## 4. Maintenance

---

Proper care will help maintain the appearance and longevity of your upholstered bed frame.

### 4.1. General Care

- Regularly dust the velvet upholstery with a soft brush or a vacuum cleaner with an upholstery attachment.
- Avoid direct sunlight exposure to prevent fading.
- Keep the bed frame away from excessive moisture.

### 4.2. Spot Cleaning

- For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and damage the velvet pile.
- For stubborn stains, use a mild, water-free solvent or a dry-cleaning product specifically designed for velvet upholstery. Test on an inconspicuous area first.

## 5. Troubleshooting

If you encounter any issues with your bed frame, please refer to the following common solutions:

- **Squeaking Noises:** Check all bolts and screws to ensure they are tightened securely. Loose connections can cause noise.
- **Unstable Frame:** Re-verify that all components are correctly assembled according to the instructions. Ensure the central support legs are firmly on the floor.
- **Slats Shifting:** Confirm that the Velcro strips on the wooden slats are properly aligned and adhered to the frame.

If problems persist, please contact customer support for further assistance.
