Flyrivergo B0BTRPZ9JB

Flyrivergo Rotating Display Stand with LED Light

Model: B0BTRPZ9JB | **Brand:** Flyrivergo

INTRODUCTION

This manual provides instructions for the safe and efficient operation of your Flyrivergo Rotating Display Stand with LED Light. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

Always ensure the product is placed on a stable, flat surface. Do not exceed the maximum load capacity of 44 lbs (20 kg). Keep away from water and extreme temperatures. Unplug when not in use or during cleaning.

PACKAGE CONTENTS

- 1 x Rotating Display Stand with LED Light
- 1 x Power Adapter (110V)

PRODUCT PARAMETERS

Size 20cm/7.9inch

Load-bearing 20kg/44lb

Voltage 110V

Speed 45s/r

Weight 1kg

SETUP

1. Place the display stand on a flat, stable surface.
2. Connect the power adapter to the stand's power input port.
3. Plug the power adapter into a standard 110V electrical outlet.
4. Ensure the stand is stable before placing any items on it.

OPERATING INSTRUCTIONS

Controls Overview

The display stand features three main controls:

- **Rotating Switch Button:** Controls the rotation direction (clockwise/counter-clockwise) and turns rotation on/off.
- **Light Switch Button:** Turns the LED light on or off.
- **Brightness Adjustment Knob:** Dims or brightens the LED light.

CONTROL THE DIRECTION OF ROTATION

Press the rotary switch to change the direction of rotation (clockwise or counterclockwise)

Image: Detailed view of the control buttons and knob on the side of the display stand.

Rotation Control

1. To start rotation, press the rotating switch button.
2. To change rotation direction (clockwise or counter-clockwise), press the rotating switch button again.
3. To stop rotation, press the rotating switch button until it is off.

QUIET, NO NIOSE

Will not disturb your video shooting or daily life.

Our turntable

The rotating stand has a smooth motor ($\leq 40\text{db}$) to avoid shake and noise.

Image: Illustration of the rotation control, showing how to switch between clockwise and counter-clockwise motion.

LED Light Control

1. To turn on the LED light, press the light switch button.
2. To adjust brightness, turn the brightness adjustment knob clockwise to increase brightness and counter-clockwise to decrease it.
3. To turn off the LED light, press the light switch button again.

ADJUSTABLE LIGHT

Operating Modes

The display stand supports three operating modes:

- **Mode 1:** Rotation Only (controlled by rotating switch).
- **Mode 2:** Lighting Only (controlled by light switch and dimmer).
- **Mode 3:** Rotation + Lighting (both functions active).

3 MODES

TO HELP YOU DISPLAY

FEATURES

- **High Load Capacity:** Supports up to 44 lbs (20 kg), suitable for various products.
- **Adjustable LED Light:** Integrated white LED lighting with adjustable brightness to enhance product visibility and eliminate shadows.
- **Bi-directional Rotation:** Easily switch between clockwise and counter-clockwise rotation.
- **Quiet Motor:** Operates at ≤ 40 dB, ideal for photography and video recording without noise interference.
- **Durable Construction:** Made from ABS material with anti-slip feet for stability.

MAINTENANCE

- Clean the surface with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Ensure the device is unplugged before cleaning.

TROUBLESHOOTING

- **Not rotating:** Check power connection. Ensure the rotating switch is on. Reduce load if exceeding capacity.
- **Light not working:** Check power connection. Ensure the light switch is on. Adjust brightness knob.
- **Unusual noise:** Ensure the load is balanced and within capacity. Check for any obstructions.

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact Flyrivergo customer service directly. Keep your purchase receipt for warranty claims.
