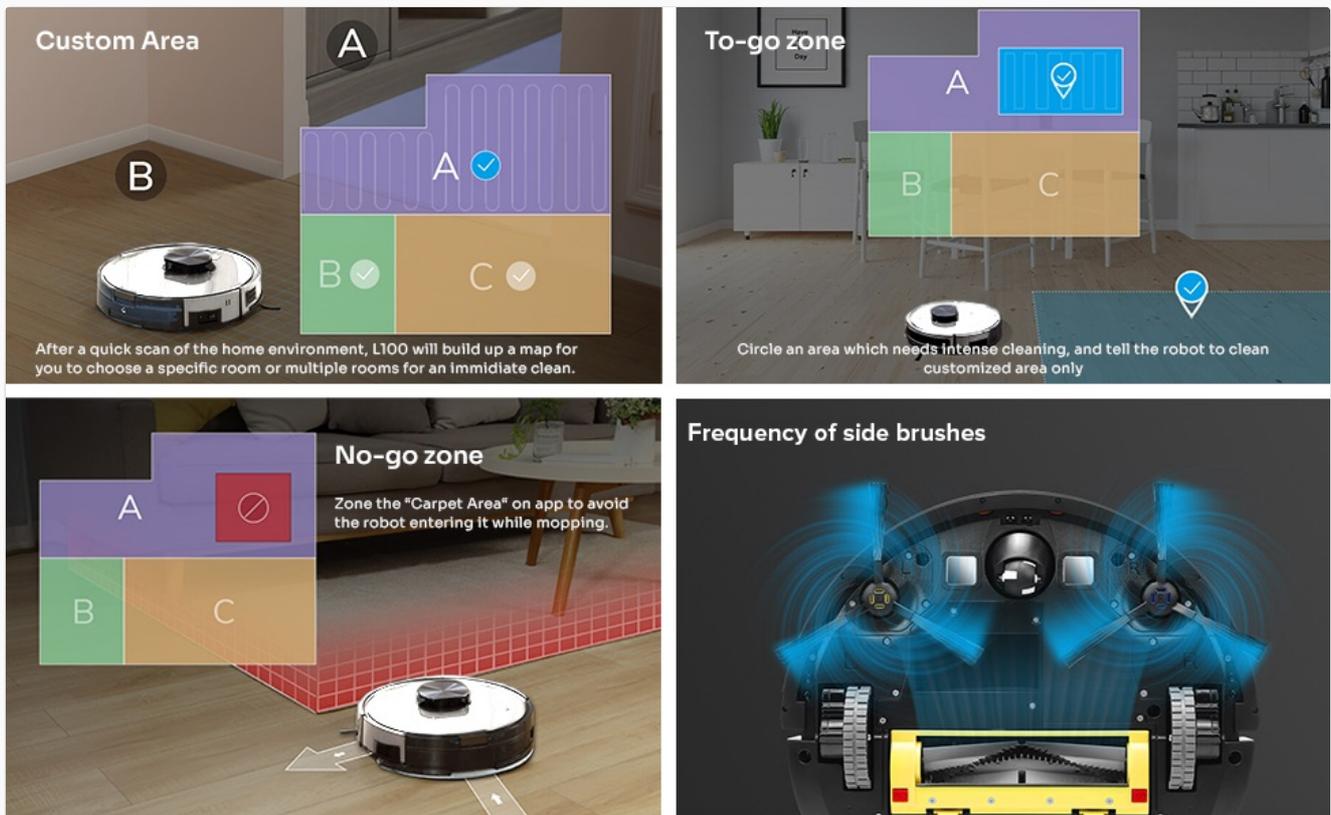

Illustration of various cleaning modes and mapping features available with the ILIFE A10s.

### 5.4 Mopping Function

Attach the water tank and mopping pad to enable the wet mopping function. The robot features an independent motor that drives the water tank to mop the floor with vibrating and friction movements. You can adjust between 3 levels of water flow via the app.

## WET MOPPING

# Independent motor drives the water tank to mop the floor

Vibrate up and down | Friction left and right | 3 levels of water

The wet mopping function of the ILIFE A10s Robotic Vacuum Cleaner, showing water tank and cleaning action.

## Patent Vibrating Water Tank

Imitate the way humans mop for deep cleaning, rubbing back and forth while vibrating up and down. The 3-level adjustable water flows quickly loosen and dissolve stubborn stains.

The Patent Vibrating Water Tank of the ILIFE A10s, capable of 12,000 vibrations/min for deep cleaning.

## 5.5 Multi-floor Mapping and Scheduling

The A10s can store scanned maps for different floors, allowing quick cleaning. You can also set customized cleaning schedules for specific rooms or times using the mobile application.

The ILIFE A10s supports multi-floor mapping and allows scheduling cleanings for specific rooms.

## 5.6 Automatic Recharge

When the battery level is low, the robot will automatically return to its charging dock. It will resume cleaning from where it left off after being fully charged.

## 6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your ILIFE A10s.

### 6.1 Dustbin Cleaning

Empty the Cellular Dustbin after each use. The advanced design separates larger debris from fine dust, maintaining suction power. Remove the dustbin, open it, and discard collected debris. Clean the filter as described below.

Detailed diagram of the Cellular Dustbin for the ILIFE A10s, showing components for cleaning.

### 6.2 Filter Cleaning/Replacement

Tap the filter to remove loose dirt. For thorough cleaning, rinse the filter under running water. Ensure the filter is completely dry before reinserting it into the dustbin. Replace the filter every 3-6 months, depending on usage.

### 6.3 Brush Cleaning

- **Main Brush:** Remove the main brush cover and lift out the brush. Use the provided cleaning tool to remove hair and debris.
- **Side Brushes:** Periodically check side brushes for tangled hair or debris. Gently pull them off to clean and

reattach. Replace if worn.

## 6.4 Water Tank and Mopping Pad Cleaning

After mopping, empty any remaining water from the tank. Rinse the water tank and mopping pad with clean water. Allow them to air dry completely before storage or next use.

## 6.5 Sensor Cleaning

Wipe the cliff sensors, wall sensors, and charging contacts on the robot and charging dock with a clean, dry cloth to ensure proper operation.

## 7. TROUBLESHOOTING

If your ILIFE A10s encounters an issue, refer to the following common solutions:

Problem	Possible Cause	Solution
Robot does not power on	Low battery; Power button not pressed correctly	Charge the robot; Press and hold the power button for 3 seconds.
Robot not charging	Charging contacts dirty; Charging dock not powered	Clean charging contacts; Ensure power adapter is plugged in.
Robot gets stuck frequently	Obstacles in path; Cliff sensors dirty	Clear obstacles; Clean cliff sensors.
Poor cleaning performance	Dustbin full; Brushes tangled; Filter clogged	Empty dustbin; Clean brushes; Clean/replace filter.
Mopping function not working	Water tank empty; Mopping pad not attached	Fill water tank; Attach mopping pad correctly.

For persistent issues, please contact ILIFE customer support.

## 8. SPECIFICATIONS

Feature	Detail
Model	A10s
Brand	ILIFE
Item Weight	5 kg 920 g
Controller Type	Alexa, Voice Control, App Control
Batteries Included	Yes
Suction Power	Up to 2600Pa
Cleaning Modes	Custom, Selected, Forbidden Area, Real-time Scanning, Partition, Carpet Pressurization
Mopping Feature	Vibrating Water Tank, 3 Water Levels

Feature	Detail
Navigation	Smart Laser Navigation and Mapping
Dustbin Type	Cellular Dustbin

## 9. WARRANTY AND SUPPORT

Your ILIFE A10s Robotic Vacuum Cleaner comes with a **1 Year Onsite Service** warranty. For product knowledge, product demonstrations, home installation, product service, or pre-sale queries, please contact ILIFE customer support.
