## SAFETY INFORMATION

Always follow the assembly instructions carefully. Keep sharp tools out of reach of children. This product contains small parts that may pose a choking hazard to young children. Always supervise children when using this product. Do not exceed the weight capacity of 300 LBS for each seat to prevent tip-over risks. Always maintain the product in good condition to ensure its stability and safety.

## SETUP AND ASSEMBLY

Your HOOOWOOO patio furniture set is designed for straightforward assembly. Please ensure all parts are present

before beginning. It is recommended not to fully tighten any screws until the entire piece is assembled to allow for proper alignment.

1. Unbox all components and lay them out on a clean, flat surface.
2. Refer to the included instruction manual and verify all parts against the parts list.
3. Each part is clearly labeled with a number or letter. Match these labels to the instructions.
4. Use the provided Allen key to fix screws. Remember to loosely tighten screws initially.
5. Once all components of a piece are in place, then fully tighten all screws.
6. Allow 48 to 72 hours for cushions to fully rebound after unpacking. Gently tap them to aid the process.

## OPERATING AND CONFIGURATION

The modular design of your patio set allows for flexible arrangement to suit any outdoor space or occasion.

### Modular Free Combination

The L-shaped chairs can be separated into individual pieces or combined to form various sofa configurations (L-shape, I-shape, etc.). Use the included clips to securely fix the sections together, preventing movement.

## Free Combination

You could combine the patio sofas in any way as you want.

## TROUBLESHOOTING

Here are some common issues and their solutions:

- **Issue: Furniture sections are sliding apart.**

**Solution:** Ensure all connecting clips are properly installed and secured between the bases of the modular pieces. Verify that the clips are firmly gripping both sections.

- **Issue: Cushions appear flat or not fully expanded.**

**Solution:** After unpacking, cushions require 48 to 72 hours to fully rebound. Gently tap and fluff the cushions to help them regain their shape. Exposure to warm, dry air can also assist in expansion.

- **Issue: Wicker appears loose or damaged.**

**Solution:** While the PE wicker is durable and UV-resistant, inspect it periodically for any signs of wear.

Minor loose strands can sometimes be re-tucked. For significant damage, contact customer support.

• **Issue: Instability or wobbling.**

**Solution:** Check all screws and bolts to ensure they are fully tightened. Verify that the furniture is placed on a flat, even surface. Adjustable feet (if present) can be used to level the furniture on uneven ground.
