Aoxun G37066BR02A-HJ-AX

Aoxun 2.5x2FT Outdoor Storage Cabinet with Floor

Model: G37066BR02A-HJ-AX

Brand: Aoxun

Introduction and Overview

This manual provides essential information for the assembly, operation, and maintenance of your Aoxun 2.5x2FT Outdoor Storage Cabinet. Designed for efficient outdoor storage, this metal cabinet features adjustable shelves, a lockable door, and weather-resistant construction suitable for patios, gardens, and backyards.

The cabinet's compact design (approximately 34.65"D x 24.02"W x 64.57"H) maximizes storage in small areas, making it ideal for organizing long-handled tools, gardening supplies, patio cushions, or children's toys.

Product Features

- **Space-Efficient Vertical Design:** Maximizes storage in small areas with a compact footprint.
- **Customizable Storage:** Includes two adjustable shelves for flexible item organization.
- **Moisture Defense:** Features a 14mm-thick PP floor panel to elevate items off damp ground, suitable for various terrains like lawns, decks, or concrete surfaces.
- **All-Weather Durability:** Constructed with UV-resistant, high-strength metal materials to withstand rain, snow, and sun.

- **Snow Load Support:** The roof is designed to support snow loads, with waterproof overlapping wall panels for year-round protection.
- **Enhanced Security:** A lockable door (padlock not included) helps safeguard belongings.
- **Water Runoff:** A sloped roof design efficiently sheds rainwater to prevent pooling and water damage.
- **Ventilation:** Integrated vents promote air circulation, preventing mustiness inside.

Setup and Assembly

Assembly requires attention to detail and patience. It is recommended that 2-3 people participate in the setup process. Basic tools such as a power drill, a wrench, and a step ladder will be necessary. The package includes work gloves for your safety.

Follow the step-by-step manual carefully. All parts are clearly numbered. Ensure proper alignment of all components during assembly to prevent issues. While the galvanized steel is robust, individual panels may feel flexible until fully assembled. Once constructed, the shed becomes sturdy.

The included 14mm PP floor panel should be installed to elevate items and protect them from ground moisture. If placing on a soft surface like grass, consider preparing a stable base such as gravel or pavers for optimal stability and longevity.

Video: This video demonstrates the assembly process for a similar Aoxun metal storage shed (8x6FT model). While the size differs, the general assembly steps,

material handling, and feature highlights (solid floor, high strength beam, sturdy sloping roof) are relevant to understanding the construction of your 2.5x2FT cabinet.

Operating Instructions

- **Adjustable Shelves:** Utilize the two adjustable shelves to customize the internal storage space according to your needs. The shelves can support up to 70 lbs each.
- **Lockable Door:** The cabinet features double doors that open wide for easy access. Secure your belongings by using a padlock (not included) with the integrated metal latch.
- **Ventilation:** The built-in ventilation slots ensure air circulation, which helps prevent moisture buildup and keeps stored items fresh.

Maintenance

- **Cleaning:** Clean the exterior and interior surfaces periodically with a mild detergent and water. Avoid abrasive cleaners that could damage the finish.

- **Weather Protection:** The cabinet is designed to be weatherproof. However, in areas with heavy snowfall, it is advisable to clear excessive snow from the roof to prevent undue stress. In high wind areas, consider anchoring the shed to the ground for added stability.
- **Moisture Management:** While the floor panel provides moisture defense, regularly check for any signs of moisture inside, especially after heavy rain. Sealing any small gaps with silicone may be beneficial for enhanced waterproofing.
- **Rust Prevention:** The galvanized steel construction is resistant to rust. However, inspect for any scratches or damage to the coating and address them promptly to maintain protection.

Troubleshooting

- **Parts Alignment Issues:** If holes do not align perfectly during assembly, re-check the instruction manual to ensure panels are oriented correctly. Slight adjustments may be needed, and a power drill can assist in securing fasteners. Patience is key during this process.
- **Missing Parts:** In the event of missing components, such as brackets, contact Aoxun customer support immediately for assistance.
- **Plastic Film Removal:** Some metal pieces may have a protective plastic film that can be difficult to remove. Carefully peel it off before assembly.
- **Water Pooling on Roof:** The sloped roof is designed to prevent water accumulation. If pooling occurs, ensure the roof panels are correctly installed and free of obstructions.
- **Security Concerns:** The provided lockable latch is for basic security. For enhanced protection of valuable items, consider using a robust padlock and additional security measures as needed.

Specifications

Brand	Aoxun
Model Number	G37066BR02A-HJ-AX
Color	Brown
Material	Metal
Product Dimensions (D x W x H)	21.3" x 29.5" x 64.6"
Floor Area	4.5 Square Feet
Door Style	French Doors
Door Width	20.5 Inches
Door Height	59.4 Inches
Water Resistance Level	Water Resistant
Assembly Required	Yes
