Annadue G5 Pro AI

Annadue G5 Pro AI Intelligent Voice Translator User Manual

INTRODUCTION

The Annadue G5 Pro AI Intelligent Voice Translator is a portable, real-time two-way translation device designed to facilitate communication across language barriers. It supports translation in 144 languages, offering clear voice output and high accuracy. Its compact design and long battery life make it ideal for various situations, including travel, business, language learning, and social interactions.

Annadue G5 Pro AI Intelligent Voice Translator. This image shows the compact and sleek design of the device.

SETUP

1. Charging the Device

Before initial use, fully charge the translator. Connect the provided USB charging cable to the device's Micro-USB port and plug the other end into a standard USB power adapter (not included) or a computer's USB port. A full charge takes approximately 2 hours. The 800mAh battery provides up to 48 hours of continuous voice translation or 30 days of standby time.

The Micro-USB charging port on the Annadue G5 Pro AI translator, located on the side of the device.

2. Bluetooth Connection

The translator operates by connecting to your mobile phone via Bluetooth. Ensure Bluetooth is enabled on your smartphone. Power on the translator. Open the dedicated translation application on your phone (download instructions typically found in the packaging or quick start guide). Follow the in-app instructions to pair the translator with your phone. The wireless transmission distance is up to 5 meters.

OPERATING INSTRUCTIONS

1. Powering On/Off

Press and hold the power button (refer to device diagram in quick start guide) for a few seconds to turn the device on or off.

2. Language Selection

Within the connected mobile application, select the source and target languages for translation from the available 144 languages. Ensure the correct languages are chosen for accurate two-way communication.

3. Initiating Translation

The device features two buttons, typically corresponding to two different languages. Press and hold the button corresponding to your language, speak clearly into the translator, and release the button when finished. The device will then translate and speak the phrase in the target language. The voice recognition distance is 1 meter.

Intelligent AI Voice Translator

MAINTENANCE

To ensure the longevity and optimal performance of your Annadue G5 Pro AI translator, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the device. Avoid using abrasive cleaners, solvents, or strong chemicals, as these can damage the surface or internal components.
- **Storage:** Store the translator in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity.
- **Battery Care:** To preserve battery health, avoid fully discharging the battery frequently. If storing for an extended period, charge the device to about 50% before storage and recharge every few months.
- **Protection:** Handle the device with care to prevent drops or impacts. Consider using a protective case if available.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on	Low battery; Device malfunction	Charge the device fully. If still unresponsive, contact support.

Problem	Possible Cause	Solution
No translation output	Not connected via Bluetooth; Incorrect language selection; No internet connection (if required by app)	Ensure Bluetooth is paired. Verify language settings in the app. Check your phone's internet connection.
Translation accuracy is low	Unclear speech; Background noise; Complex sentence structure	Speak clearly and at a moderate pace. Reduce background noise. Use simpler sentences.
Bluetooth connection issues	Device too far from phone; Interference; Bluetooth on phone is off	Keep devices within 5 meters. Avoid obstacles. Ensure phone's Bluetooth is active. Try re-pairing.
