TROUBLESHOOTING

Light is not turning on:

Ensure the night light is securely plugged into a functional power outlet. Try plugging another device into the same outlet to confirm it has power. Gently tap the top surface to activate the light.

Device is not charging:

Verify that the night light is plugged into a live power outlet. Check that your USB cable is properly connected to both the night light and your device. Try a different USB cable or device to rule out cable or device issues.

Light colors are not changing:

Ensure you are tapping the touch-sensitive area on the top of the night light. Try tapping firmly but gently. If the issue persists, unplug the device for 30 seconds and then plug it back in to reset it.
