Merax PH0029

Merax Twin Over Full House Bunk Bed with Slide and Built-in Ladder Instruction Manual

Model: PH0029

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Merax Twin Over Full House Bunk Bed. This bunk bed features a twin-size upper bed and a full-size lower bed, a built-in ladder for access, and an integrated slide for recreational use. The design includes a house-shaped roof and full-length guardrails for safety and aesthetic appeal. Please read all instructions carefully before assembly and use to ensure safe and proper operation.

Safety Information

Important Safety Warnings:

- Always use the built-in ladder to access the top bunk.
- Be cautious when using the slide to prevent injuries. Ensure the area around the slide is clear.
- Do not exceed the maximum weight recommendation of 250 pounds for the top bunk.
- Ensure all assembly hardware is securely tightened before use and periodically check for tightness.
- Only mattresses meeting the recommended dimensions should be used.
- The top bunk is not suitable for children under six years of age.
- Prohibit more than one person on the top bunk.
- Always use guardrails on both sides of the upper bunk.

Setup and Assembly

The Merax Twin Over Full House Bunk Bed is designed for straightforward assembly. All necessary parts, tools, and instructions are included in the packaging. It is recommended to have a friend assist with assembly, which typically takes less than an hour.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the parts list are present and undamaged.
2. **Prepare Workspace:** Choose a clear, flat, and spacious area for assembly to prevent damage to the product or flooring.
3. **Assemble Frame:** Follow the step-by-step diagrams provided in the included assembly guide to construct the main frame of the bunk bed. Ensure all bolts and screws are finger-tightened initially.
4. **Attach Ladder and Slide:** Securely attach the built-in ladder and the slide according to the instructions. Ensure all connections are firm.
5. **Install Guardrails:** Mount the full-length guardrails to the top bunk. These are crucial for safety.
6. **Final Tightening:** Once the entire structure is assembled, go back and securely tighten all hardware using the provided tools. Do not overtighten.
7. **Placement:** Position the bunk bed in its desired location, ensuring it is stable and level.

Operating Instructions

This bunk bed is designed for sleeping and supervised play. Adhere to the following guidelines for safe operation:

- **Using the Ladder:** Always use the built-in ladder to access the top bunk. Ensure hands and feet are dry to prevent slipping.
- **Using the Slide:** The slide is intended for single-person use at a time. Slide feet first. Ensure the landing area is clear of obstructions.
- **Weight Limits:** Do not exceed the maximum weight capacity of 250 lbs for the top bunk. The bottom bunk is a full-size bed and can accommodate standard full-size mattress weight.
- **Mattress Placement:** Ensure mattresses are properly seated within the bed frames and do not extend beyond the guardrails on the top bunk.

Maintenance

Regular maintenance will help prolong the life and safety of your bunk bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically (e.g., monthly) inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary.
- **Structural Integrity:** Check for any signs of wear, cracks, or damage to the wood or MDF components. Discontinue use if significant damage is found and contact customer support.
- **Slide and Ladder:** Ensure the slide surface is clean and free of debris. Check ladder rungs for stability.

Troubleshooting

If you encounter any issues with your Merax bunk bed, consider the following common solutions:

- **Bed feels wobbly:** Ensure all assembly hardware is fully tightened. Check that the bed is placed on a level surface.
- **Parts missing during assembly:** Double-check all packaging materials. If parts are genuinely missing, contact Merax customer support with your model number and a description of the missing parts.
- **Difficulty with slide/ladder:** Ensure they are correctly installed and all fasteners are secure. Refer to the assembly instructions.

Specifications
