

Cybex Melio Carbon

Cybex Melio Carbon 3 Stroller User Manual

Model: Melio Carbon
Brand: Cybex

INTRODUCTION

The CYBEX Melio Carbon is an ultra-lightweight full-size urban stroller, weighing only 13 lbs. Designed for versatility, it is travel system compatible and features a full-size stroller seat. The innovative one-pull harness allows for quick and secure fastening of your child. This manual provides essential information for the safe and proper use, assembly, and maintenance of your Melio Carbon 3 stroller.

Key Features:

- **ULTRA-LIGHTWEIGHT CARBON FIBER FRAME:** Weighs only 13 lbs.
- **UNIQUE ONE-PULL HARNESS:** Secure your child in seconds with one hand.
- **BREATHABLE MESH BACKREST:** Keeps your child cool on warm days.
- **TRAVEL SYSTEM READY:** Compatible with Melio Cot 3 or any CYBEX infant seat (sold separately).
- **ONE-HAND COMPACT FOLD:** Easy to pick up and store with integrated carry handle.

INCLUDED COMPONENTS

Your Cybex Melio Carbon 3 package includes the following:

- Melio Carbon Stroller Frame
- Stroller Seat Unit
- Melio Cot 3 (if purchased as part of a bundle)
- Integrated Carry Handle
- Bumper Bar
- Wheels (Front and Rear)
- User Manual

SETUP AND ASSEMBLY

Follow these steps to assemble your Cybex Melio Carbon 3 stroller:

1. Unfolding the Stroller:

Locate the folding mechanism, typically a latch or button on the side of the frame. Release the latch and gently pull the handlebar upwards until the frame clicks into its fully open position. Ensure all locking mechanisms are engaged before use.

2. Attaching the Wheels:

Insert the front and rear wheels into their designated slots on the stroller frame. Push firmly until you hear a click, indicating they are securely locked in place. Test each wheel by gently pulling on it to ensure it is attached properly.

3. Attaching the Bumper Bar:

Align the bumper bar with the attachment points on the stroller seat. Push it into place until it clicks. Ensure it is securely fastened before placing your child in the stroller.

4. Seat Unit Adjustment:

The seat unit can be positioned forward-facing or parent-facing. To reverse the seat, locate the release buttons on either side of the seat unit, press them, lift the seat, and reattach it in the desired direction until it clicks securely.

OPERATING THE STROLLER

Harness System: One-Pull Harness

The Melio Carbon 3 features a unique one-pull harness for quick and secure fastening. Place your child in the seat, bring

the shoulder straps over their shoulders, and connect the buckle pieces. Pull the strap at the bottom of the harness to tighten it to a snug fit. To release, press the button on the buckle.

Recline Positions

The stroller seat offers multiple recline positions, including an ergonomic near-flat position suitable for naps. To adjust the recline, locate the recline mechanism on the back of the seat and adjust to your desired angle. Ensure the seat is securely locked in place after adjustment.

Brake System

The stroller is equipped with a foot-operated brake system. To engage the brake, press down firmly on the brake pedal located near the rear wheels. To release, lift the pedal upwards. Always engage the brake when the stroller is stationary.

Travel System Compatibility

The Melio Carbon 3 is designed to be part of a travel system. It is compatible with the Melio Cot 3 and any CYBEX infant

car seat (both sold separately). Refer to the specific instructions for attaching these components to the stroller frame.

MAINTENANCE

Proper maintenance ensures the longevity and safety of your stroller:

- **Cleaning Fabric Components:**

Wash separately. Use a gentle action wash with warm water. Do not bleach, do not tumble dry, do not iron, and do not dry clean. Air dry thoroughly before reattaching to the stroller.

- **Cleaning Frame and Wheels:**

Wipe the frame and plastic parts with a damp cloth and mild soap. Do not use abrasive cleaners. Regularly check

wheels for debris and ensure they spin freely. Lubricate moving parts as needed with a silicone-based lubricant.

• **Regular Inspections:**

Periodically check all screws, rivets, and fasteners to ensure they are tight and secure. Inspect the harness system for any signs of wear or damage. If any part is damaged or missing, contact customer support for replacement parts.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

• **Stroller is difficult to fold/unfold:**

Ensure all locking mechanisms are fully disengaged. Check for any obstructions (e.g., fabric, items in the basket) that might be preventing a smooth fold. Refer to the "Setup and Assembly" section for detailed folding instructions.

• **Wheels are not turning smoothly or are wobbly:**

Check if any debris (dirt, hair, lint) is caught in the wheel axles. Clean the wheels and axles thoroughly. Ensure the wheels are correctly and securely attached to the frame. If wobbling persists, inspect for damage to the wheel or axle assembly.

• **Seat recline mechanism is stuck:**

Ensure no fabric or other items are obstructing the recline mechanism. Apply gentle, even pressure when adjusting. If it remains stuck, check the mechanism for visible damage.

• **Harness is difficult to adjust or buckle:**

Ensure the straps are not twisted. For the one-pull harness, ensure the strap is pulled smoothly and directly. If the buckle is stiff, ensure it is clean and free of debris.

If you encounter issues not covered here or require further assistance, please contact Cybex customer support.

SPECIFICATIONS

Feature	Detail
Brand	Cybex
Model Number	Melio Carbon
Color	Moon Black
