The Mixling has a power button located on its back, usually concealed beneath its tail or fur. Gently part the fur to locate the switch and turn the toy on or off as needed to conserve battery life.

4. TROUBLESHOOTING

Mist Not Appearing

If the mist effect does not appear during the potion-making process, ensure all ingredients have been added in the correct sequence and the cauldron has been tapped as instructed. Check the mist refill level and replenish if necessary.

Smoke Detector Activation

The mist produced by the Magic Mixies Mixlings Collectors Cauldron is designed to be safe and should not activate standard smoke detectors. If a smoke detector activates during play, please investigate other potential causes in your environment.
