EMBATHER EMTJ073

EMBATHER Tub and Shower Faucet Set User Manual

Model: EMTJ073

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your EMBATHER Tub and Shower Faucet Set. Designed for durability and ease of use, this set features a dual shower head with a bathtub faucet, single-handle control, and a matte black finish. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product.

IMPORTANT SAFETY INFORMATION

Valve Compatibility: This 4-way shower faucet includes a specific valve and all necessary components for installation. It is **not compatible** with other brands of valves and cartridges. Prior to installation, the removal of old shower valves is required.

Pressure Balance Valve: The integrated cUPC certified pressure balance valve is designed to monitor and enhance water pressure balance, preventing sudden changes in hot/cold water output during bathing. This feature helps prevent scalding or sudden cold shocks.

Water Hammer Prevention: Built-in check valves prevent water hammer, reducing noise and protecting other water devices from impact.

Material Quality: The system utilizes ABS material and brass with 3-layer coatings, designed to resist corrosion in humid bathroom environments. All components undergo strict Saltspray, Blasting, and Flow pressure tests to ensure quality and safety.

[IMPORTANT TIPS]

1. Dual shower head set includes a complete 3 way shower valve
2. Dual shower head set not compatible other brands (Delta,Kohler,Moen,etc.) valves and cartridges.
3. Before installing the valve, must to tearing out the tile or altering plumbing behind the wall, and remove the old valve
4. If you need some help, you can contact qibo@embatherlife.com

SETUP AND INSTALLATION

Installation of the EMBATHER Tub and Shower Faucet Set requires careful attention to detail. It is recommended to have this product installed by a qualified plumber.

1. **Prepare the Installation Area:** Ensure the water supply is turned off. Remove any existing shower valves and trim kits.
2. **Install the Rough-in Valve:** The included brass valve is cUPC certified and must be used. Install it according to standard plumbing practices. Note that this valve is not compatible with other brands.
3. **Connect Plumbing:** Update to NPT 1/2" connector, compatible with U.S. standard plumbing. If your pipeline is not standard 1/2", contact customer support for conversion connectors.
4. **Install Shower Arm and Head:** Securely attach the shower arm with flange to the wall, then connect the rain shower head with its 3-way diverter and bracket.
5. **Install Hand Shower and Hose:** Connect the 71-inch shower hose to the hand shower head and the diverter.
6. **Install Bathtub Faucet:** Securely install the bathtub faucet, ensuring a proper seal.
7. **Install Trim Kit:** Once all internal components are in place, install the decorative trim kit and single-handle control.
8. **Test for Leaks:** Slowly turn on the water supply and check all connections for leaks.

OPERATING INSTRUCTIONS

Your EMBATHER shower system offers versatile control for a customized showering experience.

Single-Handle Control:

The single handle controls both water temperature and flow. Pull the handle to control the switch, and rotate it left for hot water and right for cold water. The pressure balance valve ensures consistent temperature.

Figure 6: The single-handle control allows for easy adjustment of water temperature and flow.

Figure 7: Explanation of the pressure balancing valve, which prevents sudden temperature changes.

3-Way Diverter:

The 3-way diverter allows you to switch between the rain shower head, the handheld shower head, or use both simultaneously. Simply rotate the diverter knob to select your desired water output.

Rain Shower

Figure 8: The 3-way diverter enables selection between rain shower, handheld shower, or a combination.

Figure 9: Choose your preferred shower style: Rain + Handheld, Handheld Shower only, or Rain Shower only.

Spray Settings:

Both the rain shower head and the handheld shower head feature multiple spray settings. Rotate the outer ring of each shower head to cycle through the available spray patterns, such as rain, massage, and mist.

Figure 10: Both shower heads offer 8 distinct spray settings for a personalized experience.

Bathtub Faucet:

The bathtub faucet provides a high flow rate of 1.75 GPM, allowing for quick filling of your bathtub. To divert water from the tub spout to the shower heads, pull up the diverter knob on the tub spout.

High Flow Tub Spout

MAINTENANCE

To maintain the appearance and functionality of your EMBATHER Tub and Shower Faucet Set, follow these guidelines:

- **Cleaning:** Clean the matte black finish regularly with a soft cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Mineral Deposits:** For hard water areas, regularly wipe down the shower heads and tub spout to prevent mineral buildup. The nozzles on the shower heads are designed for easy cleaning; gently rub them to dislodge any deposits.
- **Inspection:** Periodically check all connections for tightness and signs of wear. Address any leaks promptly to prevent water damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Reduced Water Flow	Mineral buildup in shower head nozzles; partially closed shut-off valve.	Clean shower head nozzles. Ensure shut-off valves are fully open.
Water Temperature Fluctuations	Issue with pressure balance valve; insufficient hot water supply.	Verify proper installation of the pressure balance valve. Check hot water heater settings.
Leaking from Connections	Loose connections; damaged O-rings or seals.	Tighten all connections. Inspect and replace any damaged O-rings or seals.
Water Hammer Noise	Air in pipes; high water pressure; faulty check valves.	Flush the water lines to remove air. If problem persists, consult a plumber.

SPECIFICATIONS

Feature	Detail
Brand	EMBATHER
Model Number	EMTJ073
Color	Matte Black
Material	Stainless Steel, Brass, Acrylonitrile Butadiene Styrene (ABS)
Finish Type	Matte Black
Number of Handles	1
