4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 30 minutes. Two people are recommended for easier and safer assembly. A screwdriver is recommended in addition to the included tools.

1. **Prepare the Area:** Clear a spacious, clean, and flat area for assembly. Lay down the packaging material to protect the floor and table components.
2. **Identify Parts:** Unpack all components and identify them using the provided parts list and diagrams.
3. **Assemble the Metal Frame:** Begin by connecting the main vertical and horizontal metal frame components using the provided screws and Allen wrench. Do not fully tighten screws until all parts are aligned.
4. **Install Circular Frame:** Attach the distinctive circular metal frame into its designated position within the main frame structure. Ensure it is securely fitted.
5. **Attach Shelf Panels:** Place the engineered wood shelf panels onto the designated supports within the metal frame. Secure them with screws.

6. **Attach Top Panel:** Secure the main tabletop panel to the top of the assembled frame.
7. **Tighten All Screws:** Once all components are in place and aligned, gradually tighten all screws to ensure a stable and secure structure.
8. **Install Adjustable Leg Pads:** Screw the adjustable leg pads into the bottom of the table legs. These can be adjusted to stabilize the table on uneven surfaces.

- **Cleaning:** Wipe surfaces with a damp cloth for general cleaning. Follow with a dry cloth to remove moisture.

- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
